

# JADE GREEN ONYX SLAB

Translucent color pools with an exquisite flow in this highly-prized onyx quarried in Afghanistan. On a ground of shifting greens that vary from pale pistachio to key lime to peridot, veins of blood orange, rose gold and terracotta seem to float across the surface and then dip into the depths of the stone itself. Offered in 3/4" (2cm nominal) polished slab.

## NOTES

- <sup>1</sup> This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.
  - <sup>2</sup> Showers: Product **MUST** be installed in accordance with current TCNA Handbook Stone Methods.
  - <sup>3</sup> Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions.
- Tech Note: The N.S.I. recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.
