500/sh	\$136.00
13 x 19 100/sh	\$44.60
250/sh	\$92.95
500/sh	\$174.25

**ACORN STANDARD LASER FILM**

An economical yet high quality solution for film positives. Acorn utilizes a fine film coating to allow less toner use for optimal image quality.

100/sh	
8.5 x 11	\$39.95
8.5 x 14	\$49.95
11 x 17	\$80.95
12 x 18	\$93.95
13 x 19	\$99.95
13 x 35.5	\$193.95

**KIMOTO LASER FILM**

Not a paper or vellum, Kimoto matte-surface .004" film is specially engineered for high toner attraction. Both sides are printable.

**Not for use with inkjet printers.**

8.5 x 11 100/sh	\$62.37
8.5 x 14 100/sh	\$76.00
11 x 17 100/sh	\$127.26
12 x 18 100/sh	\$131.32
13 x 19 100/sh	\$150.29

### FILMMAKER 10

**PC ONLY.** RIP software for creating screenprint films on most commonly used inkjet printers. Precision tools that provide ultimate screen quality and film densities while simplifying a complicated and critical process in your screenprint production cycle.

\$495.00

## JALEMA

DIVISION FILING SYSTEMS

### HANGING FILE SOLUTIONS

A perfect alternative to traditional flat files. Files hang laterally on steel profile-bars with a new and improved stainless steel suspension point so the files can be hung or removed with ease and assurance in a simple hand motion. Files are easily accessible and take up less space than traditional files.

### JOB FILE FOLDER

Comes in two sizes: 15x18 or 17x21, both dual pocket. 50 file folders per box.

15x18 \$222.00/box

17x21 \$243.00/box

### SCREEN PRINT FILE FOLDER

17x14 file folders come in either single (100/box) or dual (80/box) pockets.

Single \$314.00/box

Dual \$357.00/box

### WALL-FILING RACK

31 1/2" Length \$173.00

63" Length \$270.00

### STARTER SYSTEM

Includes (1) 31.5" wall-filing rack, (50) 17x21 dual pocket job file folders and alpha/numeric color coded tabs.

\$513.00

\*ALL SCREEN RACKS SHIP LTL FREIGHT

### ADJUSTABLE ALUMINUM RACK

Light weight, fixed screen drying rack. Holds up to 25 frames. Adjusts from 14" to 24". Durable all aluminum construction. Caster wheels. Assembly required.

\$259.00

### AWT ROLLIN SCREEN RACKER

The Rollin' Screen Racker provides a safe place for drying and storing screens with the convenience of mobility. It features adjustable width, easily accommodating all screen frames.

The deep shelves can support any length screen.

Shelf adjustment ranges are as follows:

RSR31 - 15" - 46", 31" Depth

RSR40 - 25" - 26", 40" Depth

RSR31 (20 shelves) \$595.95

RSR40 (25 shelves) \$695.00

RSR40 (Cover) \$459.00

### VASTEX SCREEN RACK

Holds up to 24 screens either 20 x 24 or 23 x 31, both 1.75" thick. Angled shelves for edge contact only, guaranteed 1 year warranty on manufacturer's defects.

\$539.00

### OPERATION SCREEN PRINT VOL. 1

Created by Dane Clement, owner of Great Dane Graphics, and Lon Winters, owner of Print This Inc. Comes with an instructional book, disc loaded with tutorials, sample black shirt and 5 film positives to create killer black shirt prints.

\$399.95

### RHINOBOND

Instant frame adhesive. Comes in performance and economy grades. Medium viscosity for mesh counts of 305 or lower. Dries in 15 seconds.

RBA 700 PERFORMANCE 16oz.	\$67.30
RBA 570 ECONOMY 16oz.	\$47.11
RBP PRIMER/ACCELERATOR 8oz.	\$14.20
RBP PRIMER/ACCELERATOR 32oz.	\$21.33

### RHINOBOND RBP1500A

RBP 1500A Aerosol Adhesive Activator is used in conjunction with RhinoBond Adhesives. When using RhinoBond adhesives, this solvent based activator is used to cure the adhesive on wood or metal frames within 5-10 seconds. Without an activator, the RhinoBond adhesive will not cure properly. As a result, the screen mesh may release over time.

1/can \$14.30

### CLOTH TAPE

Solvent resistant, this tape will not release under the most demanding conditions.

2" x 60 yard Roll \$22.25

### ROLLER PANELS

Nortech roller panels come in packs of 6. When ordering, please specify the diameter of the roller bar on your frames for accurate panel sizes.

305	\$105.00	\$124.50	\$163.00

### WORKHORSE ACCU-STRETCH

The Accu-Stretch modular screen stretching system allows for higher, more uniform tensions when stretching screens. This provides improved registration, longer screen and squeegee life, more uniform ink deposits and less ink usage. Without the need for special training or expensive tools, the self equalizing clamps provide uniform tension, eliminating fabric waste. The modular design allows the Accu-Stretch to be expanded to virtually any length and width of fabric and frame. The Accu-Stretch comes in nine available sizes ranging from 24x24" all the way up to 60x60". With five modular upgrades, the Accu-Stretch is ideal for any shop.

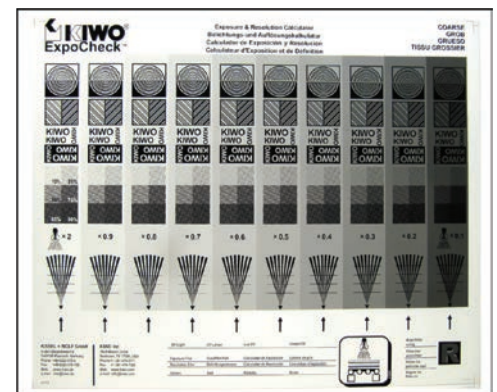

24" x 36"	\$1,900.00
24" x 48"	\$2,050.00
24" x 60"	\$2,175.00
36" x 36"	\$2,050.00
36" x 48"	\$2,175.00
36" x 60"	\$2,300.00
48" x 48"	\$2,300.00
48" x 60"	\$2,400.00
60" x 60"	\$2,500.00

### 3 IN 1 MESH DETERMINER

Easily and accurately determine mesh count on a roll or stretched on a frame. for use with monofilament or multifilament meshes US and Metric scales. for use with any fabric can also be used to determine half-tones produced on 7 mil polyester photo film for clarity and durability each chart is packaged in a protective polyethylene bag

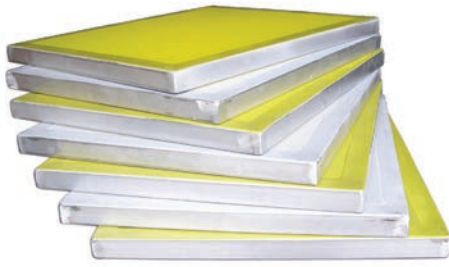

\$26.75

### KIWO EXPOSURE CALCULATOR

The Kiwo exposure calculator is ideal for quickly finding the appropriate exposure range to properly expose your screens.

\$96.90

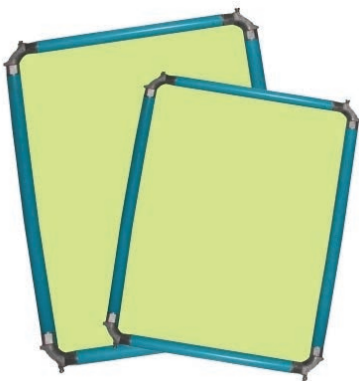

### ALUMINUM FRAMES

Minimum 2 frames per shipping order.

Last a lifetime and hold screen tension longer. Rigid and bow resistant welded corner joints. Easy to clean and reuse. Custom sizes available.

### ST TENSION METER

Stainless steel hardened gears, shock-proof industrial grade internal gear movement and all jeweled sapphire bearings.

ST 1-E: +/- 1% ACCURACY \$474.00

### RHINO BOND 201

Tired of taping screens? Want to save time and money?

