

LIVDEN

MODERN TILES FOR YOUR MODERN WORLD.

MEET LIVDEN

Imagine a world where art meets sustainability and recycled materials are at the forefront of every home.

That's the world LIVDEN is creating.

Female-founded and female-led, LIVDEN was created by two stepsisters who recognized a growing need for eco-conscious, decorative tile.

Prioritizing process and product, they leveraged their knowledge of the tile world to create a modern, sustainable tile line that makes it easy for people to go green, without sacrificing on design.

Made from ethically manufactured recycled materials, LIVDEN tile brings you the best of sustainability and originality so your walls don't have to go naked.

At LIVDEN, there's always something new.

Visit [LIVDEN.com](https://www.livden.com) to see what we're up to!

MATERIALS

Chunky Terrazzo | Terrazzo is one of the world's original recycled materials. Our Chunky Terrazzo is made from recycled glass composites and recycled water in a state-of-the-art, energy-efficient facility. It is made in the USA by a manufacturer who is continually committed to reducing environmental strain and impact.

Polar Ice Terrazzo | Made in the USA by a member of the U.S. Green Building Council, our Polar Ice Terrazzo is an artful blend of 65-66% post-consumer recycled glass, granite, quartz, and pre-consumer porcelain.

Ivory Porcelain | An entirely USA-manufactured porcelain, our Ivory Porcelain has earned a Green Squared certification from the Tile Council of North America and is made by using recycled material and recycled water.

Because our tiles are made with love from recycled materials, each lot is unique. Please email hello@LIVDEN.com for current lot photos.

SUSTAINABILITY

Powered by Green Manufacturing Partners

We partner with suppliers who share our unwavering commitment to the environment. We believe working with regional networks of like-minded manufacturing partners is vital to creating a healthier ecosystem for all.

Tiles Made from Recycled Materials

All LIVDEN products are designed with sustainability in mind. Utilizing upcycled post-consumer materials allows us to diminish our natural resource consumption and impact on the environment.

Made in the USA

LIVDEN tiles are 100% made in the USA and domestically produced.

Corporate Social Responsibility

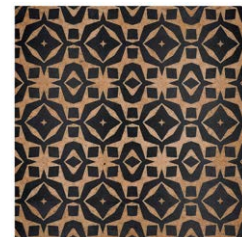

At LIVDEN, we are committed to our people and our planet. We look to empower the communities we serve and promote diversity at all levels within our organization.

INSPECTION REQUIREMENT

- All products should be inspected and approved before installation begins.
- Allow tiles to dry set for 24 hours after they have been unpacked and inspected.
- Installation of the product signifies acceptance.
- In the event you receive incorrect material, or are missing a portion of your order, we ask that you notify us within 5 days of receipt of package. Replacement items will be shipped via the same method that the items were originally shipped.
- Any damage that is apparent upon delivery must be noted on the freight carrier delivery receipt. All products leave our warehouse in excellent condition but if you notice torn or damaged boxes, or any signs of mishandled shipment, please note this by writing a detailed description of the damage on the Delivery Form presented to you by the trucking company/LTL Carrier driver for signature before signing. Please take photos of the damage for the claims process. If the damage is severe, we recommend you refuse the shipment entirely. All claims for damaged or broken merchandise must be made through carrier.
- Tile should be stored in a dry area where temperatures will not dip below freezing.
- LIVDEN tiles are as much an art as a science. Variation is inherent to our tiles and should be expected. To ensure the smallest possible range in color variation, it is best to order enough tile to complete your installation and, depending on the project, 10 - 15% extra.

SUITABLE INSTALLATION AREAS

Our water friendly tiles arrive sealed with a clear, strong, three part acrylic topcoat.

APPROVED Installation Spaces:

- Indoor dry wall applications
- Light traffic residential flooring
- Intermittent wet spaces such as shower walls
- When installed on shower walls, a high quality waterproofing system, such as Schultor or Laticrete, should be used

DO NOT INSTALL:

- In any application where the tiles will be submerged in water, such as fountains or pools
- On shower floors
- In steam showers or saunas
- In outdoor spaces

TAPE & MOISTURE BARRIERS

- When tile is installed on a concrete slab at ground level, it is the responsibility of the buyer and installer to ensure that a proper moisture barrier is in place prior to installation.
- Do not use tape of any kind on LIVDEN products; this includes "Blue Tape."

CUTTING & SEALING TILE

All LIVDEN Materials:

- Use a wet saw to cut tile, with design facing up.
- Pat dry and allow to completely air dry on a dry surface, being careful of the cut edge while it is still wet. It is at this stage that the seal on the cut edge is at its weakest and should be touched as little as possible until the tile has completely dried. We recommend sealing the grout after installation with a high grade penetrating sealer.

