

Handle with care

- Always apply your perfume and sunscreen *before* putting on your jewelry.
- Treasure your jewelry in a dark place is our advise. When you do not wear it keep it in a soft fabric bag.
- Keep each piece seperately to prevent scratching.
- Please use shampoo, soap etc *before* wearing your jewelry. And please keep it in your towel or in a little soft bag before you take a swim in the pool or the sea.

Golden jewelry rules

- Wear more & clean less.
- With a soft baby toothbrush and mild natural dish soap you can polish your jewelry.
- Extra extra care with gemstones & pearls.