RhinoBlock RB201 is your solution.

RB201 is a permanent blackout that will remain on the screen after reclaiming.

It is also easy to apply with a squeegee spreader or paintbrush and dries fast.

Recommended for use with all ink types.

QUART \$35.42

GALLON \$102.96

**C-1000 SEMI-AUTO SCREEN COATER**

Holds screen lengths 23" (60cm), 28" (70cm), 31" (80cm), 36" (90cm). No tools needed to make height or screen length adjustments. Wall-mount hardware as standard. Quick height adjustment. Includes scoop coater shelf. Foot pedal operation. Adjustable speed.

C-1000 \$2,590.00

**C-100 SCREEN COATER RACK**

Holds screens from 23" (58cm) to 36" (91cm) long to assist during the coating process. No tools are needed to make height or screen size adjustments. Standard coater comes with wall mount and hardware. Optional stand with or without wheels.

C-100 \$250.00

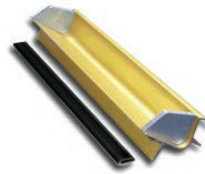

Stand \$295.00

**SCOOP COATER**

Removable ends make clean up fast and easy. Easy and comfortable to use. Custom sizes available.

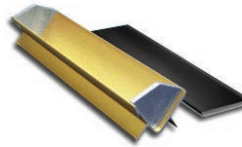

- 6" \$7.20
- 12" \$14.40
- 14" \$16.80
- 15" \$18.00
- 16" \$19.20
- 18" \$21.60
- 19" \$22.80
- 20" \$24.00

**AWT SCOOP COATER PRO ANGLE**

Hard anodized gold aluminum construction. Easy and comfortable to use. Custom sizes available.

- 14" \$24.50
- 16" \$27.05
- 18" \$28.95
- 19" \$29.65
- 20" \$30.70
- 24" \$34.15

**AWT SCOOP COATER PRO ANGLE 2**

Dual edge, easy to handle scoop coater that applies a smooth, even and uniform coating of emulsion on your screen. The coating angle is calibrated for a perfect coating every time and stands securely without the worry of tipping over. Made from hard anodized gold aluminum, the enclosures are permanent for quick cleaning without leaking.

**AVAILABLE UP TO 72"**

- 14" \$30.95
- 15" \$31.95
- 16" \$32.95
- 18" \$36.00
- 19" \$37.35
- 20" \$35.95

**KIWO SIMPLEX**

The Kiwo Simplex is specifically designed for textile and small graphic applications, providing superior performance at a budget price. Manufactured by Grunig for Kiwo, it offers reliable coating results within close tolerances. Suitable for coating one screen with a maximum single frame size of 53" x 53" outside dimensions or two screens with maximum single frame sizes of 25" x 53" outside dimensions. A coating trough pin registration system that allows for 1-up or 2-up coating comes standard with the machine.

Precision chain drive variable speed motor, control panel with adjustments for coating trough pressure and separately adjustable number of coatings for both front and backside of the screen.

Requires 90 psi, 7ft<sup>3</sup>/h dry, clean, filtered air for proper operation of the machine.

Standard electrical 110 volts single phase, 10 - 16 A. Machine comes assembled with dimensions of 81" W x 78" H x 21" D

Simplex \$34,994.00

**DOUTHITT CTS 30**

Computer-to-screen eliminates films and becomes an integral part of the digital workflow. Print head technology with smaller drop size and solid ink technology enables imaging halftone frequencies up to 75dpi. Sophisticated interlacing patterns assure smooth halftones and color transitions for the most demanding applications. Optimize image quality without compromising on throughput and consumable cost.

Compatible with PC, Mac and Linux, and uses typical image software such as Adobe Photoshop, CorelDraw, etc. using postscript file format.

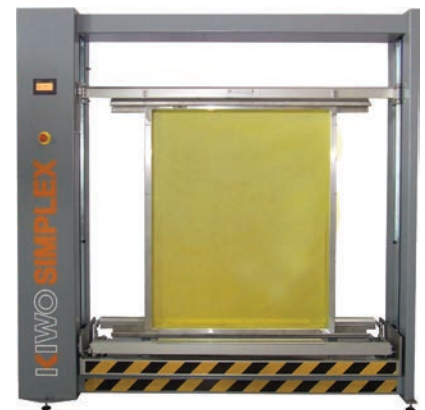

Resolutions from 600 - 1000 dpi, halftone capabilities of 75/110 lpi and speeds of 3.2 m<sup>2</sup>/h @ 1000 dpi and 10 m<sup>2</sup>/h @ 600 dpi.

Max Screen size: 25x30

Max Image size: 20x30

CTS 30 \$55,995.00

Xitron Rip \$4,195.00

### ECONOWASH

The Econowash recirculation system has a polypropylene construction, chemical resistant piping, spray wand holder, chemical shelves, screen holder, easy-clean drain, vent-ready, a metal base for stability and is free standing.

**Econowash-1:** UltraLite Washout Booth with a M-10-1 Recirculation Unit 1.5 GPM Air Pump

**Econowash-2:** PolyLite Washout Booth with a M-10-2 Recirculation Unit 2.0 GPM Air Pump

Econo-1 \$3,410.00

Econo-2 \$3,995.00

### M5 MANUAL FILTRATION SYSTEM

Multi-Screen filtration system with 10 sheets of 10 micron filtration media.

M5 \$930.00

### M10 FILTRATION SYSTEM

M10 Manual Operated Water Filtration System w/50yrs. of Filter Media, 10 Microns. Poly Pro construction, chemical resistant and ready to be connected to your drain. If your drain is higher than the discharge point on the M10 you will require a Discharge Pump to remove the water.

The unit size is 23"L x 23"W x 19"H. The unit has a 12" x 17" tray on top that the chemical will drain into. On the right side there is a 3/4" bulkhead that is 6" from the floor and 13" from the front for the chemical to drain out of the unit.

M10 Filtration System \$1,177.00

ADP Discharge Pump \$465.00

### WATER FILTER MEDIA

Water filter media for M5 and M10 filtration systems

5 Micron (21"x50yds) \$95.00

10 Micron (21"x50yds) \$95.00

Filter Element (2/pk) \$29.95

### PRESSURE WASHER

**RS1500A** - Heavy duty, 1450 PSI. Fully rebuildable 3 piston pump and motor unit. 26' high pressure hose, fully adjustable nozzle.

RS1500A \$1,425.00

### E-60 & E-72 WASH-OUT BOOTHS

Flexible component-based solution for the screen reclaiming area. All of our equipment is designed and built in the USA and manufactured out of white, welded, corrosion-proof polypropylene. Includes 4 LED light kits installed back of the booth.

E-60 - 48"W x 60"H x 24"D

E-72 - 48"W x 72"H x 24"D

E-60 \$2,899.00

E-72 \$3,599.00

### E-48

Flexible component-based solution for the screen reclaiming area. All of our equipment is designed and built in the USA and manufactured out of white, welded, corrosion-proof polypropylene. Includes 2 LED light kits installed back of the booth. Dimensions: 72"W x 24"D x 48" H (Total height with Legs: 74")

36"W x 48"H x 24"D

E-48 \$2,599.00

### E-36

Flexible component-based solution for the screen reclaiming area. All of our equipment is designed and built in the USA and manufactured out of white, welded, corrosion-proof polypropylene. Includes 2 LED light kits installed back of the booth.

36"W x 48"H x 24"D

\$1,899.00

### E-32

The E-32 is manufactured of white, welded, corrosion resistant polypropylene which insures a long life. The inside dimensions are 32" wide, 24" deep and 38" high. This booth has an overall total height of 64" including legs. This accommodates manual screens as well as small, automatic frames. The E-32 comes professionally packed and boxed for inexpensive ground shipping. (+ UPS Large Package Surcharge)

\$999.00

### EDF-100 DRAIN FILTRATION UNIT

The EDF-100 easily works with your present plumbing and when used in conjunction with Easiway's eco-conscious products, the discharge from the system is drain safe.

