

The Parts at the back of the Headboard .Please Open the Black Non Waven Fabric to find

BRITTANY

NO power tools required.

Time: 2 hours

Use a damp cloth to clean.

Level of difficulty: 3/4

ASSEMBLY INSTRUCTIONS

Thank you for making a purchase with Aykah. The goal of this assembly sheet is to help you assembly the product in a way that will contribute to its longevity and durability. Kindly follow all the instructions carefully to ensure a safe and accurate assembling process.

A few important things to note:

- Please do not use a power tool to assemble this product. Using one may hinder and/or damage the item and will invalidate any claims for warranty.
- Depending on the amount of use this product receives, it may be recommended to tighten up the fixings from time to time. This is completely normal!
- Do not drag the bed. Always lift with at least two people to avoid injury or damage.

STEP 2

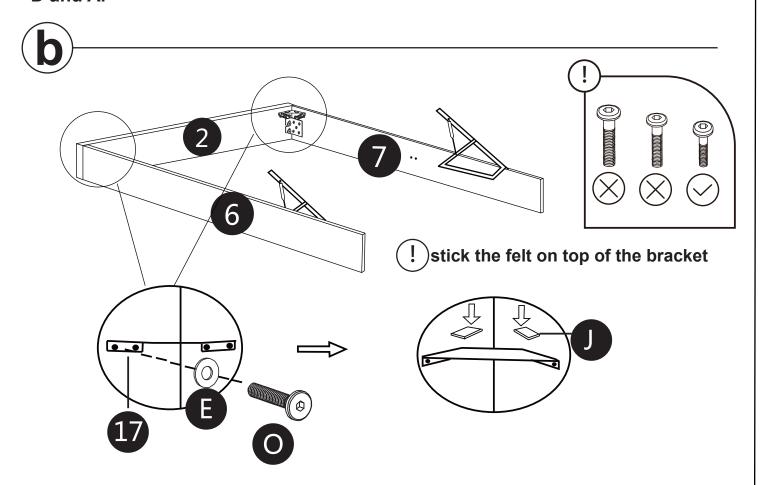

Step 2: Attach mechanism (5) to gas lift (4) on both ends on the right and left gas lift. We will now refer to this as the "gas lift mechanism".

