

EMERALD ONYX SLAB

Thin veins of beige, grey-blue, brown, red, and pink transit an emerald background in this complex and beautiful onyx from Turkey. These one-of-a-kind stone slabs are filled for consistency and polished to a high shine. Stocked in 2 cm thickness.

NOTES

¹ This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.

² Showers: Product MUST be installed in accordance with current TCNA Handbook Stone Methods.

³ Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions.

Tech notes: The N.S.I. recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.
