## IMPORTANT SAFETY INSTRUCTIONS

### READ AND FOLLOW ALL SAFETY INFORMATION AND INSTRUCTIONS. KEEP FOR FUTURE REFERENCE.

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- To ensure correct and safe installation, usage and functioning of the product, always follow these instructions carefully and keep for future reference.
- Use only the supplied AC power adapter.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by person responsible for their safety.
- Never use any optical devices such as a lens to look directly into the light beam. This can cause eye damage.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children. Children should be supervised to ensure that they do not play with the product.
- Keep packaging materials out of children's reach (e.g. plastic bags...). Danger of suffocation.
- Do not operate any light with a damaged cord or after malfunction occurs, or damaged in any manner. Discard the light, or return it to an authorized service facility for examination or repair.
- Do not place this unit near extreme heat sources, moisture, or corrosive substances.
- Always switch off the power prior to installation, maintenance or repair activities.

- Do not remove the power plug with wet hands as it may cause electrical shock.
- If you notice any smoke, unusual noises or strange smells, turn off the unit immediately and remove the plug from the wall outlet. Stop using the device and check by authorized service personnel.
- Do not dismantle the product by yourself, always ask professional electricians or authorized technicians for repair.
- The external flexible cable or cord of this luminaire cannot be replaced; if the cord is damaged, the luminaire shall be destroyed.
- Follow local ordinances and recycling instructions regarding disposal or recycling of the device and device components.
- If you have any product problems or report an unexpected situation during use, please contact the Customer Support at [support@taotronics.com](mailto:support@taotronics.com).

## Warranty

This product is covered with TaoTronics product and labor warranty for 12 months from the date of its original purchase. If any problems occur, please contact the TaoTronics Customer Care Centre via the contact information listed in this User Guide.

We can only provide after sales service for products that are sold by TaoTronics or TaoTronics authorized retailers and distributors. If you have purchased your unit from a different place, please contact your seller for return and warranty issues.

## FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
