

# CALACATTA MEZZANOTE

Strong veins run the length and height of this dark grey marble from South Africa, dividing angular sections tinged with washes of subtle color, from deep portobello to classic taupe. Stocked in 2cm, polished.

2cm Polished

## NOTES

<sup>1</sup> This material is sensitive to acids including those commonly found in kitchens. Acid etching occurs in many stones, but may be less visible on lighter colors and on surfaces with a honed finish. A professionally applied surface treatment like MORE™ AntiEtch™ can prevent acid etching.

<sup>2</sup> Regarding Fiberglass Mesh Backed Stones for installation in wet areas, consult your fabricator for recommended installation method. Options include, but are not limited to complete removal of fiberglass mesh backing (where applicable) or installing with epoxy setting material. Any decision to install contrary to most current Marble Institute of America Dimension Stone Design Manual practices is solely at buyers discretion and risk.

<sup>3</sup> Please see NSI DSDM for all installation instructions.

Tech Notes: Subject to visible etching, scratching or soap residue build up.
