**NOTES**

<sup>1</sup> This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.

<sup>2</sup> Showers: Product must be installed in accordance with current tcna handbook stone methods. The NSI recommends installing resin-mesh-backed stone with epoxy mortar or a combination of suitable primer and cement-based mortar. Consult your setting materials manufacturer for specific recommendations.

<sup>3</sup> Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions.
