### NATURAL CORK TACKBOARD - ALUMINUM TRIM

- Natural cork tackboards are suitable for any classroom, library, or other space, dampening sound and adding texture as well as display space.
- Natural cork is an environmentally responsible and naturally renewable resource. Cork is harvested from a cork tree, stripped with careful cuts that do not harm the inner core of the tree. The cork bark regrows, and this process allows a useful life of more than 150 years for each tree.
- Choose from three substrate options to fit your requirements or budget:
- **Valu-Tak:** Our most economical and best value surface, Valu-Tak features 1/8" thick cork layer bonded to 3/8" lightweight and tackable substrate material.
- **Natural Add-Cork:** Step up to our select Add-Cork surface, which features a 3/8" thick cork layer bonded to 3/8" thick durable substrate material.
- **Natural Cork-Plate:** Premium Cork-Plate surface is our top of the line option, featuring a full 1/4" thick cork layer bonded to 3/4" thick rigid and moisture-resistant substrate material.
- Anodized aluminum trim has a 7/8" profile with hairline mitered corners. Black aluminum trim available at an upcharge.
- Ten year limited warranty.
- SCS Indoor Advantage Gold Certified.

#### NATURAL CORK TECHNICAL INFORMATION

- Natural cork surface offers excellent resiliency and tack holding properties.
- The cork layer consists of finely grained composition cork produced with .5mm granulated cork and a polyurethane binder.
- The 3/8" thick 100% natural cork layer is permanently bonded to a 3/8" thick layer of insulation board.
- Boards are factory framed. Custom sizes are available.
