- Tech Note: Grout joint between mosaic sheets should be the same as joints within the sheets. Particular attention should be paid to the joints between sheets - adjusting individual pieces if necessary to produce a 'seamless' installation.
- Individual sheets of this mosaic are not square. Sheets are irregular and combine into a seamless interlocking pattern. Plan your layout accordingly.
- Final Appearance Of Installation Will Be Influenced By Choice Of Grout Color. Mockup To Confirm Grout Color SELECTION HIGHLY RECOMMENDED.
- Fractures in the delicate features of this mosaic are inherent and should not be regarded as defects or prevent installation. Glass is fragile and sharp edges may chip slightly. These will blend in after grouting.
