Product Description —

The League of Luck is a tower of fun where all activities are planted on a single large platform. There are multiple ways to scale the League of Luck, both challenging and inclusive. Kids can choose the Castle Rock Wall Climber, a Vertical Indented Ladder, a Slitted PE Wall Climber, or a Draw Bridge Climber. These climbers are thrilling and fantastic for building strength and coordination in a fun way. What awaits kids at the top is a combination of interactive activity panels and some speedy slides. The Gear Panel is a fun way to introduce kids to the basics of mechanics. The slides include two tall Right Turn Slides of different heights and a shorter Straight Slide that whooshes them down in a snap. Kids can also wave to their supervisors from the Balcony Panel and flex if they've made it to the top. A variety of activities are tucked on the ground level, too, such as the Half Spelling and Half Math Panels, Store Panel, Ship's Wheel, Bongos, and Bench Panel.