This unit has a 100 micron filter that drains into a convenient easy access baffle tank, it can be used alone and let gravity do the work, or you can purchase a sump to use for quicker draining. This system fits under all Easiway washout booths. Manufactured of white, welded, corrosion resistant polypropylene which insures long life. Dimensions of 12" wide, 24" long and 24" high. Professionally packed and boxed for easy, inexpensive ground shipping. No crating charges, which provides a distinct cost advantage.

\$499.99

### BLUEWATER AUTO RECLAIMING UNIT

#### Machine Specifications

Body Width: 24" or 36" with recirculation tank

Body Length: 120.0"

Body Height: 66.0"

Screens Per Hour: 25 Screens per hour

#### Machine Requirements

Air: 8 cfm @ 100psi

Electrical: 208/230V, 3ph, 55A, 50/60Hz

Water: 1 x 1" NPT Standard Fitting

Drain: 3/4" NPT Utility Pump or 2" Floor Drain Max

Frame Size: 25" x 36"

Minimum Machine Length: 18'6"

#### Machine Options

Infeed Length Options: 54" or 72"

Outfeed Length: 47" or 94"

Infeed Soak Tank: Optional Upgrade (adds 44.0")

Outfeed Booth: Optional Upgrade (adds 48.0")

\$74,000.00

### WASH IT

Workhorse's wash-out and reclaim booth is steel constructed with a translucent back window.

WSH-36 - 36"W x 72"H x 24"D

WSH-52 - 52"W x 72"H x 24"D

36" Width \$890.00

52" Width \$1,310.00

Squeegee Rack \$55.00

# TECH SUPPORT

SCREEN PRINTING SUPPLIES, LLC

## TECH SUPPORT DUAL-TECH

Dual-Tech, a **diazo-photopolymer (dual-cure)** emulsion formulated to provide unequaled exposure latitude and ease of decoating, even if underexposed and used with aggressive inks and washup solvents. If you're having reclaiming problems, this is the way to go! Multi-purpose, fast exposing and provides superb resolution and acutance.

Very suitable for general purpose graphics, textile and industrial applications. Latitude, resolution and edge definition are excellent, which makes it ideal for fine line and halftone printing.

**Dyed Blue.**

1/QT \$20.95

1/GAL \$45.95

# UlanO

## QLT

An ultra fast exposing **photopolymer textile emulsion**, QLT is a ready-to-use direct emulsion formulated for imprinted sportswear printing. Its high viscosity provides good coating control. Its high solids content results in better mesh bridging on coarse mesh and fast drying. QLT is resistant to plastisol inks and most washup solvents making it easy to reclaim in automatic stencil removal equipment or by hand. Stencils made with QLT are extremely durable and will not become tacky under high humidity conditions. QLT is formulated to reduce stencil-making time (coating, drying and exposure) in shops with high stencil throughput. Its fast exposure speed will also be of interest to low volume printers with weak light sources.

**Dyed Blue.**

1/QT \$24.80

1/GAL \$79.00

## #3 DEGREASER

Removes dirt, dust and oils from all fabrics new and used. #3 is ready to use and requires no mixing.

1/GAL \$46.19

5/GAL \$205.85

## #4 STENCIL REMOVER

A ready to use liquid stencil remover for fast and thorough removal of direct emulsions and CDF direct films.

1/GAL \$61.97

## QTX

An ultra fast **pure photopolymer** for imprinted sportswear applications. Provides superior coating properties, better bridging on rough mesh and fast drying. High solids content. No mixing! **Dyed Pink.**

1/QT \$39.99

1/GAL \$121.50

## #5 STENCIL REMOVER

A ready to use paste that removes direct emulsions and CDF films from all types of fabric. No odor and no strong alkalis.

1/GAL \$76.56

# UlanO

## ORANGE

Ready-to-use **SBQ-photopolymer** direct emulsion formulated for imprinted sportswear printing. Formulated with a "masking color" that reduces light scattering—the major cause of loss of resolution. High solids content and viscosity. **Dyed Orange.**

1/QT \$24.29

1/GAL \$69.71

## PLATINUM

Ready-to-use, **SBQ-photopolymer** emulsion. Resists both plastisol and waterbased textile inks, as well as most washup solvents allowing for an easier reclaim process. High resolution exposure. High viscosity and a high solids content which improves control during the coating process. Fast drying times and high edge definition. **Dyed Gray.**

1/GAL \$81.02

## QT-DISCHARGE

Formulated for use with **discharge, waterbased and plastisol inks**. Good stencil build-up. Powder diazo. **Dyed Pink.**

1/QT \$27.05

1/GAL \$81.12

## #10 EXTRA HEAVY BLOCKOUT

A water-soluble, high viscosity blockout. Effective coverage in a single coat.

1/QT \$23.00

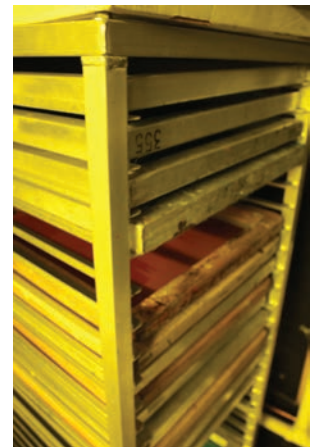

1/GAL \$59.39

## #65 SCREEN FILLER

A water-soluble blockout. Use full strength or diluted.

1/QT \$16.16

1/GAL \$43.05

SUPPLY ORDERS PLACED  
BEFORE 4:00PM ET  
ARE SHIPPED OUT  
**SAME DAY**  
(IN STOCK ITEMS ONLY)

**MULTI-TEX**

**NEW POLYCOL MULTI-TEX** is a high solids, fast exposing, **pure photopolymer** emulsion specially formulated for use with the newest textile inks including all plastisol, water-based, and discharge systems. It is optimized for use on the newest Computer-to-Screen imaging & LED exposing systems as well as conventional exposure systems. **Dyed RED or BLUE.**

- 1/QT \$21.85
- 1/GAL \$67.20
- 5/GAL \$324.55

**RED BLOCKOUT**

An economical, water soluble, and solvent resistant screen filler used for blocking out screens before printing.

- 1/QT \$16.07
- 1/GAL \$40.50

**SUPPLY ORDERS PLACED BEFORE 4:00PM ET ARE SHIPPED OUT SAME DAY**

**STENCIL REMOVER CONCENTRATE**

Economical liquid concentrated stencil remover for all direct emulsions and capillary films. One quart makes up to 5 gallons of working solution.

- 1/QT \$41.54

**CONCENTRATED INK WASH**

Very effective at removing plastisol, UV and some solvent-based inks. Can be diluted with water and also helps reduce ghost haze images.

- 1/QT \$20.85
- 1/GAL \$62.54
- 5/GAL \$280.36

**DEGREASER CONCENTRATE**

Economical degreaser with strong foaming action. It is free from Chlorine and phosphates, and is biodegradable. One quart of concentrate makes 5 gallons of working degreaser solution.

- 1/GAL \$63.84
- 5/GAL \$292.25

**ON-PRESS CLEANER W/ CITRUS**

- 5/GAL \$203.50

**ONE COAT**

A high solids, fast exposing pre-sensitized emulsion for printing garments with plastisol, waterbased and discharge inks. This emulsion was specifically developed for screen room efficiency and processing speed. Stencil thickness is achieved by applying one coat of emulsion on each side of the screen. Maximum water resistance is achieved by mixing in diazo D. **Dyed Blue.**

- 1/QT \$27.28
- 1/GAL \$82.00
- 5/GAL \$377.21

**POLYCOL S**

A blue, solvent and UV resistant SBQ emulsion formulated for graphics printers. **Dyed Blue.**

- 1/GAL \$97.41
- 5/GAL \$424.62

**CROSSOVER**

Quick exposures and great latitude. Awesome resolution and mesh bridging. No solvent lock-in. Very easy developing and reclaiming. Plastisol, UV and solvent resistant. **Dyed Red.**

- 1/GAL \$72.74

**POLY-PLUS Z**

This 40% solids content emulsion utilizes the latest in raw material technology to blend superb resolution with economy. Poly-Plus Z is UV, solvent and plastisol resistant and is formulated for smooth easy coating. **Dyed Blue.**

- 1/GAL \$73.95

**POLY-PLUS S**

Highly suitable for halftone reproduction or other fine detail work. Its solvent resistance gives it superior strength against most solvents and ink washes, while remaining durable in humid environments. **Dyed Blue.**

- 1/GAL \$102.29

**TECH TIP**

**EMULSION APPLICATION**

When coating manual screens, it should take 8 seconds to get from the bottom to the top of the screen. When coating auto screens, it should take 12 seconds.

