Product Description

When you want kids to improve their physical fitness while having immense amounts of fun at the same time, add the Pine Valley to your playground for hours of fun. Every one of the features on the structure helps children develop their sense of balance and coordination, from the Saddle Slide alternative to a regular slide to the multiple S Balance Bridges and the Zig Zag Challenge Bridge. Children will have to learn to make their feet, hands and center of gravity work together on the huge Net Climber that spans a section as well as on the Arch Rope Bridge which only has one central rope to stand on. The play equipment comes with three Craggy Climber Straight Sections with lots of hand holds and spaces to place feet, and only the bravest children will be able to scale across all three sections without falling off. A Tilted Pebble Bridge and Inclined Uneven Bars will work different parts of the body, and kids who want to add some dizzying fun to their day can have a blast on the Overhead Spinner with Pebble or use the Standing Orbital Spinner.
