

MOBILE DEVICE CHARGING SOLUTIONS

LLTP30USBC

30-LAPTOP/TABLET USB-C CHARGING CART

Easily charge and secure laptops, tablets, iPads, and Chromebooks with Luxor's mobile and convenient device storage solution.

Its innovative design features front-mounted USB-C charging outlets – one per divider slot – that reduce cable clutter and make it incredibly easy to access power and plug in devices.

An additional benefit is the front-mounted USB-C ports eliminate the need for power adapters (a.k.a power bricks), which can block adjacent outlets on a traditional power strip, limiting the number of devices you can plug in.

Users can utilize any compatible USB-C to USB-C, USB-C to USB-A, or USB-C to Lightning cable of their choosing. Or, for a clean and uniform look, choose Luxor's optional USB-C to USB-C 30-pack.

Additional highlights include a transparent front door for easy viewing of contents. Dual ventilation fans provide cooling airflow.

Like all Luxor products, it's built to give you all the quality and features you need and nothing you don't, so you can maximize your budget dollars.

Dimensions:

- Overall: 25.6" W x 18" D x 44" H
- Divider slots: 1-1/8" W x 15" D x 10" H
- Divider fins: 0.25" W x 11" D x 6" H
- Handle: 13.5" W x 2.25" D