Using an even and consistent pressure with the correct coating time, will yield better quality print results (and help avoid pinholes).

**BUY 4+ GALLONS AND SAVE 10% ON ALL EMULSIONS**

### ULANO EZ FILM 30

Film can be adhered with plain water or with QTX direct emulsion in the direct/indirect mode. It adheres perfectly, dries faster than direct emulsion and exposes very quickly. EZ Film should be used with nonaggressive solvent-based inks and mild wash-up solvents. Screen openers and aggressive solvents will make screen reclaiming more difficult.

**30 micron is ideal for mesh counts 230 and higher.**

15x16.75 50/sh \$92.95

16.75x25 50/sh \$123.20

### ULANO EZ FILM 50 ORANGE

Film can be adhered with plain water or with ORANGE direct emulsion in the direct/indirect mode. It adheres perfectly, dries faster than direct emulsion and exposes very quickly.

**50 micron is ideal for lower mesh counts.**

15x16.75 25/sh \$53.00

15x16.75 50/sh \$97.90

16.75x25 50/sh \$126.50

### CDF VISION

Compatible with UVs, vinyls, and virtually all solvent-based inks. Depending on the thickness selected, it is suited to such printing applications as: electronics, circuit traces, membrane switches, halftones, CDs and DVDs, ceramic decals, posters, and containers and bottles. **Comes in a 25 x 394 roll.**

**CDF Vision 20 - Suitable for 305 - 380 Mesh**

**CDF Vision 35 - Suitable for 180 - 280 Mesh**

Vision 20 \$156.81

Vision 35 \$188.05

### DIRECT TO FILM AND TRANSFERS

#### DTF FILM 24"

KIWO DTF FILM PREMIUM is a PET (Polyester) substrate circa 120 micron coated on one side with a special aqueous receptive layer, designed to be transferred via thermal reaction. The non coated side is normally left uncoated or with a single layer "nonslip" coating to improve registration. As opposed to Inkjet Film used for screen printing film positives and negatives, KIWO DTF FILM PREMIUM is designed in combination with the addition of a specialist adhesive layer post printing, to be transferred via thermal reaction to any thermally stable substrate, such as cotton, nylon, treated leather, polyester, 50/50 blends, and more (must have a higher Glass Transition and Melting point than the DTF process).

24" X 328' \$153.95

#### DTF INK

KIWO DTF (Direct To Film) PREMIUM INKS are an aqueous based ink inkset for DTF printers. High density CMYK and White inks designed for low viscosity printheads and for vibrant color reproduction with lower ink limit than other formulations.

Colors:

Cyan, Magenta, Yellow, Black, White and Solution

Colors \$54.30

Solution \$45.00

#### SISER EasyColor DTV

Siser's latest innovation, EasyColor™ DTV (Direct to Vinyl), is a white, printable material with a matte finish designed to be compatible with desktop printer inkjet ink, Siser® EasyColor provides excellent print quality with vibrant colors. Only slightly thicker than EasyWeed, EasyColor™ is lightweight enough for polyester applications, yet still opaque enough for light and dark fabrics. Simply print, cut, mask, and heat to make full-color creations with your desktop printer!

		MASK
8.5 x 11 5/pk	\$12.00	\$6.00

1/PINT LID	\$.75

### GOOP SCOOP

Great for scooping ink from containers as well as to and from screens. Comes in two sizes: Large for gallon containers and Small for quart containers.

SM.	\$2.00
LG.	\$2.50

### INK SPATULAS

Great for stirring, scraping ink from screens, and scooping ink from containers. All spatulas come standard with a black plastic handle.

	STRAIGHT	ANGLE
9"	\$6.50	\$6.50
11"	\$9.00	-
13"	-	\$9.00

### RUBBER PALLET SHEETING

1/8" thick white rubber, adheres to pallet with a high temp contact cement / glue, such as Sprayway 092.

36"W	\$36.00/linear ft
092	\$15.95/can

### BLOCKOUT PEN

For screen pinhole touchup. Fast drying and water soluble. Comes in red, green and Blue. Red is thicker, green is fast drying and blue is for waterbase inks.

\$9.00

### LITHOPAQUE PEN

Photographic touchup pen for films and positives. Comes in xtra fine, fine and broad point tips.

\$8.10

### 32 OZ BOTTLES

32oz. squeeze bottles with flip style cap.

\$2.55

### SPRAY BOTTLE

32oz. trigger spray bottle with solvent resistant seal.

\$4.50

### SAFETY SLEEVES

T12 bulbs, blocks UV light in dark rooms. Two End caps Included with each sleeve.

24"	\$12.95
48"	\$19.95
96"	\$30.95

### PANTONE COLOR CHART

The standard for color in the graphic and textile screen printing industry. **Note:** Store in a dark place to prevent colors from fading.

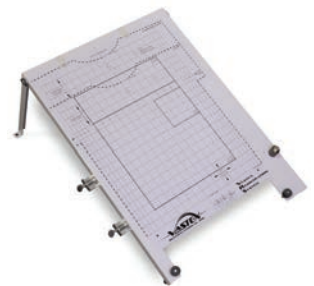

\$195.00

### VASTEX VRS REGISTRATION

Attach your positive in register, to set up sheets using an alignment grid backdrop. Locate and attach your positives in register to your screens using the Vastex pin board with screen stops. Burn all your screen in register with any exposing unit. Accurately locate and clamp each screen onto your press using the Vastex pallet jig. Now you are ready to print! VRS Pin registration system includes Pin board w/ pins, setup sheets, stand and pallet jig. Components can also be sold separately.

Manual Press System	\$1,191.00
Auto Press System	\$1,789.00

### VASTEX VRS LITE

Works with ANY exposing unit and ANY rear clamp manual press. Combination pinboard/pallet jig constructed of durable heavy gauge steel with anti-rust treatment and easy-to-read instructions printed directly on surface. Layout graph with guidelines for standard and oversized size shirts, front left chest, standard and youth pallet sizes.

Image area: 12 x 12 in. Fits pallet widths 14-17 in.

\$712.00

### #3 DEGREASER

Removes dirt, dust and oils from all fabrics new and used. #3 is ready to use and requires no mixing.

- 1/GAL \$46.19
- 5/GAL \$205.85

### #4 STENCIL REMOVER

A ready to use liquid stencil remover for fast and thorough removal of direct emulsions and CDF direct films.

- 1/GAL \$61.97

### #5 STENCIL REMOVER

A ready to use paste that removes direct emulsions and CDF films from all types of fabric. No odor and no strong alkalis.

- 1/GAL \$76.56

### MAGIC MESH PREP

A ready to use liquid combining the properties of mesh degreaser, wetting agent and anti-static treatment.

- 1/GAL \$43.66

### HARDENER D

A liquid stencil hardener for use with QT-DISCHARGE emulsion to improve durability and water resistance. Can be used with other textile emulsions but will make stencil removal more difficult and may embrittle the stencil.

- 1/GAL \$42.45

### BEAN-E-DOO

Naturally made from 100% soybeans. It contains no dangerous vapors or odors to aggravate your senses while you work. Since it is 100% biodegradable and non-toxic, you don't have any disposal problems to worry about.

