ARCADIA:  
GARDEN PARADISO

# nicolette mayer

© Nicolette Mayer, 2018

The Nicolette Mayer Collection was founded in 2012 by husband and wife Nicolette Mayer and Jonathan Dietze who share a love for timeless yet chic modern design. Both with backgrounds in fashion, furniture, fabrics and product design, the design duo began to create a collection of home decor wallpapers and fabrics that are celebrated among the world's most discerning interior designers and their clients. An award-winning brand that is often featured in Elle Decor, Architectural Digest, House Beautiful, Traditional Home, Country House Magazine, Luxe Interiors & Design, The Wall Street Journal, Marie Claire, among others. The brand has distribution among the top exclusive international editors. Made both in the U.K. and the U.S. using the best manufacturers and top quality materials, the brand is always on the cutting edge of new trends, new materials and designs. First worldwide to create printed grasscloth wallcoverings, Nicolette Mayer now introduces the first printed cork wallcoverings, with delicate layers of metallic shimmer between perfectly imperfect cork for staining texture.

Cork is a very "clean" product, made from recycled leftover woods from the wine-making cork process. If you've got your ear to the wall in interior design, you've no doubt heard people singing the praises of cork.

Cork is more popular than ever because of its visual appeal and environmentally friendly qualities. Green designers especially love using cork because it's an "upcycled" material, meaning that it's often created from leftover materials from wine-making. Cork wallpaper can also help insulate walls because it does not transfer heat or cold, so it can actually save money on heating and cooling costs.

*"Arcadia is a poetic place associated with beautiful splendor, harmony with nature: an unspoiled Utopian Garden of Eden"*

Nicolette Mayer

Breathtaking, inspired by the dynamic patterns of nature, bold and sophisticated with metal leaf shimmer from beneath its bark. This versatile wallpaper is genuine cork; marvelous in contemporary or modern décor in its silver, gold, copper, or pewter depictions. Cork wallpaper is often created by hand. Hand assembly also means you can expect unmatched quality in materials and craftsmanship.

This year, the Nicolette Mayer Collection launches Arcadia, in two volumes. Beginning with our extraordinary 8-panels ARCADIA, can also be customized to larger heights, and is produced on grasscloth. The fantasy Animalia and jungle scenes are pure fun and fantastical. We also pair it with a myriad of other elegant, color-filled patterns to coordinate from room to room, a curated approach that has become part of our signature irreplaceable style.

Arcadia is a Garden of Unimaginable Beauty, seen as a lost, Edenic form of life, contrasting to the progressive nature of Utopian desire. It is a way of life we all dream of... full of beauty, interesting animals, wild unspoiled nature and the joy of leisure. Enjoy being surrounded by Arcadia!
