Product Description —

The Cold Harbour Commons is a castle-themed playset with castle walls and roofs enclosing it from all sides. Kids have both challenging and easy options to climb this mini castle. The Transfer Station stairs are a good start for kids of all ages and abilities. Kids with a thirst for dares would prefer scaling the vertical Pod Climber or the inclined Draw Bridge Climber. The climb will introduce kids to a number of activity panels and slides. Activities like the King and Queen Panel, Pinball Activity Panel, and the Hare and Tortoise Panel will keep a bunch of kids entertained simultaneously. The real highlights above are the two exciting slides. The Double Slide is tall and good for two friends wanting to race. While the Right Turn Slide takes them on a twisty ride down. Kids can also wave to their supervisors from the Bubble Panel to call them to a slide they're about to take. On the ground level of the Cold Harbour Commons kids can make music on the Single Drum and Bongos.