- 1/QT \$16.95
- 1/GAL \$53.95
- 5/GAL \$194.95

### STRIP-E-DOO

This biodegradable, non-caustic, non-toxic reclaimer and degreaser is just what the industry ordered. It's fast acting, thick and stays in place as it breaks down the toughest of emulsions.

- 1/QT \$14.95
- 1/GAL \$46.95
- 5/GAL \$192.95

### D-HAZE

Soy based. Not only gets rid of ghost images, it's also the kiss of death to the cleaners that cause your eyes to burn and your skin and nose to become irritated.

- 1/QT \$23.95
- 1/GAL \$76.95
- 5/GAL \$344.95

### D-HAZE GEL

All the same great qualities of D-Haze liquid with the added benefit of Franmar's exclusive GEL formula.

- 1/QT \$21.95
- 1/GAL \$73.95
- 5/GAL \$345.95

### D-GREASE

Made from distilled corn oil. Fast drying surface cleaner that is ideal for removing any left-over cleaning solvents from your screen. Rinses clean with hot or cold water.

- 1/QT \$8.95
- 1/GAL \$19.95
- 5/GAL \$74.95

### UN-LOCK

Locked in emulsion remover.

- 1/QT \$19.95
- 1/GAL \$68.95

### GREENWAY

A biodegradable, non-hazardous solvent, ideal for replacing mineral spirits. It causes less wear on emulsions and will not loosen tape. Mix 50/50 with water and clean most inks in large wash tanks. For UV and air dry inks, use full strength.

- 1/QT \$27.95
- 1/GAL \$96.95
- 5/GAL \$408.95

### COLOR CHANGE

A water rinse, on-press solvent. An ounce of Color Change should handle the ink on a standard sized textile screen.

- 1/QT \$27.95
- 1/GAL \$95.95
- 5/GAL \$446.95

### ICKEE STICKEE UNSTUCK

Eliminates adhesive build up in a flash. It's also great for cleaning ink spills and spots on floors and equipment.

- 1/QT \$23.95
- 1/GAL \$80.95
- 5/GAL \$350.95

### AQUA WASH

Aqua Wash cleans all types of water based inks, including discharge inks, and even works as a screen opener while still on the press.

- 1/QT \$16.95
- 1/GAL \$57.95

### TEXTILE TRIAL KIT

Kit includes one quart of each of the following: Bean-e-doo, Strip-e-doo, D-Haze, D-Grease, Greenway, (2) white scrub pads, (1) red D-Hazer pad and (1) reusable handle.

- \$79.95

## SOLVENT INK REMOVERS

### EASISOLV 140

A quick drying, fast acting, solvent cleaner designed to effectively break down and dissolve all types of printing inks from screen mesh, squeegees, flood bars, pad printing cliches, ink scrapers, tools, frames, and presses. This product is ideal for on-press color changes, screen opening, or save screens. Non-flammable. Dries fast. Non-hazardous.

5/GAL \$222.84  
55/GAL \$1,834.53

### EASISOLV 120

A fast drying solvent cleaner formulated to effectively dissolve and remove printing inks from screen printing mesh, squeegees, flood bars and presses. The combination of components is designed to solubilize and remove virtually every type of ink and minimize any remaining stains. Non-hazardous. High flash point. Evaporates quickly.

1/GAL \$59.60  
5/GAL \$299.00

## MESH PREP

### SCREEN PERFECT

**Degreaser.** A ready to use liquid which provides a revolutionary, radical approach to preparing mesh for emulsion coating and film application. This unique union of waterbased polymeric components will simply eliminate many of the common problems experienced in screen making. Pinholes and fisheyes are eliminated. Thick and thin spots on emulsion coated screens will disappear. Screens look and feel smoother. Print life is extended. Screens rinse out easily. Mesh reclaims simply.

1/GAL \$39.62

### SPIGOT AND TANK FLANGE

Replacement parts for broken diptank spigots and flanges in the thread hole. Flange is 3/4".

Spigot \$3.95  
Flange \$12.50

## ON PRESS CLEANERS

### PLASTISOLV 842

Virtually odor free, which provides a more pleasant work environment. Economically priced which will reduce your screen cleaning expense. Will not lock in photopolymer emulsions and films which allows for quick, easy reclaiming. Quickly dissolves all textile inks leaving no image area stains which streamlines the screen cleaning process. Is not SARA reportable which requires less solvent monitoring and paperwork.

1/GAL \$40.23  
5/GAL \$178.67  
55/GAL \$1,539.88

### PLASTISOLV 810

100% active, odor free plastisol ink remover which can be used at the press and in the reclaim area. PlastiSolv 810 cuts ink lighting fast and dries quickly for on press color changes, screen opening or saved screens.

1/GAL \$24.73  
5/GAL \$116.25  
55/GAL \$1,027.33

### PLASTISOLV 800

An environmentally approved, low cost, 100% active, virtually odor free textile ink remover which can be effectively used at the press and in the reclaim area. PlastiSolv 800 cuts ink fast and quickly dries for on press color changes, screen opening or saved

1/GAL \$31.28  
5/GAL \$141.00  
55/GAL \$1,133.42

## PRESS WASH

### EASISOLV 701

An environmentally approved, 100% active, low odor, extremely quick penetrating and fast acting solvent designed to dissolve and clean virtually all types of screen printable inks, adhesives, clear coatings and stains from printing mesh. Conventional / solvent, UV, electronic, waterbase and textile inks are quickly dissolved with EasiSolv 701 without the hazards and odors usually associated with aggressive solvents and caustic stain / haze removers. EasiSolv 701 works quickly and causes no damage to screen mesh.

1/GAL \$57.45  
5/GAL \$276.46  
55/GAL \$2,074.49

## EMULSION REMOVERS

### EASISTRIP SUPRA

One step ink cleaner and emulsion remover for diptanks (1:10) for thin emulsion or (1:5) for thicker emulsion.

1/GAL \$51.05  
5/GAL \$235.73  
55/GAL \$2,085.62

### EASISOLV 5

An economical liquid concentrate, which easily mixes (1:4) Easisolve 5 to water. Biodegradable and drain safe with water, which reduces environmental concerns. Will effectively degrease mesh as it dissolves emulsions, providing cost effectiveness by saving time and labor. Dissolves virtually all films and emulsions from coarse to fine mesh, leaving no emulsion stains or hazes which interfere with subsequent screen making.

1/GAL \$92.11

### EASISOLV 500

A revolutionary, liquid, emulsion remover concentrate which is engineered to quickly and aggressively dissolve all direct emulsions, capillary and high density films with ease. Mix up to 1:25.

1/GAL \$145.83

## POLY DIP TANK

The Easiway PT-500 series of screen-reclaiming tanks are designed for use with Easiway's One Step ink and other emulsion-removal reclaiming chemistry.

**PT-520** dimensions are 8"W x 30"L x 36"D, 37 Gal, 25" x 33" max screen size with a 4 frame capacity.

**PT-506** dimensions are 4.5"W x 24"L x 30"D, 15 Gal, 23" x 28" max screen size with a 2 frame capacity.

**PT-525** 25 Gal, 2-3 23x31 horizontal or 20x24 vertical

- PT-520** \$460.00
- PT-506** \$270.00
- PT-525** \$499.00

## Gem-Zyme

Gem-Zyme is designed for the removal of all photopolymer emulsions, diazo emulsions, and capillary film emulsions. Gem-Zyme will immediately liquify and break down the emulsion and dramatically increase the speed of the reclaim procedure. \*Contains natural enzymes to help degrade the emulsion\*

- 5/GAL** \$167.25

## ENVIOWIPES

EnviroWipe@s are intended for screen printing applications designed primarily for plastisol and water-based ink. Ideal for the following: production color changes, ink clean-out for screens, removing ink from frames, cleaning screen printing equipment, screen printing squeegees and flood bars, ink spatulas, buckets, sample department, and ink mixing department.

