

ARABESCATO CORCHIA MOONFACE SLAB

A classic, brecciated stone with a special finish, Arabescato Corchia Moonface's textured, undulating surface is softened via a deep brushing technique, with a depth and reflectivity that evokes the moon, casting gentle light to create an ethereal atmosphere. With its intriguingly tactile quality, Arabescato Corchia Moonface creates an unforgettable sensory experience. Quarried in Italy, this stone is offered in Moonface and Graffiti finished slab, both with ¾" (2cm nominal) thickness

NOTES

¹ This material is sensitive to acids including those commonly found in kitchens. Acid etching occurs in many stones, but may be less visible on lighter colors and on surfaces with a honed finish. A professionally applied surface treatment like MORE™ AntiEtch™ can prevent acid etching.

² Showers: Product must be installed in accordance with current TCNA Handbook Stone Methods.

³ Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions.

Tech Note: The NSI recommends installing resin-backed stone with epoxy-based setting materials or combination of primer + cement mortar. Consult your setting materials manufacturer for specific recommendations.