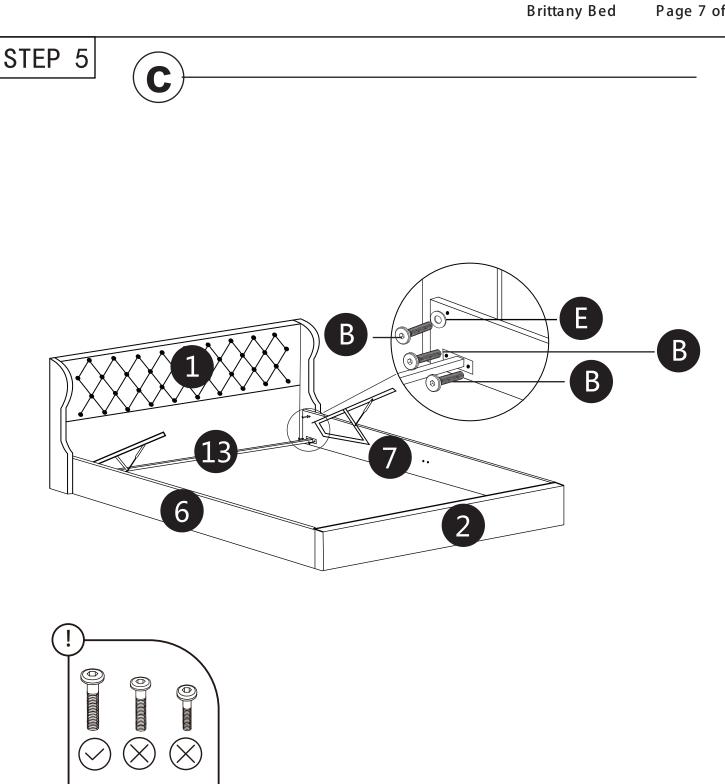

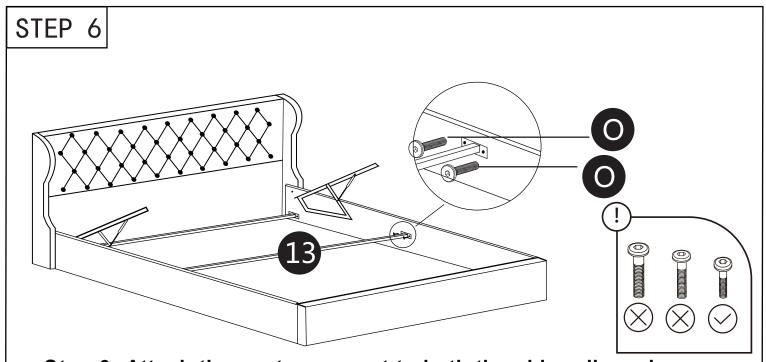

Step 5a: Attach the side rail (6 and 7) with the footboard (1), using hardware E, D and A.

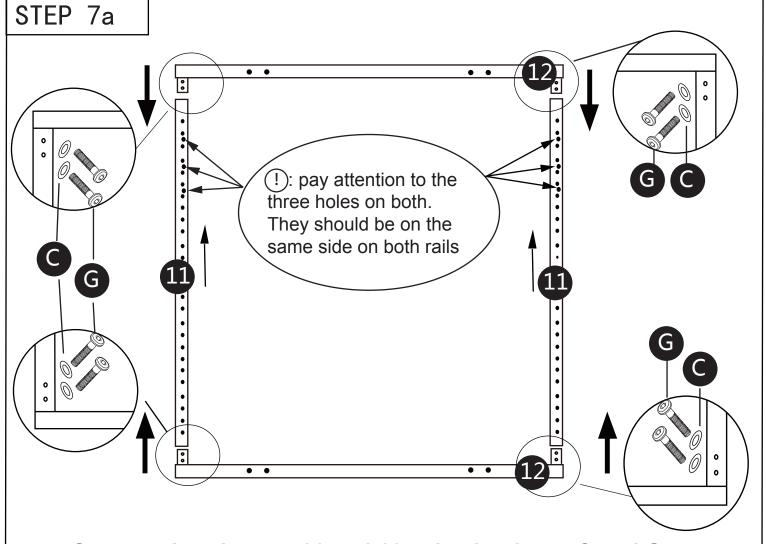

Step 5b: Attach the corner bracket (17) to side rail (6 and 7) and footboard (2), using hardware E and A.

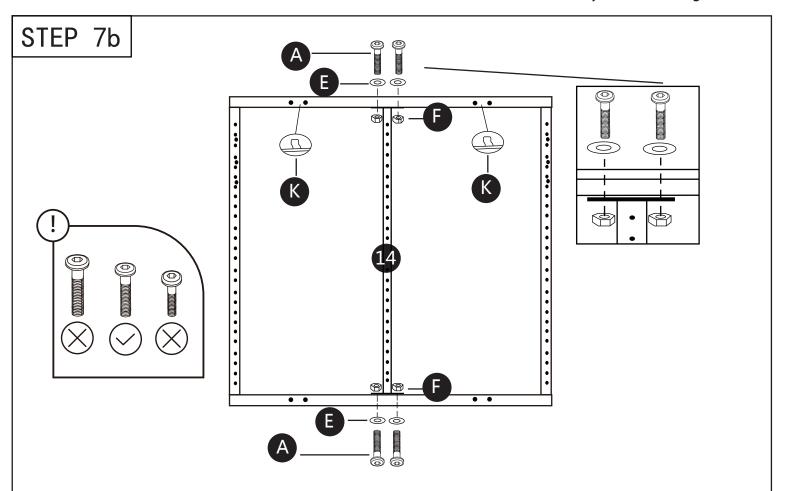

Step 5c: Attach the rail to the headboard and metal bar using B and E.

