

# DEEP RIVER

A network of garnet-like crystalline veins glow against a soft, pearl grey background tinged with blue and flecks of ivory. The contrast of cool ground and intense, glittering highlights is visually lustrous. Deep River is a marble quarried in Turkey, and is offered in 2cm polished.

2cm Polished

NOTES
<p><sup>1</sup> This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.</p> <p><sup>2</sup> Product must be installed in accordance with current TCNA Handbook Stone Methods. The M.I.A. Recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.</p> <p><sup>3</sup> MIA DSSM Note: Please see MIA DSDM (Dimension Stone Design Manual) for all installation instructions.</p>
