## FILTER MACHINES

Quick filter coffee machines by Bravilor Bonamat are designed for making delicious coffee quickly and easily. Made from high-quality stainless steel combined with black accents and modern look. Our professional filter coffee machines are ideal for aged care, offices, cafes (filter brew), restaurants, hotels, function and conference spaces, retail locations and more.

### TH RANGE

Quick filter machines for brewing up to 2.2 litres of coffee directly into an airpot. Includes stainless steel filter pan but excludes airpot.

### JUNIOR

The Junior is a high-end domestic or office coffee machine designed to brew up to 1.2 litres of coffee. Filter coffee fanatics everywhere will seek out the Junior for its high standards of materials, functionality and design.

## ESPRESSO MACHINES

Bravilor Bonamat espresso machines are made of the high quality durable materials. The professional grinder (for the perfect grind) and the unique brewer (for optimal coffee extraction) ensure quality time after time.

### SPRSO

Look no further than the Sprso by Bravilor Bonamat, this high-end coffeemaker is small, powerful and stylish. Designed for your waiting room, board room, small office, conference, function space or even on your kitchen bench. It's compact size, innovative design houses the performance of a professional coffeemaker.

This eye-catching bean-to-cup machine serves perfect single cups of ristretto, espresso, coffee crema and long black. A milk cooler<sup>1</sup> option offers you the additional facility to create a delicious cappuccino, latte, flat white, piccolo, short macchiato and long macchiato.

- Unique design.
- Makes coffees from freshly ground beans.
- Makes milk coffees with freshly textured milk.
- Simple and intuitive operation.
- Brews two beverages simultaneously (ristretto, espresso and coffee crema).
- Cup size, brew strength, intensity and grind size can be adjusted to your individual preference.
- Made from solid and high quality materials: stainless steel and BPA-free plastics.
- Incorporates professional CIRCO brewer.
- Extremely low energy consumption in standby < 0.5W.

## SEGO 12

The Sego 12 is a fully automatic espresso machine. The Sego can be placed almost anywhere, thanks to its sleek European design and small footprint. With a clear and easy to use interface the Bravorio Bonamat Sego 12 is easy to install and will quickly be up and running and making exceptional hot beverages.

The quality of your cup of coffee is important. That's why essential components requiring maintenance have been carefully and cleverly designed in-house. Bravorio Bonamat ensures that cleaning activities are kept to a minimum and performed automatically as much as possible.

- Three canisters: one for coffee beans and two for instant ingredients, such as milk topping and cocoa.
- Simple operation thanks to the intuitive touchscreen with customised screensaver.
- The menu offers up to 30 choices of beverage.
- Settings, such as water temperature, contact time, coffee grinding and cup size, can be adapted to your wishes.
- The Sego is well suited to offices, healthcare, hotels, waiting rooms and shops.
- The energy-saving mode reduces your energy consumption when the machine is not in use.

## SEGO 11L

The Sego 11L is a fully automatic espresso machine with the benefits of the Sego 12 but with fresh milk. Each specialty coffee is made using freshly ground coffee beans. Furthermore, milk coffees such as cappuccino, latte, flat white, piccolo, short macchiato and long macchiato are topped with a layer of fresh milk foam.

Bravilor Bonamat has carefully selected, assembled and pre-programmed the most popular speciality coffees for you. So, your machine will quickly be up and running.

- Sego 11L has one canister for coffee beans and one canister for instant ingredients.
- Integrated milk system (steam boiler and milk frother) for fresh milk.
- Simple operation thanks to the intuitive touchscreen.
- The menu offers up to 30 choices of beverage.
- Settings, such as water temperature, contact time, coffee grinding and cup size, can be adapted to your wishes.
- The Sego is well suited to offices, healthcare, hotels, waiting rooms and shops.
- The energy-saving mode reduces your energy consumption when the machine is not in use.

## INSTANT MACHINES

The range of Bolero instant machines offer a wide range hot beverages, ease of use and proven technologies; whether large or small quantities are involved, the instant machines from the Bolero series offer a suitable solution for any location.

### BOLERO 32

The Bolero 32 offers a wide range of beverages, up to 36 in total. The touchscreen offers a maximum of four screens offering a maximum of nine beverages per screen. You can combine instant coffee, topping (milk powder) and chocolate, tea, sugar or even powdered soup.

### CASHLESS VENDING

The Bolero series can be extended with an payment system to accept contactless payment or an inserted card through WiFi or Bluetooth.

## LIQUID MACHINES

The Bolero Turbo LV12 offers a choice of liquid coffee and instant tea beverages, as well as hot water from a separate outlet. Especially designed for pouring bulk/large amounts of coffee and tea and where there are high demands for filter coffee. Ideal for hospitals, aged care, hotels, conferencing, exhibitions, factories and mining.

### **Bolero Turbo LV12 features.**

- Bag-In-Box container of long-life liquid coffee concentrate.
- Canisters for instant ingredients e.g. chocolate, instant tea and milk topping.
- Choice of hot drinks.
- Separate push button for hot water.
- Clear LCD illuminated display.
- User-friendly operation with push buttons.
- Large hot water boiler for high volumes (over 7 litres) and quick dispensing.
- High ROI thanks to the patented hot water system (less susceptible to scaling).
- Smooth ingredient flow thanks to the patented Bravilor Bonamat ingredient mixing system, which prevents clogging in the mixing units.

The Bolero Turbo liquid machines feature as standard a rinsing program, energy saving mode, day and cumulative counters. The machines indicate when descaling is necessary and when the drip-tray is full.

## BOLERO TURBO LV20

The Bolero Turbo LV20 can serve two hot liquid beverages simultaneously. The machine also dispenses hot water from a separate outlet. Especially designed for pouring bulk/large amounts of coffee and where there are high demands for filter coffee. Ideal for hospitals, aged care, hotels, conferencing, exhibitions, factories and mining.

### Bolero Turbo LV20 features.

- 2 Bag-In-Box containers of long-life liquid coffee concentrate.
- 2 hot drinks (serving simultaneously).
- Separate push button for hot water.
- Clear LCD illuminated display.
- User-friendly operation with push buttons.
- 4 buttons per drink e.g. cup, mug, decanter and free-flow serving.
- Large hot water boiler for high volumes (over 7 litres) and quick dispensing.
- High ROI thanks to the patented hot water system (less susceptible to scaling).

The Bolero Turbo liquid machines feature as standard a rinsing program, energy saving mode, day and cumulative counters. The machines indicate when descaling is necessary and when the drip-tray is full.

## ACCESSORIES

Explore our range of coffee machine accessories. Bravor Bonamat airpots, airpot stations and decanters perfectly match our range of commercial coffee machines.

### Furento Airpots.

Bravor Bonamat filter machines brew coffee directly into Furento Airpots. The Airpots keeps up to 2.2 litres of coffee, tea or hot water at the right temperature ensuring all beverages maintain their flavour. The ergonomic pump handle makes serving easy.

Safe, secure and easy to use hot or cold.

### Qline Thermal Jugs.

The Qline decanters are made from high grade double walled stainless steel. Available in 300ml, 600ml and 1 litre. The decanters have hinged lids and stainless steel grips.

### Airpot Stations.

The Airpot station is ideal for serving areas where efficiency is key. This station features compartments for supplies like sugar and coffee sticks, disposable cups and stirring sticks.

They help keep beverage serving areas safe, neat, clean and tidy.

### Milk fridges and coolers.

Bravilor Bonamat offers a number of fridges and coolers especially designed to sit alongside the Sprso and Seggo fresh milk options.