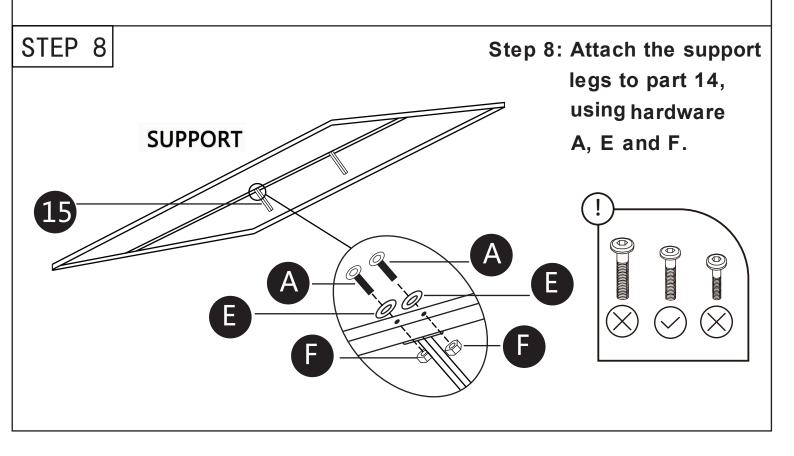

Step 6: Attach the center support to both the side rails, using hardware A.

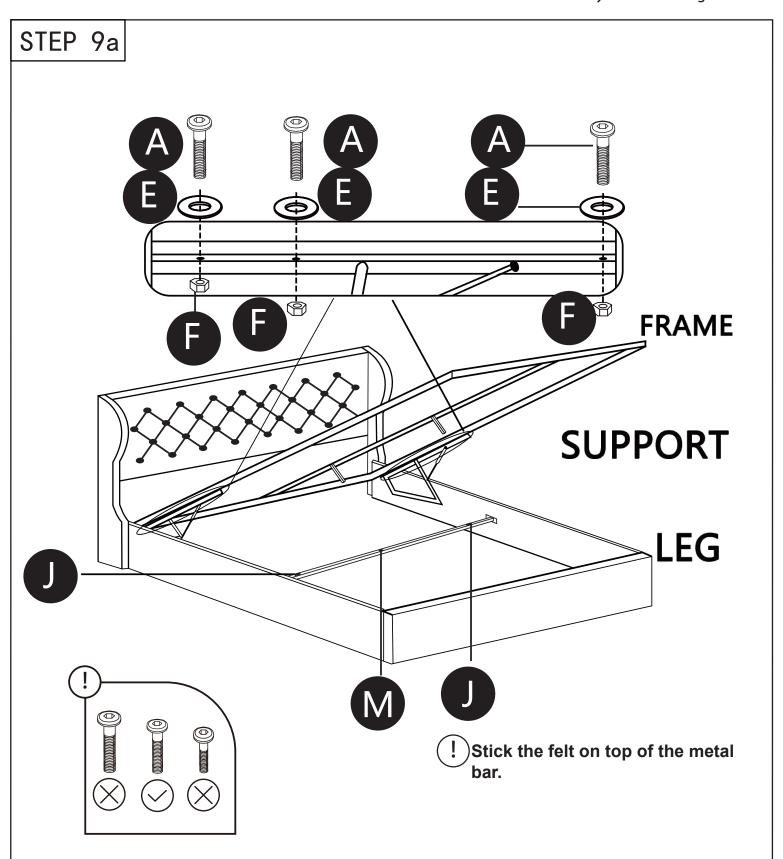

Step 7a: Attach parts 11 and 12 using hardware C and G.

Step 7b: Attach part 14 to both sides of part 12, using hardware A, E and F.

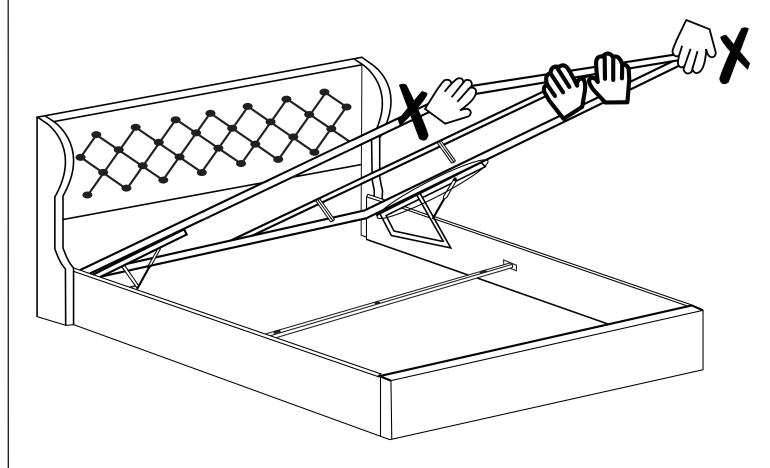

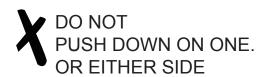

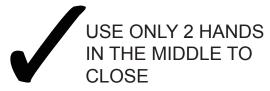

Step 9a: Attach the frame that built in the previous step to the gas lift mechanism at a 45° angle (meaning it will be slanted as the picture), using hardware C, F and E.

