

DOVPO®

For Better Future

ABOUT DOVPO

Established in 2012, Shenzhen DOVPO Technology Co., Ltd is specialized in R&D, manufacturing, marketing and service of electronic cigarette. Since the foundation, Dovpo has always devoted to developing various electronic cigarettes for consumers.

Our vision is to offer innovative vape devices to the market, to be an industry-leading brand.

Our mission is to be a reliable partner to our customers, to make best possible devices for vapers!

DOVPO CULTURE

Since 2018, we started working together with some of the most respected individuals and companies to bring out more options for our customers. While developing the devices, we took design, user experience, innovation and affordability into consideration, aimed to create best overall products for vapers.

Along with our creative team in Dovpo and partners around the world, Dovpo will continue to devote our efforts serving our customers and users!

The image shows a close-up, low-angle view of a modern building's exterior. The facade is composed of dark blue, reflective glass panels arranged in a grid. Mounted on the glass is the Dovfo logo, which consists of a stylized white icon on the left and the word "DOVFO" in white, three-dimensional, sans-serif capital letters to its right. A registered trademark symbol (®) is positioned at the end of the word. The glass panels reflect the sky and clouds, creating a dynamic background for the logo.

 DOVFO®

WHAT IS OUR CO-BRANDING PROJECT?

Co-branding is a form of cooperation between two brands with significant consumer recognition that results in the creation and introduction of a new product on which both brands are visible. Since 2018, Dovpo has collaborated with the top leadership in the vaping industry to release co-branded collections. We've partnered with the trusted vaping Youtube reviewers The Vapor Chronicles, Mike Vpaes, The Vaping Bogan, Vaping biker, Signature Tips, VaperzCloud, Mr. Justright1 and Deer vape from Korea to create advanced products that coordinate with the vape fans. The main aim of our collaboration projects is to provide every Dovpo fan with the best in class and innovative devices.
