

Relianox™

Critical Cleaning Liquid Detergent Concentrate

Relianox™ is the ideal critical cleaning liquid detergent for use in laboratories, clinics, hospitals, pharmacies, veterinary, cleanrooms, and industrial facilities. Relianox™ is safe and effective in cleaning glassware, instruments, rubber, plastic, and metal components, surfaces, equipment, tanks, and numerous more applications trusted for over 30 years. Relianox™ is a phosphate and soap-free concentrated detergent that is easy to use and offers superior activity for highly effective cleaning in critical environments. A professional FDA compliant cleaner for numerous contact surfaces.

- **COMMERCIAL GRADE** – Critical environment detergent for commercial applications
- **PHOSPHATE FREE** – Formulated with anionic and nonionic detergents and specific wetting agents
- **EASY TO USE** – Highly concentrated liquid detergent that dilutes immediately to provide superior cleaning power
- **SOAP-FREE** – Does not leave insoluble soap films
- **MILD** – Solutions have a **neutral pH of 7** so it is easy on hands after repeated use
- **SAFE** – Does not contain bleach, acids, or caustic agents that can etch surfaces or harm the environment
- **BIODEGRADABLE** – Readily degrades in waste streams and complies with the EPA’s criteria for an industrial detergent
- **CONCENTRATED** – Dilute 1:128 (mix 1 oz Relianox™ to 1 gallon water)
- Non-Corrosive
- Can be used in ultrasonic and automated cleaning systems
- Use in presoak or manual cleaning systems
- Non-abrasive (won't scratch surfaces)
- Will not leave grit or soap scum
- Use for cleaning validations and inspection approvals
- Economically priced

Intended use to remove: Water soluble and water insoluble substances, including grit, grime, grease, oils, blood, tissue, residue, particulates, soiled surfaces, deposits, chemicals, solvents, and much more.

Relianox™ Contains: Sodium Laureth Sulfate (anionic detergent and surfactant), Laramide DEA (non-ionic surfactant), Sodium Dodecylbenzenesulfonate (detergent/disinfectant), Sodium Xylene Sulfonate (wetting agent/surfactant), colorants.

ORDERING	Product Code	Size	Qty	\$/Unit	\$/Case
	P3023-85	3.8L	ea.	\$65.00	
	P3023-87	3.8L Case	4	\$58.50	\$234.00
(Recommended 1 oz. per gallon dilution would yield 128 gallons of detergent solution.)
