NOTES

¹ This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops we recommend a honed finish. Expect material to patina over time and create a beautiful rustic/antique look.

² Showers: Product MUST be installed in accordance with current TCNA Handbook Stone Methods. The NSI recommends installing resin-backed stone with epoxy-based setting materials or a combination of suitable primer and cement-based mortar. Consult your setting materials manufacturer for specific recommendations.