GROUTING & ADHESIVE

Tiles on Terrazzo or Porcelain:

- We recommend non-sanded grout, however fine aggregate grouts can be used with care.
- Metal spatulas, trowels, or other tools should be avoided. Rubber, plastic, or some combination of poly/rubber/plastic float may be used.
- We have not tested every grouting product on the market, so it is always advisable to test first.
- Adhesive should be specified for use: typically a Rapid Set Thinset is recommended. Do not use Mastic or premixed tile Adhesives (for example, AcrylPro, Mapei Type 1 Tile Adhesive, Henry Mastic).

HEAT ADVISORY & COUNTERTOPS

- If tile is being installed behind or above a professional grade stove, please confirm the correct size riser is being used in accordance with the stove manufacturer's recommendations to ensure combustible wall material is properly protected from prolonged exposure to high heat. This includes tile, dry wall, and wood studs used in standard "to code" construction.
- Tiles may withstand temperatures below 300 degrees and may be installed on a fireplace mantel so long as no flames or excessive temperatures will reach the tiled area.
- Tiles have not been tested for use in temperatures below freezing.
- We do not recommend installation of our tile on kitchen countertops.

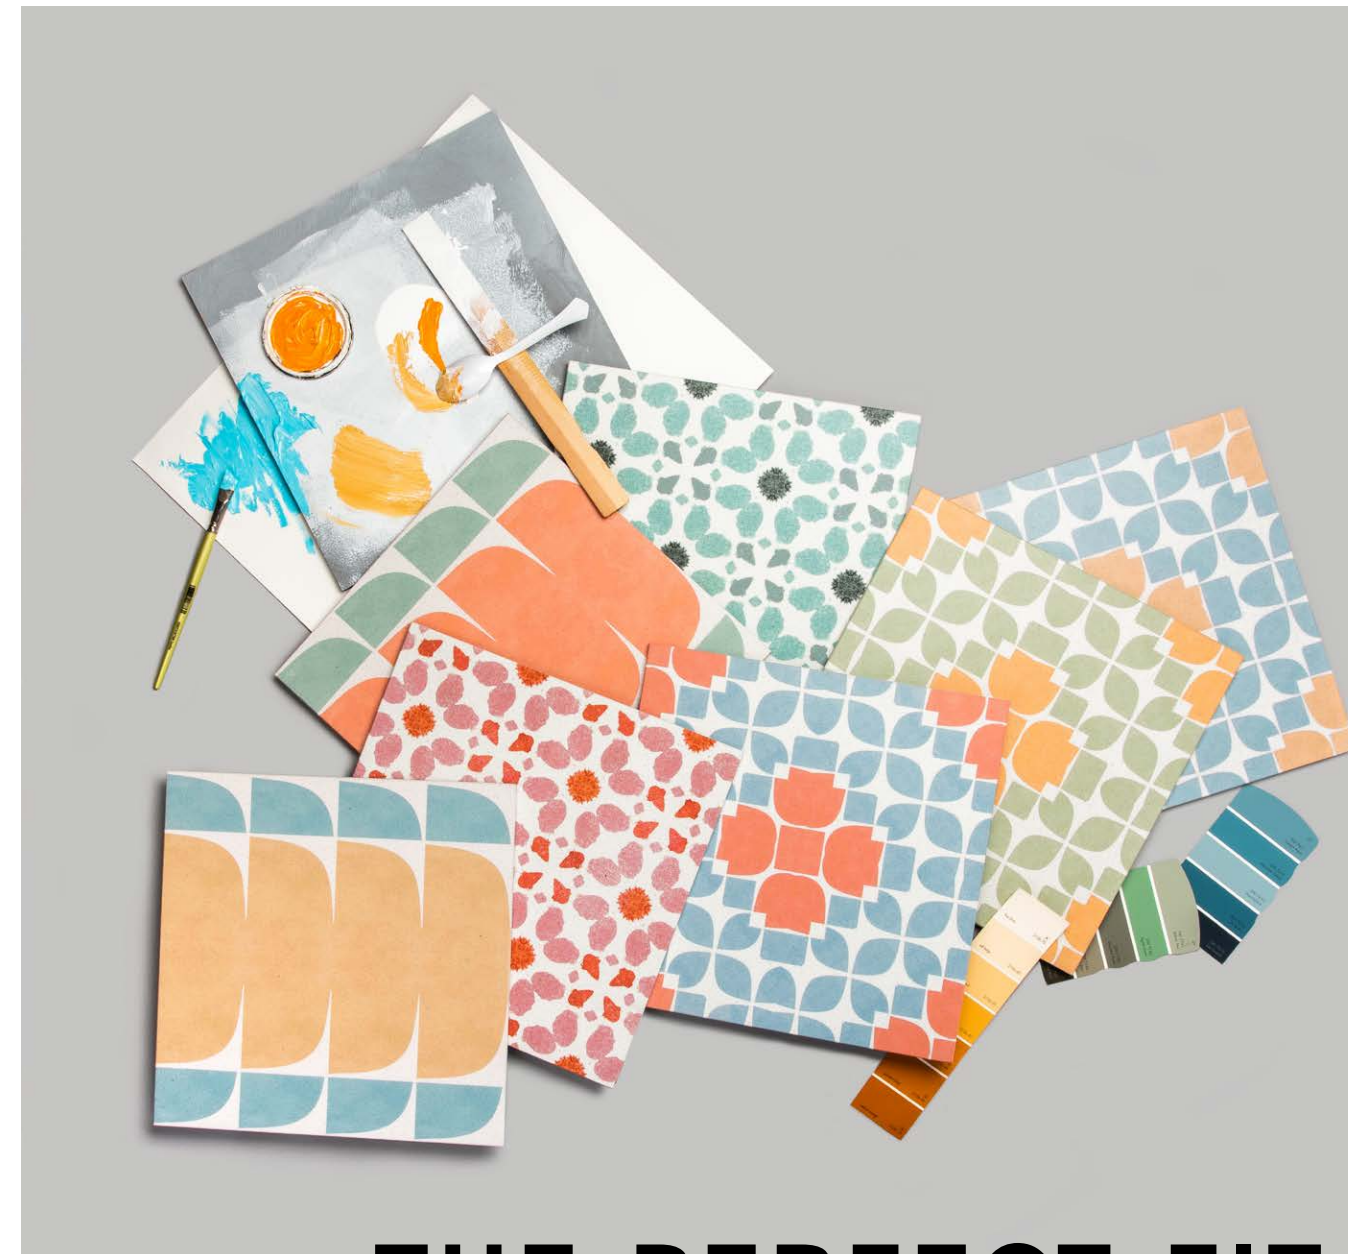

CONTINUING CARE AND CLEANING

- Cleaning can be done with a soft cloth, warm water, and non-acidic soap or a pH neutral stone cleaner.
- Tile surfaces should be protected from scratches, and should be cared for as you would care for the finish of your kitchen appliances—for example, your microwave, dishwasher, stove, refrigerator, or a wooden floor. Our finishes are tough and durable, but need to be protected from scratching.
- **AVOID ANY CARE PRODUCTS THAT CONTAIN THE FOLLOWING:** Abrasives, phosphoric acids, scouring powders, chlorine, acetone, or glycolic acids. We also recommend you avoid brushes and scouring pads.
- Never use an electric scrubber/buffer, any rotary tools, etc. Follow sealer maintenance schedule recommended by sealer manufacturer.
