

## HIERARCH ${ }^{\prime \prime}$ <br> by MooreCo

Product Specifications Hierarchy Grow and Roll Mobile Magnetic Glass Board

## OVERVIEW

The Hierarchy Grown and Roll Board offers up to twice the functional writing surface of a wall-mounted board with a sturdy, mobile, steel frame.

## GLASS PANELS

Glass panels are made of $0.15^{\prime \prime}$ thick, tempered glass. Boards are available in gloss white, gloss black, low-iron white, red, orange, yellow, green, blue, navy and purple. Visionary glass boards are backed with 20 Ga steel to allow for the attachment of rare earth magnets.

## FRAME

The platinum powder coated frame is made up of three crossbars, two uprights, and two legs. The two uprights are $1.88^{\prime \prime}$ deep and are made of 14 Ga steel. They are connected by two 1 " square 16 Ga upper crossbars with two $\mathrm{M} 6 \times 12 \mathrm{~mm}$ screws at each connection point. The lower crossbar has a $.25^{\prime \prime}$ channel on each side made of 16 ga steel to hold the visionary boards. This lower crossbar is connected by one M6 $\times 12 \mathrm{~mm}$ screw on each side and one M6 $\times 35 \mathrm{~mm}$ screw which connects the crossbar and uprights to the foot as well. The feet are $1.78^{\prime \prime} \times 1.125^{\prime \prime} \times 23.25^{\prime \prime} 16$ Ga steel covered by 12 Ga steel plates welded along their length. Attached to the upper crossbar is a 20 Ga steel channel that holds the glass to the frame. Foam adhesive is used on both sides of the frame to asssist in holding the glass boards. The frame sits on four 60mm casters (two locking and two non-locking) with M10 $\times 15 \mathrm{~mm}$ stems. Fully assembled, the frame stands $75.50^{\prime \prime}$ tall $\times 47.50^{\prime \prime}$ wide $\times 23.25^{\prime \prime}$ deep for the tallest option.
