**NOTES**

<sup>1</sup> This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.

<sup>2</sup> Showers: Product MUST be installed in accordance with current TCNA Handbook Stone Methods.

<sup>3</sup> May have fiberglass mesh backing, choose setting materials accordingly

<sup>4</sup> The NSI Recommends Installing Resin-Backed Stone With Epoxy-Based Setting Materials. Consult Your Setting Materials Manufacturer For Specific Recommendations.
