

# BLUE ROMA SLAB

A singular quartzite from Brazil with a matte, opaque ground of robin's egg blue and branching veins of golden cedar, teak, and redwood, outlined in vanilla. Contoured pools of color ripple as if a pebble had just been dropped, and tiny fossils of primitive leaves form as if a spring thaw has just occurred. An altogether amazing slab, stocked in 2cm honed finish.

## NOTES

<sup>1</sup> Please see MIA DSDM (Dimension Stone Design Manual) for all installation instructions.

Tech Note: The M.I.A. Recommends Installing Resin-Backed Stone With Epoxy-Based Setting Materials. Consult Your Setting Materials Manufacturer For Specific Recommendations.
