

# MODERN CITIZEN

Modern Citizen is a destination for the modern woman, offering her thoughtfully designed and curated fashion and home goods. In our world, luxury is not a price point — our mission is to make modern, refined style accessible without sacrificing quality. We're digitally native and are utilizing the efficiencies of a direct-to-consumer business model to build a distinctive, beautiful brand — and a best-in-class next generation retailer for women going places.

We're incredibly passionate about what we're building, and believe that a successful company starts with a strong and empowered team that shares a hustler's mentality and an appreciation for details.
