

# Terra2

Stoneware Gravity Housing

Our Terra2™ gravity filter housing is made from our own recipe of processed clay. Each piece is hand finished, and the glaze is sprayed by hand. Our glaze is lead free and made on site.

The Terra2™ holds 2 AquaCera® Slimline gravity filter elements in the upper reservoir, and the lower reservoir holds 1 gallon of filtered water ready for use.

Total volume of the unit is 2 gallons.

The Terra2™ continues our philosophy of bringing gravity filters back to their pottery origins with this unique and highly attractive alternative to stainless steel units. Finished in an off-white glaze, the Terra2™ is designed for daily use at home or work, or just about anywhere.

The Terra2™ is available in bristol white or cobalt blue and is manufactured in the USA.

The Terra2™ holds two AquaCera® Slimline filter elements in the upper chamber. Shown at the left is the unit fitted with two CeraPlus™ 7" filters.

AquaCera® Slimline 5" - 7" gravity filters are compatible with this unit.

Upper reservoir holds 1 gallon of water.

The Terra2™ system holds two 7" AquaCera® Slimline filter elements.  
Imperial filters will not fit this system.

Filter choices:

- CeraPlus™ - Ceramic shell with granular carbon core.  
Replacement part number W9512524.
- Chemix™ - QuickDrip™ carbon block.  
Replacement part number CMX-6GB
- CeraMetix® - Ceramic shell with AquaMetix® core.  
Replacement part number W9512624
- AquaMetix® QuickDrip™ Gravity Block.  
Replacement part number AMX-6GB
- CeraMetix® AMB - Ceramic shell with AquaMetix® block core.  
Replacement part number W9512724

For daily use on municipally treated water sources, we recommend using either the AquaMetix® AMX Gravity blocks or the CeraMetix® 7" filters.

AquaCera® elements are made in the USA and are tested to meet or exceed ANSI/NSF standards. The CeraMetix® AMB and AquaMetix® QuickDrip filters are NSF Certified.

The lower reservoir holds 1 gallon of filtered water ready for drinking. The Terra2™ comes with a stainless steel spigot.

Fully assembled the Terra2™ measures 18" high with the lid in place. The diameter is 8".

Available in bristol white or cobalt blue.

100% Handmade in the USA.
