

BLUE CALCITE SLAB

Blue Calcite is a mineral beloved for its calming tones and soothing aura, and is used by healers for a variety of spiritual rituals. Our Blue Calcite slabs are from Brazil, with striking blue colors evocative of crystal clear waters.

 Quarried in Brazil		 3/4 (2CM) Polished - Special Order Only & 1 1/4 (3CM) Polished	 CALCITE/ MARBLE

NOTES

¹ This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.

² Per MIA guidelines, fiberglass mesh backed slabs are not recommended for showers.

³ May have fiberglass mesh backing, choose setting materials accordingly.

⁴ Please see MIA DSDM (Dimension Stone Design Manual) for all installation instructions.

Mortar Note: The MIA recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.

Note: Alternate finishes and thicker formats available on special order.

Calcites are extremely crystalline and subject to chipping during fabrication and normal use.
