

FUME PORCELAIN

While the market has been flush with lookalike porcelains, most are rectified and - let's face it - boring. That's why we're bringing products like Fume into the marketplace. This non-rectified industrial chic porcelain tile takes on an unusual format - it's a 9 3/4" square, with a slightly undulated edge, and each of its three unique colorways comes in 64 different faces, ensuring a more natural look. Stocked in white, grey and brown in a crackle finish.
