

**SUPPORTS NATURAL  
DETOXIFICATION PROCESS<sup>†</sup>**

# Ther-Biotic<sup>®</sup> Detoxification Support

High-CFU probiotic adjunct for detoxification protocols

Xenobiotic exposures, prescription medications, and even detoxification may adversely affect populations of beneficial intestinal microbiota. Ther-Biotic<sup>®</sup> Detoxification Support is an ultra-CFU probiotic formula that provides specific probiotic species to help maintain beneficial microbiota and support the body's natural detoxification process.<sup>†</sup>

## Supports normal gastrointestinal immune system defense<sup>†</sup>

The delicate balance of beneficial microorganisms in the gut can be altered by prescription and nutritional detoxification agents, stress, and other factors, which may affect digestive and immune function. In addition, use of detoxification agents may result in a temporary increase in release of toxins and metabolic by-products into the digestive tract which need to be efficiently cleared from the system. Ther-Biotic<sup>®</sup> Detoxification Support delivers large amounts of select probiotics to maintain microbiota balance, regulate against intestinal disturbances, and support healthy immune responses during detoxification protocols. *Lactobacillus rhamnosus*, *Lactobacillus casei*, and *Bifidobacterium bifidum* help stimulate the body's healthy immune response by favorably supporting both innate and acquired immunity.<sup>†</sup>

## Promotes a balanced microbial community<sup>†</sup>

Ther-Biotic<sup>®</sup> Detoxification Support provides an ultra-high CFU blend of 3 different probiotic bacteria. These microorganisms have been shown to produce substances that lower colonic pH and compete with bacteria and yeast for attachment sites, thus helping keep these organisms under control.<sup>†</sup>

## Supports the body's natural detoxification process<sup>†</sup>

When bacteria and yeast are killed, release of toxic cell components and by-products may produce a "die-off" effect. Heavy metal

chelating agents may also produce toxic debris, including liberated metals, that can be passed to the intestine. If not removed properly, these toxins can shift the delicate balance of healthy microorganisms and/or serve as a food source for yeast and bacterial organisms. The probiotic species in Ther-Biotic<sup>®</sup> Detoxification Support can assist the body's natural detoxification process by metabolizing or reducing the uptake of mercury and other toxins from the gut, facilitating their elimination from the intestinal tract.<sup>†</sup>

- InTactic<sup>®</sup> delivery system protects viability
- High CFU, 50 billion per vegetarian capsule
- Free of D(-)-lactic acid-producing species

# Ther-Biotic® Detoxification Support

High-CFU probiotic adjunct for detoxification protocols

## Indications

Ther-Biotic® Detoxification Support is recommended whenever support for intestinal detoxification mechanisms is indicated. Once a healthy balance of intestinal microbiota is achieved, use of either Ther-Biotic® Complete or Vital-10® multispecies probiotic formula is recommended for daily maintenance. This product may be suitable for individuals adhering to the Specific Carbohydrate Diet (SCD™) and similar programs who wish to avoid inulin often used as a base or filler ingredient.

## Formula

Supplement Facts	
Serving Size 1 Capsule	
Amount Per Capsule	
Probiotic Blend (50 billion CFU)	265 mg*
<i>Lactobacillus rhamnosus</i>	20 billion CFU*
<i>Lactobacillus casei</i>	20 billion CFU*
<i>Bifidobacterium bifidum</i>	10 billion CFU*

\*Daily Value not established.

Other ingredients: Vegetarian capsule (hydroxypropyl methylcellulose, water), InTactic® proprietary polysaccharide complex, and L-leucine.

V770-06 60 vegetarian capsules

## Suggested use

**Adults:** 1 capsule daily with food or as directed by a healthcare professional.

**Children:** As directed by a healthcare professional. **Caution:** If you are pregnant, nursing, have a medical condition, or taking prescription drugs, consult your healthcare professional before using this product. Keep out of reach of children.

## Product supply

60 vegetarian capsules per bottle.

## About InTactic® acid-stable technology

Ther-Biotic® Detoxification Support contains InTactic®, a highly purified vegetarian polysaccharide material of marine plant origin which forms a gel-like matrix that surrounds and protects probiotic bacteria from destruction by gastric acid. This allows the friendly probiotic bacteria to survive the stomach acid and be delivered alive into the small intestines where they are released intact to exert their health-promoting function. As a result, high functional potencies of live friendly bacteria are delivered where they are needed.