STEP 9b

ONCE THE MATTRESS IS ON TOP, YOU CAN OPEN & CLOSE THE BED SAFELY

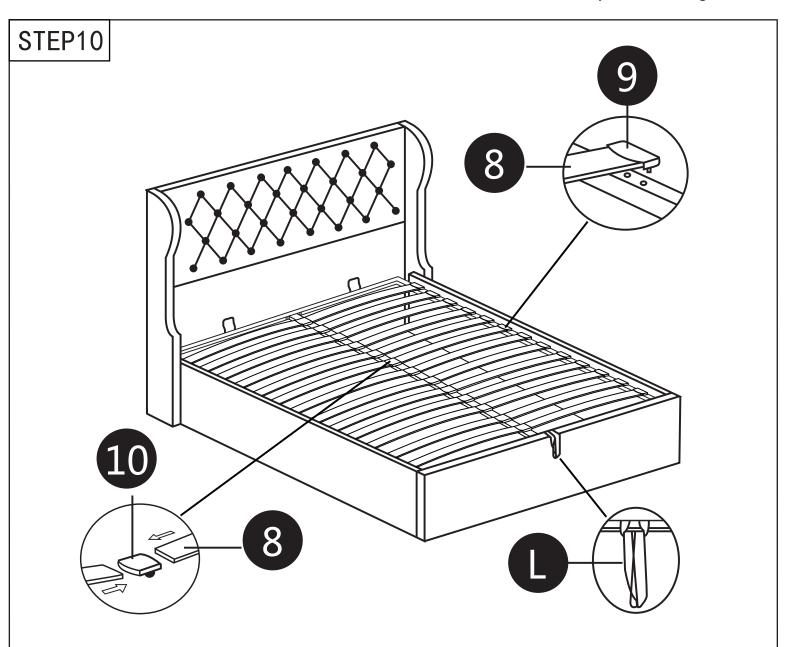

Step 9b:

Once all the nuts and bolts are tightened firmly, the first time you close the lifting mechanism, push down with extra pressure to force open the seals on the pistons.

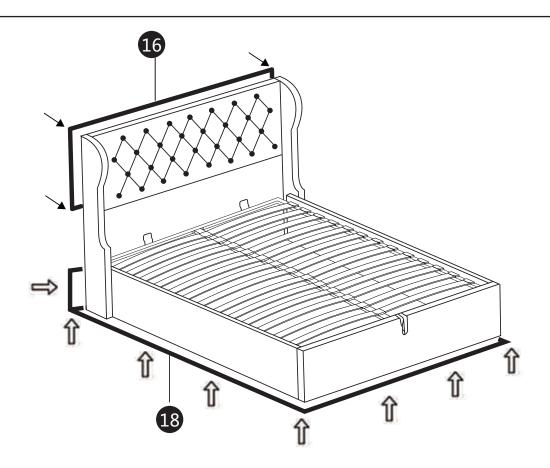

This will feel like a lot of pressure, so be firm and it will close!

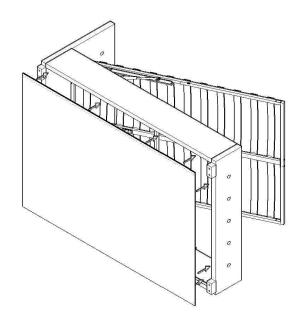

Step 10: Attach the slats to the plastic clips and insert them into the holes of the metal bar.

(!): Clips open from both sides will be attached to the middle bar, and clips open from one side will be attached to the side bars.

STEP11

Step 11a: Attach the non-woven fabric to the bottom of the bed

Step 11b : Attached the non-woven fabric to the back of the

headboard.
