

# VOLAKAS WHITE SLAB

Named for a remote village on the outskirts of the Falakro mountains in Northern Greece, Volakas marble is one of the region's most well-known, and is sometimes referred to as "the Carrara of Greece." Its classic white background displays stripes of grey, taupe, and pale burgundy, giving the stone a natural intricacy and intriguing variety. Available in honed bookmatch 2 cm slabs and 12" x 24" field tile.

## NOTES

<sup>1</sup> This material is sensitive to acids including those commonly found in kitchens. Acid etching occurs in many stones, but may be less visible on lighter colors and on surfaces with a honed finish. A professionally applied surface treatment like MORE™ AntiEtch™ can prevent acid etching.

<sup>2</sup> Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions.

Tech Notes: The NSI recommends installing resin-backed stone with epoxy mortar or a combination of suitable primer and cement-based mortar. Consult your setting materials manufacturer for specific recommendations.