- PAIL** \$34.38
- 4/CASE** \$154.75

## CG4

CG-4 is best suited for clean-up of plastisol ink. Use CG-4 as a screen opener, as a screen wash when saving the emulsion, and as a press wipe during continuous printing. This product can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, or precision immersion cleaning processes. It may also be applied manually by a brush or a handheld sprayer. It will protect the fabric from deep stains or ghosting from the image print, which makes it much easier when complete reclamation of the screen is necessary. CG-4 is an excellent cleaner for the removal of pallet or printer adhesive.

- 5/GAL** \$99.25

## TS-305

TS-305 is best suited for clean-up of plastisol ink. Use this product as a screen opener, as a screen wash when saving the emulsion, and as a press wipe during continuous printing. This product is also an excellent cleaner for the removal of pallet or belt printers' adhesive. This product can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, screen printing dip tanks, or precision immersion cleaning processes. It may also be applied manually by a brush or a handheld sprayer. TS-305 is fast drying and leaves no film or oil residue so that the clean surface is in excellent condition for tape adhesion.

- 1/GAL** \$34.38
- 5/GAL** \$154.75

## "Pink Stuff"

"The Pink Stuff" is a viscous ghost/image stain remover and degreaser that is designed for all ink systems. This product removes stains with less noticeable odor and works better than most paste stain removers. "The Pink Stuff" can be used for degreasing and wetting all types of screen fabrics, including polyester, nylon, and stainless steel.

- 1/QT** \$24.02
- 1/GAL** \$57.74
- 5/GAL** \$399.00

## Citra-Paste

Citra-Paste is a semi-viscous, water soluble cleaner. It is designed for the removal of a variety of inks without attacking the emulsion. Citra-Paste top priority is plastisol and water-based inks. This product can be used for the total removal of inks before reclaiming the screen. For reclamation, this product can be diluted 50/50 with water and still maintain excellent cleaning power.

- 1/GAL** \$57.74
- 5/GAL** \$399.00

## NITRILE GLOVES

15mil forced fiber. Flock-lined for easy on/off. Solvent resistant. Durable for repeated wear. Available in S, M, L and XL.

- 1/pair** \$3.50

## PVC APRON

45mil thick polyester knit lined apron. 35"W x 45"L chemical resist.

- \$25.00**

## HEAD GEAR

Easy to adjust ratchet headband. Easy to change visor. Head gear and shield sold separately.

- \$31.75** **A**

## FACE SHIELD

- \$21.25** **B**

## 3M HALF FACE RESPIRATOR

Comes in medium or large. Cartridges and filters sold separately.

- MED** \$30.00 **C**
- LG** \$30.00

## RESPIRATOR CARTRIDGE

For organic vapor / acid gas.

- 2/pk** \$28.00 **D**

## RESPIRATOR FILTER RETAINER

- 2/pk** \$9.15 **E**

## RESPIRATOR PARTICULATE FILTER

- 2/pk** \$10.00 **F**

**RHINOTECH**  
THE SOLUTION IS IN THE SYSTEM

**SW145C**

**Screen wash.** Economical, low-odor citrus solvent mixture removes plastisol and UV inks.

- 1/QT \$21.60
- 1/GAL \$36.40
- 5/GAL \$175.40

**SW175**

**Screen wash.** Great all-purpose solvent mixture. Removes most inks including mylar and epoxy.

- 1/GAL \$42.30
- 5/GAL \$202.00

**PW125**

**Press wash.** Very efficient, leaves no residue. A fast drying solvent mixture for plastisol, UV and conventional inks.

- 1/QT \$21.80
- 1/GAL \$41.55
- 5/GAL \$202.70

**PW115**

**Press wash.** A medium evaporating chemical mixture that doesn't leave a residue once dry.

- 1/GAL \$31.75

**PW122**

**Press wash.** Very effective for textile printing. Pleasant odor.

- 1/QT \$21.25
- 1/GAL \$36.15
- 5/GAL \$172.80

**ER8550**

**Ready to use liquid emulsion remover,** straight from the container or up to 1:4.

- 1/QT \$21.40
- 1/GAL \$40.40
- 5/GAL \$197.45

**ER8500L**

**Liquid concentrate emulsion remover** mixes with water. One gallon makes 15 gallons.

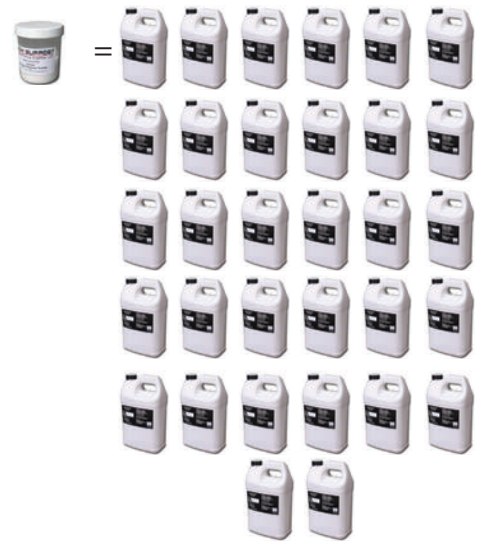

- 1/QT \$38.35
- 1/GAL \$76.55

**ER8500P**

**Powder concentrate emulsion remover** mixes with water. One pound makes 32 gallons. 3 teaspoons makes a gallon.

- 1/LB \$81.20

**HR2400**

**Liquid haze remover** gets out tough ink stains. Spray mesh, scrub and pressure wash stains away.

- 1/QT \$21.00
- 4x 1/QT \$80.00

**DG2200**

**Liquid degreaser** with strong grease cutting action. Use straight or dilute up to 4:1. Works great and is economical.

- 1/QT \$11.60
- 1/GAL \$18.95
- 5/GAL \$89.00

**HCP100**

A mild, pleasant smelling **hand cleaner** with pumice. Gallon pricing includes pump dispenser.

- 1/GAL \$34.35

**SUPPLY ORDERS PLACED BEFORE 4:00PM ET ARE SHIPPED OUT SAME DAY**

**ALL PRICES IN THIS CATALOG ARE SUBJECT TO CHANGE WITHOUT NOTICE. GOODS WILL BE SHIPPED AT CURRENT PRICES IN EFFECT AT THE TIME OF SHIPMENT.**

**WM PLASTICS 100% COTTON WHITE INK** \*Cures at 270°-325°\*

NAME	DESCRIPTION	ITEM	PINT	QUART	GALLON	5 GALLON

# TECH SUPPORT FUNDAMENTALS OF PRINTING

**SCREEN ROOM**

**COATING SCREENS**

**EXPOSING/ DEVELOPING**

**INK SELECTION**

**SQUEEGEE/ OFF CONTACT**

**PRINTING**

**FLASHING / CURING**

**RECLAIMING**

**Screen room** - The heart and soul of printing. An ideal screen room is 90 degrees and 30% or lower humidity with UV safe lighting. NO BUG lights! A dehumidifier and a space heater will be perfect in addition to a digital thermometer, which tells you if both are needed. Unexposed screens are super absorbent and will soak up all the moisture in the room, not allowing it to reach the surface of the screen and evaporate. A high dry heated room with low humidity will allow all that moisture from the emulsion to evaporate out of the screen and harden properly during the exposure process. This will allow for proper coating and exposing for long lasting screens!

**Coating screens** - A scoop coater typically has two edges, yet some have one. For a proper coating, we recommend always starting on the substrate side of the screen (T-shirt side) and finishing on the squeegee side. One over one gives you a thin deposit of ink, where a one over two or a two over two will give you heavier deposits. The edge of the scoop coater also determines the thickness of the emulsion. Thin side of the coater is used for posters and signs, and the thicker edge is used for garments. ALWAYS finish on the squeegee side. NEVER scrape off what you put on the screen. Dry the screens as they would be on press, squeegee side facing the ceiling. For coarse mesh use a one over one coat, let it dry, then add a face coat to the substrate side of the screen. This is great for glitter screens.

