Two Corner Set

The Two Corner Set is great for small to moderate sized studios. Having two corners gives you the versatility to film at various angles. Use one corner for a news desk and then easily switch cameras to a presenter in the opposite corner.

Planning and Design

How the Process Works

Our Planning and Design Service gives you one-on-one time with a designer to make your vision a reality. They work with you to dial in the details and then create 3D renderings. This provides the opportunity to try different looks before construction and means there are no surprises upon delivery.

In your quote Design is itemized by the day or week. One, 8-hour day of Design is \$1,152. This includes two rendered revisions per day of Design. Standard sets usually take one, 40-hour week billed at \$5,760. A week of design allows for up to 10 revisions.

Design services are cumulative. Your 8-hour day of design can span multiple business days. This gives you space to share renderings internally and make changes without any pressure.

Planning and design includes:

- Zoom or conference calls to plan with your team.
- Communicating via Basecamp to easily share images, documents, and comments from project start to delivery.
- Reviewing your budget, studio size, and timeline. This includes reviewing blueprints and preliminary drawings.
- Determining studio usage—Will it be a news show, interview panel, or both? What are your studio's limitations and opportunities?
- Exploring what products you like or dislike. What look and feel do you want?
- Selecting materials and samples—we offer lots of options for colors, finishes, graphics panels, textures, and other features.
- Rendering a 3D model and make revisions to finalize the design.
- Documenting all the fabrication specifications for your approval.
- Talking with the shop to problem solve any build challenges and ensure the finished product reflects your design.

Monolith News Desk

The Monolith News Desk is priced separately but looks absolutely fantastic on this set. As pictured the Monolith News Desk with RGBW edge light box and 50" monitor is \$14,744 with freight.

Additional Examples

Base Model

This set is a simplified version of our cover model. This photo shows 10' frames and RGBW lit columns. The laminate and translucent finishes are all included in the price of the frames. Ask us about pricing for 8' or 9' tall version.

\$25,011 with freight

Cover Model

This is the most popular version of the Two Corner Set. It has all of our favorite features wrapped into a perfect package. Color changing lights, large scale graphics, and a versatile monitor make the way for lights, camera, action!

Options:

- RGBW Valance with white downlights
- 86" wall mount Smart TV
- Bounce Boxes for RGBW lighting of translucent panels
- Front Lit Graphic Panels

Desk \$14,744 with freight **Set \$51,182** with freight

Additional Examples

Wave Hello

Say hello to our Wave Wall dimensional surface. It beautifully catches the light, adding depth and interest to this set. Most customers keep the waves White (shown here) or Gigs Gray, but we can make them any color.

Options:

- RGBW Valance with white downlights
- Wall mount for Smart TV
- Bounce Boxes for RGBW lighting of translucent panels
- Three-dimensional Wave Wall panels in White

\$46,253 with freight

Stone and Wave

Combine the best of our dimensional surfaces to level up your Two Corner Set. Stacked stone panels give your set a rich and grounded feel, while a Wave Wall (shown in Gigs Gray) provides a light and airy contrast.

Options:

- RGBW Valance with white downlights
- Bounce Boxes for RGBW lighting of translucent panels
- Three-dimensional Wave Wall panels in Gigs Gray
- Three-dimensional Stacked Stone Panels

Desk \$10,300 with freight **Set \$51,147** with freight
