

Ther-Biotic® Metabolic Formula

High-CFU multispecies probiotic supports healthy weight and energy metabolism†

This formula is designed for daily use as part of a nutritional weight management program to reinforce and sustain a healthy balance of gut microbiota.† Reduced microbiota diversity and diminished populations of *Bifidobacterium* and *Lactobacillus* may affect the body's weight and glucose metabolism. Ther-Biotic® Metabolic Formula provides high numbers of 4 *Lactobacillus* and 3 *Bifidobacterium* species that may play a beneficial role in balancing energy extraction from the diet, producing bioactive substances that support healthy carbohydrate and lipid metabolism, sustaining gut barrier function, and modulating immune function.

Helps energy extraction from foods

Evolving research shows that probiotic supplementation may support maintenance of a healthy weight and glucose homeostasis, when taken in conjunction with a healthy diet, by helping balance the gut microbiota.† It has long been known that the gut microbiota extracts energy from dietary substances such as fiber that are indigestible by the host. The substantial amounts of *Lactobacillus* and *Bifidobacterium* species in this formula support microbiota diversity and a healthy balance of microorganisms in the digestive tract.†

Produces conjugated linoleic acid

Probiotic species, such as *Lactobacillus rhamnosus*, have been shown to synthesize and secrete conjugated linoleic acid (CLA). CLA is a naturally occurring fatty acid that has unique effects on fat metabolism. Studies demonstrate it exerts a favorable effect on the way the body burns and stores fat. CLA

may provide benefit by decreasing adipocyte size, increasing adipocyte apoptosis, decreasing lipogenesis, and/or increasing fatty acid oxidation. In addition, the CLA produced by probiotics may also beneficially support healthy glucose metabolism.† Ther-Biotic® Metabolic Formula provides a variety of probiotic species that promote CLA production within the intestinal tract.

Supports healthy cytokine and immune function†

One of the likeliest mechanisms by which bifidobacteria and lactobacilli support

weight management is by directly binding lipopolysaccharide (LPS) in the gut lumen. The 7 probiotic species in Ther-Biotic® Metabolic Formula work together to help modulate cytokine balance within the gut and also provide additional benefit by sustaining normal gut barrier function and normal microbiota balance.†

- High CFU, 25 billion per vegetarian capsule
- Modulates healthy inflammatory response during metabolism†
- Supports gut barrier function
- Synthesizes CLA which helps regulate fat mass

Ther-Biotic® Metabolic Formula

High-CFU multispecies probiotic supports healthy weight and energy metabolism†

Indications

Ther-Biotic® Metabolic Formula is designed to support healthy weight and energy metabolism by promoting a healthy gastrointestinal microbiota.†

Formula

Supplement Facts	
Serving Size 1 Capsule	
Amount Per Capsule	
Probiotic Blend (25 billion CFU)	113 mg*
<i>Lactobacillus acidophilus</i>	
<i>Lactobacillus plantarum</i>	
<i>Lactobacillus rhamnosus</i>	
<i>Bifidobacterium lactis</i>	
<i>Lactobacillus gasseri</i>	
<i>Bifidobacterium breve</i>	
<i>Bifidobacterium longum</i>	
*Daily Value not established.	

Other ingredients: Cellulose and vegetarian capsule (hydroxypropyl methylcellulose, water).

K-MBS 60 vegetarian capsules

Suggested use

Adults: 1 capsule daily with food or as directed by a healthcare professional.

Children: As directed by a healthcare professional. **Caution:** If you are pregnant, nursing, have a medical condition, or taking prescription drugs, consult your healthcare professional before using this product. Keep out of reach of children.

Product supply

60 vegetarian capsules per bottle.

About Klaire Laboratories™ practitioner exclusive nutraceuticals

Klaire Labs™ is a proud member of the Soho Flordis International (SFI) family of brands. The Klaire Labs™ range of high-quality nutraceuticals is designed exclusively for healthcare professionals to empower them in providing better choices for those under their care. By focusing on providing quality nutraceuticals for clinical application, Klaire Labs™ is dedicated to delivering optimal health outcomes.

Klaire Labs™ products are based on a firm scientific foundation and medical research with an unwavering commitment to quality ensuring that active ingredients are selected based on purity, bioavailability, documented actions, and safety characteristics.

Produced under a strict quality management system in compliance with Good Manufacturing Practices (GMPs) and third-party quality certifications.
