CORTECCIA LEATHER SLAB

A Brazilian quartzite with strong linearity, flowing like a river after a storm, Corteccia is a natural masterpiece of soft color. Waves of seafoam, mint and robin's egg yield to dusky blue grey, against a ground that varies from oyster to bone to taupe, with delicate touches of golden russet. The combination of subtle color and bold diagonal veining results in a slab of fascinating $all ure. \ A \ lightly \ leathered \ finish \ creates \ a \ tactile \ sensuality \ perfectly \ suited \ to \ this \ slab's \ visual \ appeal. \ Stocked \ in \ 2cm.$
