

GEMSTONE COLLECTION

Semi-precious gemstones have inspired us since antiquity. Ancient cultures ascribed special properties to exotic gemstones like quartz, amethyst, and natural agate. Whether or not you believe in the mystic potency of gemstones, there is no denying their potent beauty. Artistic Tile's Gemstone Collection slabs present the finest of these materials in a versatile format, so they may be prominently displayed in your home or commercial space. These agglomerate slabs are bright and beautiful, polished to a high shine, and can be backlit for a sparkling, crystalline glow.
