Tensor™

## The all-in-one solution

As your business grows and changes, your workspace should be able to keep up. That's why we created Tensor – one solution that can adapt to your changing needs. It's the only table that can expand to support multiple tops on a single base so you can install and reconfigure with ease.

## California born and bred

We're a leading manufacturer of commercial solutions in the U.S. — and #1 in task chairs. From tables and lounge to screens and more, we've been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around, and our design and planning services can turn product innovation into your space inspiration. We're able to build almost any specification you want, deliver it when you need it, and offer a level of value no one can match. It's all part of our indie California spirit and drive to be the one place you go for any (and every) space.

Start here. Go anywhere.

The isosceles triangle is an architectural shape used to promote stability. It allows Tensor to move and match the width and the depth of your top. This extensive scalability means you can go from larger meeting tables all the way down to smaller hospitality tables.

## Closer look

GO FROM LARGE TO SMALL (AND ALMOST EVERY SIZE IN-BETWEEN) WITH A SOLUTION MADE FOR VARIETY.

## Super smart & adap-table

Work should bring people together and foster collaboration. With Tensor, you can adapt to your ever-changing office needs. From individual desks to open concept collaborative spaces, Tensor is the first flexible solution of its kind that can adapt not just to the space but the entire office.

# Specifications

**Base Only**  
Supports Tops