**Exposing/Developing** - After exposing your screen, remove your film and soak down both sides of the screen with an adjustable garden hose nozzle. NO PRESSURE WASHER! Use nice even pressure with the shower or fan adjustment. Let it sit for 30-45 seconds, rinse out only the substrate side of the screen and not the squeegee side. Feel the squeegee side of the screen. If it feels slimy, you maybe under exposed or under cured. If the screen is taking longer than 1.5-2 minutes to rinse out, it maybe over exposed. Everything should dissolve out of the image within 2 minutes or less depending on the coating of emulsion.

**Ink selection** - Choosing ink can be cumbersome. All Purpose is usually for white shirts or printing on top of an underbase. High Opacity ink or HO is made to be able to print flash print the ink color on darker material without an underbase. Poly inks are the most opaque with bleed blockers and blowing agents to help keep bright on synthetic material. The bleed blocker and blowing agents help keep the ink's true color without dye migration on synthetic material. Once you have your ink selected, you may need to reduce with curable reducer. This will help with clearing the screen on higher mesh and make it easier to work with wet on wet printing.

**Squeegee/Off contact** - Squeegee durometer goes 60,70,80 or 60-90-60 and 70-90-70. The lower the number, the softer the blade. Soft blades will help with light colors of ink on dark colored garments. For Example 60D is great for white ink on black shirts and 80D is great for printing poster and yard signs. The triple durometer is great for someone who may print with a lot of force and allows them to keep a blade stiff yet still have a soft edge. Off contact is very important when it comes to printing, off contact is the distance between the screen and substrate. A great habit is to set your garment on the platen, then place a nickle at the top and bottom of the platen and bring your screen down to just rest on top of the nickles. This is great off contact to help with clearing the screen and the lift off of the mesh when printing. If you have a loose screen you will need higher off contact.

**Printing** - When the screen is set up, tape the inside along the edges to keep the ink from leeching through. Off contact is set, your ink is selected and your squeegee is ready.... now is the time to start printing. You may want to start with some test material such as pellons or an old or new shirt. Test printing allows you to see any imperfections in the print such as pinholes or missing imagery. Pushing and pulling the squeegee would be the most common printing styles. Pushing is a lot easier on the body physically, allowing for a thinner ink deposit. Pulling is tougher on the body, but allows more ink to be deposited. These methods are very important to understand when looking at your print. Sometimes it's as easy as changing your print stroke to make your print look good. There is no right or wrong. A lot has to do with what is comfortable for you. Just make sure you always print in the same direction. If not, this can cause "ghosting" of an image.

**Flashing/Curing** - Flashing is a very hot heat source used to set the base layer(s) of ink so other layers / colors can be added. The flash unit should be 3"-4" off the platen for optimal surface heat. Depending on the ink being used, flashing only takes 3-10 seconds to gel. The surface of the print should hit a gelling temperature of 200-220 degrees. Curing is typically done using a conveyor dryer where the shirt is placed on the belt and sent through at a designated time and temperature. Standard cure inks need to reach 320 degrees for 10-12 seconds and dwell at that temp. This is achieved by adjusting belt speed and dryer temp until you get the dwell of time and temp for the print. Normally the temp rises the last foot in the dryer, where it reaches the peak temp and with the speed of the belt will dwell for 10-12 seconds. Once it hits the time and temp, it should be exiting the dryer and on its way to cooling down. You may want to use fans or lay prints out, not allowing them to fall into a box where heat smolders.

**Reclaiming** - Once printing is done, scrape all the ink back into the container and remove all tape on the screen. Once everything is removed from the screen, wet down both sides of the screen with ink degradant, scrub it in and let it sit. Rinse off the ink and your emulsion is what's left. You can either keep the screen at this step or remove the emulsion. Spray emulsion remover on both sides, scrub it in and let sit for 30 seconds. PRESSURE WASH the emulsion off. After the emulsion has been removed, use a haze remover scrub if there are stains. Let it sit for at least 1 minute, then PRESSURE WASH off your stain. For the final step, use a degreaser to give the screen a good scrub then rinse / flood / rinse. After this, your screen is clean so DO NOT TOUCH THE MESH!

# WHICH AQUO INK SERIES SHOULD YOU USE?

**Aquo-Lite** is a water base screen printing ink designed for lighter colored textiles. Aquo-Lite inks are **heat-cure** inks that cover nicely on lighter garments or can be used with an underbase on darker garments where good coverage and color brightness, along with soft-hand, are needed.

Aquo-Paque series ink is a high-opacity water base screen printing ink designed for darker colored textiles. Aquo-Paque inks are heat-cure inks that cover nicely without sacrificing color brightness or soft-hand feel that water-based inks are known for.

**Aquo-Air** inks are **air-dry** inks made to be printed on a variety of substrates including papers, plastics and more. Aquo-Air is a finished ink mixing system that can be used straight from the container or mixed with other Aquo-Air mixing system inks to create over 900 different colors.

# LET OUR **AQUO** GUIDE SHOW YOU THE WAY.

AQUO-BLEND SERIES  
**AQUO INK**

Aquo-Blend is a water base screen printing ink designed for lighter colored textiles. Aquo-Blend inks are **heat-cure** inks that can be used straight out of the container or mixed with other Aquo-Blend mixing system inks to create over 900 different colors.

AQUO-HYBRID SERIES  
**AQUO INK**

Aquo-Hybrid inks are a water base textile ink designed for direct printing onto temperature sensitive products where flexibility and **air-dry** solutions are needed, such as nylon. Aquo-Hybrid inks offer an unmatched balance of color brightness, softness and durability without the need of additives.

AQUO-CHARGE SERIES  
**AQUO INK**

Aquo-Charge inks are discharge inks that can be used straight out of the container as a stand-alone water-based ink or as discharge inks when mixed with Aquo-Charge Activator. They are **heat-cure** inks that can be mixed with other Aquo-Charge mixing system inks to create over 900 different colors.

**ALL SERIES OF AQUO INKS**

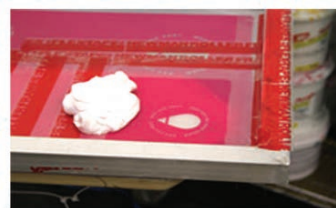

1 Gal	32 oz.	16 oz.	4 oz.	DESCRIPTION
\$55.00	\$25.00	\$15.00	\$8.00	Aquo Retarder (For All Aquo Series Inks)

Tape off screens and any registration marks.

Heavily spray your screens with Retarder.

The more ink you use, the longer it will last on press. Not enough ink will reduce screen stability causing ink to dry too quick.

Always keep the image area flooded after printing. This keeps the print from locking up.

**AQUO-CHARGE** (DISCHARGE, COLOR MATCHING SYSTEM, HEAT CURED)

\* Color swatches are for **reference only**. Actual shades may vary **SIGNIFICANTLY**.

*\*All Aquo-Charge inks are sold separately from Aquo-Charge Activator. All Aquo-Charge inks must be mixed with Aquo-Charge Activator in order to work.*

**PERMASET AQUA PERMATONE**

Permaset Aqua Permatone is a water base 100% solvent free textile ink designed for direct wet-on-wet printing on a wide range of natural and synthetic fabrics. Once **heat cured**, the unique formula offers an unsurpassed balance of color brightness, softness and durability to wash, rub and dry-clean, eliminating the need for additives. **PLEASE NOTE: Glow only refers to a bright color tone, glow colors do not glow in the dark.**

**TECH TIP**

Applying **Retarder** to your screen before adding any waterbased ink will lubricate the mesh, slow down the inks drying time and allow for smoother print runs!

Mix the Retarder with water in a trigger spray bottle at a 50/50 ratio. Shake well and spray generously. Use a clean-up card or clean rag to spread the Retarder evenly across the ink-side of the screen.

**PERMASET AQUA SUPERCOVER**

\* Color swatches are for **reference only**. Actual shades may vary **SIGNIFICANTLY**.

