

CALACATTA IMPERIALE SLAB

Calacatta Imperiale's hypnotic web of verdant green and burgundy veining paints a soft, white backdrop, displaying the fragmented clasts signature to brecciated marble. An elegant symphony of rich and unusual colors, the Turkish stone evokes a sense of regality while remaining true to its beautifully organic form. Calacatta Imperiale is stocked in 3/4" (2cm nominal) honed slab.

NOTES

¹ This material is sensitive to acids including those commonly found in kitchens. Acid etching occurs in many stones, but may be less visible on lighter colors and on surfaces with a honed finish. A professionally applied surface treatment like MORE™ AntiEtch™ can prevent acid etching.

² Showers: Product must be installed in accordance with current TCNA Handbook Stone Methods.

³ Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions.

Tech Note: The NSI recommends installing resin-backed stone with epoxy-based setting materials or combination of primer + cement mortar. Consult your setting materials manufacturer for specific recommendations. Minor vein washout is possible in wet installations.
