SILVER WAVE SLAB

A deep black, stormy marble with fluid waves of white, grey, and beige, and occasional deposits of sparkling green quartz. Silver Wave's striking veining resembles the layered rings of an ancient tree. This exquisite stone is presented in 12x24 polished field tile and 2cm polished slab.

2cm Polished

NOTES

- ¹ This material is moderately sensitive to acids. When used as a kitchen countertop, acid etching may occur. Acid etching will be less visible on lighter stones and honed surfaces.
- ² Regarding Fiberglass Mesh Backed Stones for installation in wet areas, consult your fabricator for recommended installation method. Options include, but are not limited to complete removal of fiberglass mesh backing (where applicable) or installing with epoxy setting material. Any decision to install contrary to most current Marble Institute of America Dimension Stone Design Manual practices is solely at buyers discretion and risk.
- ³ May have fiberglass mesh backing, choose setting materials accordingly.
- ⁴ Please see MIA DSDM (Dimension Stone Design Manual) for all installation instructions.

 Mortar Note: The MIA recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.

 Note: Alternate finishes and thicker formats available on special order.
