<sup>2</sup> Alternate Grout - Ardex FG-C Microtec Unsanded  
<sup>3</sup> IMPORTANT: Proper installation will prevent darkening due to water accumulation behind the product. Follow TCNA guidelines to ensure proper installation.

Tech Note: Individual sheets of this mosaic are not square. Sheets are irregular and combine into a seamless interlocking pattern. Plan your layout accordingly. Suitable for low traffic residential floors. Refer to installation guidelines for appropriate setting materials.

- The appearance of uninstalled glass mosaics is different than the final installed product. The semi-translucent Jazz Glass will be influenced by the choice of setting materials. A mockup to confirm mortar and grout selection is highly recommended. Grout color will greatly influence the appearance of the final installation. Grout color selection may be achieved by filling the joints with dry grout powder, whether on installed mosaic or uninstalled mosaic sheet placed on a white background.
