

PALISANDRO BRONZE SLAB

Palisandro Bronze marble slabs are bold and beautiful, with striking rivers of gold and bronze flowing across a deeply colored surface. This Italian marble is a sophisticated choice, for those with a well developed taste in stone, but beautiful to the newcomer as well.

MARBLE

NOTES

- ¹ This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.
- ² Regarding Fiberglass Mesh Backed Stones for installation in wet areas, consult your fabricator for recommended installation method. Options include, but are not limited to complete removal of fiberglass mesh backing (where applicable) or installing with epoxy setting material. Any decision to install contrary to most current Marble Institute of America Dimension Stone Design Manual practices is solely at buyers discretion and risk.
- ³ May have fiberglass mesh backing, choose setting materials accordingly.
- ⁴ Please see MIA DSDM (Dimension Stone Design Manual) for all installation instructions.
- ⁵ Blocks of Palisandro Bronze are extremely variable. Photos shown are intended to provide an indication of range. Current lot photos should be requested prior to shipment.
