Small Corner Set

The Small Corner Set is perfect for a small studio. This set fits in a 15' x 15' space and features dynamic components that create a big impact. The addition of backlit translucent panels and half round columns create a sense of depth in a modestly sized space.

Planning and Design

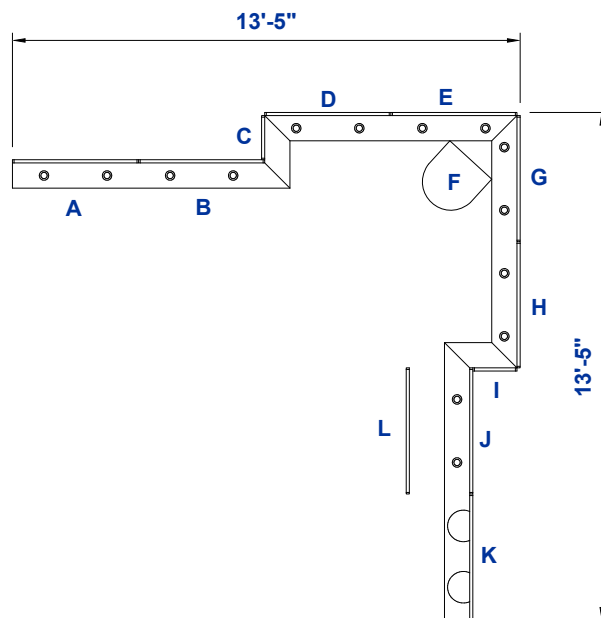

How the Process Works

Our Planning and Design Service gives you one-on-one time with a designer to make your vision a reality. They work with you to dial in the details and then create 3D renderings. This provides the opportunity to try different looks before construction and means there are no surprises upon delivery.

In your quote Design is itemized by the day or week. One, 8-hour day of Design is \$1,152. This includes two rendered revisions per day of Design. Standard sets usually take one, 40-hour week billed at \$5,760. A week of design allows for up to 10 revisions.

Design services are cumulative. Your 8-hour day of design can span multiple business days. This gives you space to share renderings internally and make changes without any pressure.

Planning and design includes:

- Zoom or conference calls to plan with your team.
- Communicating via Basecamp to easily share images, documents, and comments from project start to delivery.
- Reviewing your budget, studio size, and timeline. This includes reviewing blueprints and preliminary drawings.
- Determining studio usage—Will it be a news show, interview panel, or both? What are your studio's limitations and opportunities?
- Exploring what products you like or dislike. What look and feel do you want?
- Selecting materials and samples—we offer lots of options for colors, finishes, graphics panels, textures, and other features.
- Rendering a 3D model and make revisions to finalize the design.
- Documenting all the fabrication specifications for your approval.
- Talking with the shop to problem solve any build challenges and ensure the finished product reflects your design.

Small Corner Set

This set features a photo background to create the illusion of an exterior window. These panels can easily be swapped with your graphics to create an immersive branded experience.

The Elliptic News Desk is priced separately but looks absolutely fantastic on this set. As pictured the Large Elliptic News Desk is \$9,158 with freight.

Additional Examples

Wall Graphic

Add an optional wall graphic to promote your brand across varying configurations of the set. This white vinyl graphic is on a laminate panel that can be quickly switched out with another graphic or laminate panel.

Options:

- Valance with white downlights
- Small Graphic Panel

\$32,400 with freight

Smaller & Simplified

This 10' x 14' has the same great lines while fitting in a slightly smaller space than previous examples. The freestanding translucent frame is easy to move around. Use it to expand the set footprint or place in front of existing components to create depth. Featured in this photo is our Large Elliptic News Desk.

Options:

- Valance with white downlights

Desk \$8,544 with freight **Set \$29,001** with freight
