

Suppository Strip Holders

With Dimmable LED Backlight Strip

Easily cleanable and durable high-density polypropylene construction with removeable magnetic / dimmable LED backlight strip for easy visual filling. Holder temperature resistant to 200°F. 15.75 in. (L) x 3 in. (W). Holds approx. 23 shells.

	SKU	Size	Price
Holder With LED Backlight	E0543-00	1 ea.	\$58.00
Holder Without Backlight	E0542-00	1 ea.	\$40.00

SRx Suppository Shells, Oval, Pull-Apart, Disposable, White/Opaque

Quality shells made in Italy. PVC/PE Construction. Latex-free. Inquire for larger quantities and/or other sizes.

SRx Suppository Shells, 1.3 ml

SKU	SIZE	PRICE
E0530-05	500pk	\$37.00
E0530-122	1,500pk	\$105.00
E0530-123	15,000pk	\$900.00

SRx Suppository Shells, 2.0 ml

E0535-63	600pk	\$44.00
E0535-124	1,200pk	\$84.00
E0535-117	12,000pk	\$750.00

SRx Suppository Shells, 2.5 ml

E0538-05	500pk	\$37.00
E0538-07	1,000pk	\$70.00
E0538-14	10,000pk	\$650.00

E0536-125	450pk	\$35.00
E0536-126	900pk	\$66.75
E0538-127	9,000pk	\$610.00

SRx Suppository Shells, 3.4 ml

E0537-96	425pk	\$33.25
E0537-97	850pk	\$63.00
E0537-98	8,500pk	\$595.00

PolyBlend Rx™ Suppository Base (Item# B0060)

CATEGORY	<p>PolyBlend Rx is an anhydrous granular form pharmaceutical base used in the preparation of suppositories when a water-soluble or water-miscible base is preferred. PolyBlend Rx consists of varying molecular weight polyethylene glycols with improved emulsifiers and mold release characteristics. Due to the specific polyethylene glycols used in this proprietary blend, PolyBlend Rx exhibits excellent stability at room temperature. PolyBlend Rx releases active pharmaceutical ingredients by dissolving rather than melting, providing an extended disintegration time. Recommended for vaginal and rectal suppositories with a long history of use in pharmaceutical applications worldwide. Includes added emulsifying properties that help with dispersibility and bioavailability of hydrophobic actives. Mold lubrication not required. Ingredients meet the requirements of USP-NF. MP: 50.0-60.0°C (122–140°F)</p> <p>Visit www.specializedrx.com for current sizes and pricing or request a current catalog.</p>
-----------------	--

Witepsol® H15 (NF) Suppository Base (Item# B0066)

CATEGORY	<p>Witepsol®H15 is an NF grade, small pastille form suppository base comprised of glycerides from vegetable origins with a long history of use with a wide range of APIs. Suitable for both rectal and vaginal use. Solubility: Witepsol®H15 is readily soluble in diethylether, toluene and n-hexane and slightly soluble in anhydrous ethanol and methylene chloride. Practically insoluble in water. Witepsol®H15 has a hydroxyl value of 5-15. It is used as a compound for suspension suppositories having a proportion of solid active compounds of less than 25%. Meets the requirements of USP-NF (Hard Fat) and Ph. Eur. (Hard Fat With Additives) MP: 33.5 to 35.5°C (92.3 to 95.9°F)</p> <p>Visit www.specializedrx.com for current sizes and pricing or request a current catalog.</p>
-----------------	--

Supposi-plex™ R36 Suppository Base (Item# B0040)

CATEGORY	<p>Supposi-Plex R36 is a highly versatile pellet form suppository base with a long history of use in a wide range of APIs. Easy to use suppository base that is 100% derived from vegetable origin. Stable at room temperature, non-irritating and generally recommended for rectal suppositories. Mold lubrication not required. Meets the requirements of USP-NF/EP. MP: 34.0-38.0°C (93–100°F)</p> <p>Visit www.specializedrx.com for current sizes and pricing or request a current catalog.</p>
-----------------	--

Supposi-plex™ V33 Suppository Base (Item# B0050)

CATEGORY	<p>Supposi-Plex V33 is a pellet form, easy to use compounding suppository base that is derived from vegetable and fatty alcohol origins. Stable at room temperature, non-irritating and generally recommended for vaginal and rectal suppositories with a long history of use in pharmaceutical applications worldwide. Contains emulsifiers that improve dispersibility of hydrophobic actives. Mold lubrication not required. Meets the requirements of USP-NF/EP. MP: 32.0-35.0 °C (90-95°F)</p> <p>Visit www.specializedrx.com for current sizes and pricing or request a current catalog.</p>
-----------------	--

Supposi-plex™ V65 Emulsifying Suppository Base (Item# B0061)

CATEGORY	<p>Supposi-Plex™ V65 is a unique emulsifying suppository and ovule base formulated primarily for vaginal compounding for female hormones and vasodilators but also suitable for rectal applications. Commonly used to help enhance dispersibility and absorption by better wetting of mucosae for incorporation of oil soluble and water-soluble medications. Supposi-Plex™ V65 reduces the feeling of dryness and improves the sensory profile lacking in other vaginal suppository bases.</p> <p>Supposi-Plex V65 is a pellet form, easy to use compounding suppository base that is derived from triglycerides of vegetable origins, cetylstearyl alcohol, and cera alba (beeswax). Stable at room temperature, non-irritating and has a long history of use in pharmaceutical applications worldwide. Contains emulsifiers that improve dispersibility of hydrophobic actives. Mold lubrication not required. Meets the requirements of USP-NF/EP. MP: 33.0-35.0 °C (91-95°F)</p> <p>Visit www.specializedrx.com for current sizes and pricing or request a current catalog.</p>