- As part of a normal maintenance procedure, all LIVDEN products require re-sealing on a regular basis. Follow maintenance schedule recommended by sealer manufacturer.

CONFIDENCE GUARANTEE

LIVDEN designs and manufactures in San Diego, California; it is truly a "Made in America" product. We began Livden in 2019 because we saw a need for high-design environmentally-responsible tiles in the market. We produce patterned tiles on upcycled tiles that don't compromise on aesthetics. We promise to keep pushing boundaries to bring you the best options of decorative eco-friendly tiles. We guarantee to pay livable wages to every employee and not export our jobs. We promise you'll enjoy working with our responsible and caring staff. We also promise that you'll be happy and excited with our product, and enjoy it for many years.

THE PERFECT FIT

6x6 COLOR CHIP SAMPLES

Ordering samples doesn't have to be a hassle. With our budget-friendly 6x6 color chip samples, you can order as many samples as you need to see how our tiles will live in and light up your space. Please note, our 6x6 color chip samples reflect the scale of our full-size 12x12 tiles but will only show 1/4 of the pattern on the tile.

FULL SIZE 12X12 SAMPLES

Visualize your dream space with a full-size 12x12 tile sample. Our 12x12 samples show the entire design and pattern scale so you can see exactly how LIVDEN tile fits into your overall design plan.

"[LIVDEN] has supplied innovative tiles for homes and spaces all over the country that are equal parts fresh and renewable."
Aspire Home + Design

"LIVDEN TILES PROVE THAT SUSTAINABILITY CAN BE THE NEW SEXY."
MODERN LUXURY INTERIORS CALIFORNIA

"It's been a while since I've been excited about a new tile company, but sister-owned company LIVDEN definitely got my attention."
House Beautiful

"TILE THAT'S SO CUTE AND COLORFUL YOU'D NEVER KNOW IT'S RECYCLED."
SUNSET MAGAZINE

"While all LIVDEN tiles are made up of [...] recycled materials, the sisters shared passion for creating unique, colorful, and joyful designs is equally impressive."
