

# BLUE JEANS

A complex and rich marble with intense energy. An indigo background is the canvas for molten flows of deep copper, bolts of rich ivory, and intricate cream and pale blue rivers of translucent onyx. Quarried in Turkey and offered in 2cm polished, this is a stone of grand and eloquent drama.

## NOTES

<sup>1</sup> This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.

<sup>2</sup> Product must be installed in accordance with current TCNA Handbook Stone Methods. The NSI Recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.
