

# PORT LAURENT

Quarried in Morocco, Port Laurent is an intricately veined marble of striking visual power. Against a deep ground that varies between black and charcoal grey, a tracery of veining electrifies the surface, in colors that range from brass to rose-gold and copper to terra-cotta. Offered in 2cm (nominal) slabs, honed

2cm Polished

NOTES
<p><sup>1</sup> This material is sensitive to acids including those commonly found in kitchens. Acid etching occurs in many stones, but may be less visible on lighter colors and on surfaces with a honed finish. A professionally applied surface treatment like MORE™ AntiEtch™ can prevent acid etching</p> <p><sup>2</sup> Showers: Product MUST be installed in accordance with current TCNA Handbook Stone Methods. The NSI recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.</p> <p><sup>3</sup> Please see NSI DSDM Guidelines for all installation instructions.</p>