Permaset Super Cover ink is a **HEAT CURE INK** and is specifically designed to provide excellent coverage and opacity on dark fabrics, but can be printed on various types of material both natural and synthetic. **PLEASE NOTE: Glow only refers to a bright color tone, glow colors do not glow in the dark.**

**PERMASET PERMAPRINT PREMIUM**

Permaprint Premium is an **AIR DRY INK** suited for printing on sealed paper, cardboard, tyvek, polyesters (mylar), polycarbonates (lexan), some coated metals and poly-styrene. Care should be taken with some vinyls as plasticizer migration may soften the ink and also with some uncoated papers as cockling may occur.

**AMEX TEXPRINT**

Amex Texprint inks are **HEAT CURE INKS** designed for direct printing onto light and dark fabrics and are suitable for cotton, jersey, lycra and other natural and synthetic fabrics. They have good screen stability, excellent printability with a soft hand feel and low-tack. Amex Texprint inks are PVC, APEO, formaldehyde and phthalate free and contain no heavy metals. Ready-to-use and can be diluted with up to 5% Texprint Thinner for better screen stability. Inks must reach 266-285 degrees F for 2-3 minutes to achieve a full cure.

**AMEX DISCHARGE**

Amex Discharge inks are **HEAT CURE INKS** designed for direct printing onto dark fabrics. They have good screen stability, excellent printability with an extra soft hand feel. Amex Discharge yields bright colors, are highly reactive and have a good wet-on-wet printability. Inks must reach 266-285 degrees F for 2-3 minutes to achieve a full cure.

**AMEX TEXPRINT**

Amex Texprint inks are **HEAT CURE INKS** designed for direct printing onto light and dark fabrics and are suitable for cotton, jersey, lycra and other natural and synthetic fabrics. They have good screen stability, excellent printability with a soft hand feel and low-tack. Amex Texprint inks are PVC, APEO, formaldehyde and phthalate free and contain no heavy metals. Ready-to-use and can be diluted with up to 5% Texprint Thinner for better screen stability. Inks must reach 266-285 degrees F for 2-3 minutes to achieve a full cure.

**SUPPLY ORDERS PLACED  
BEFORE 4:00PM ET  
ARE SHIPPED OUT  
SAME DAY**

### REGISTRATION GUIDES

For locating flat stock and heat transfer papers. 12 guides per pack.

1/pk \$12.95

### HINGE CLAMPS

For table top printing of flat stock; mounts with screws onto any flat surface. Wingnuts secure screen frame into clamp. Great for printing with oversized frames. Clamps come in pairs of two.

\$23.50

### SIDEKICK

Screen "kickstand" holds the screen in position when performing table top printing on flat stock. Spring loaded action, simply press on the frame to lower into place. For use with hinge clamps.

6 inch \$79.95

9 inch \$87.95

### PELLONS

Pellons are sometimes called "Test Squares." Pellons are used for multiple color registration before screen printing onto the substrate you plan to sell. Pellons can also be kept to show potential customers examples of your screen printing abilities and designs.

14x16 WHITE	100/pk	\$32.70
	250/pk	\$75.45

	250/pk	\$112.00
	500/pk	\$207.95

### LATEX GLOVES

Industrial grade 5 MIL disposable gloves. Available in medium, large and extra-large. Case contains 10 boxes.

100/bx \$16.60

1/case \$145.00

### DISPOSABLE NITRILE GLOVES

Available in medium, large and extra-large.

100/bx \$30.00

### DONUT PROBE

Measures actual ink temperatures through dryers to assure correct temperatures.

15ft \$580.00

## TECH TIP

### POSTER AND SIGN PRINTING

When it comes to printing posters and signs, you want to start with a 1/1 coating of emulsion. The thinner coating of emulsion will help with a smooth hard surface and ink deposit. Also an 80D squeegee will be important for printing.

Hinge clamps are a great way to print posters and signs. This allows you to use any flat surface to meet requirements for the print size. Just attach to any table, desk or large sheet of wood.

Registration guides help keep the paper in location for printing. Simply tape the guides on the surface you are using to print on, slide your stock into the clips and it will hold in place to be printed.

Kick stands are great with the use of the hinge clamps, they allow you to raise the screen and keep it up while you switch out your print or if you need to see without the screen in your way.

**SUPPLY ORDERS PLACED  
BEFORE 4:00PM ET  
ARE SHIPPED OUT  
SAME DAY**

### SCRUB PADS AND HANDLES

For use in reclaiming and degreasing screens. Scrub pads and handles sold separately. Pads come in colors beige and blue, and can be mixed blue and beige when ordering cases.

Beige \$1.00

Blue \$1.00

Handle \$1.25

Case (24) \$18.00

### CITRUS SCREEN OPENER

Instantly opens clogged screens while still on press with a pleasant citrus smell. Dissolves most types of inks, fresh or old. Great for spot clean-up in hard-to-reach corners. For use on photographic stencils or water soluble hand cut film only. Also cleans ink, dirt and oil from printing presses.

1/can \$10.35  
12/case \$119.40

### VINYL LETTER REMOVER

Removes heat transfer vinyl letters. Apply a few drops on the reverse side of the garment to dissolve the adhesive. Peel off the graphic. Highly effective and fast drying

1/can \$17.70

### PREMIUM FLASH

AlbaChem Premium Flash Adhesive is a unique mist adhesive spray that is activated by the heat produced by flash cure units. Unlike other adhesive sprays which either lose their tack or become "gummy" from a flash, Premium Flash Adhesive is made to be flashed! With each flash, the tack of Premium Flash Adhesive increases. Ideal for high speed automatic presses with multiple flashes. Increase the number of turns before re-application with Premium Flash Adhesive.

1/can \$9.85  
6/case \$113.40

### ECO MIST

AlbaChem Eco Mist is an all purpose pressure sensitive textile adhesive. Screen Printing: provides temporary bond on pallets while t-shirts, cut pieces, and other textiles are printed; Embroidery: holds appliques in place before stitching; Apparel Manufacturing: hold blotting paper in place while fabric is cut. Re-tack for cutting mats.

1/can \$8.50  
6/case \$98.28

### PREMIUM WEB

AlbaChem Premium Web Adhesive is used to provide a tack to screen printing press pallets when printing on fleece or other textured fabrics. The unique web pattern dries quickly providing a long lasting tack that will not transfer. Premium Web Adhesive has less over-spray than mist style aerosol adhesives.

1/can \$10.10  
6/case \$116.40

### CAMIE 480

Screen Opener works to unclog screens and loosen plastisol inks on screens. It works fast to reduce down-time on screen printing projects.

1/can \$7.35  
12/case \$81.65

### CAMIE 385

Web Adhesive is a clear pressure-sensitive webbing adhesive that will not wrinkle the work while in use. Camie 385 is specifically designed for fleece and other high density garments.

1/can \$8.85  
12/case \$98.45

### CAMIE 380

Mist adhesive is specifically designed as a pressure-sensitive pallet adhesive that does not stain, offers quick tack, has low soak-in and will not wrinkle fine materials. Camie 380 remains pressure-sensitive for an extended period of time. It is excellent for making short-term bonds and releasing from the garment.

1/can \$6.65  
12/case \$74.20

### CAMIE 375

Flash Cure Spray Adhesive products, including fleece garments and is a clear mist spray particularly suited for the rapid heat cycles encountered in the flash cure process.

1/can \$8.45  
12/case \$96.55

### SPRAYWAY 63

Solvent cleaner and degreaser removes ink, dirt, grease, oil, fresh paint, etc. Quick drying, non-flammable and low in toxicity. Leaves no residue. Not for use on plastics.

1/can \$10.85  
12/case \$114.75

### SPRAYWAY 983

Crazy Clean Wipes are a water-based hand and surface cleaner that cuts through tar, grease, wax, ink, paint, lubricants and adhesives. 983 is aggressive yet gentle enough for your hands, as they're fortified with an emollient and natural oils

1/can \$22.00  
6/case \$121.90

### SPRAYWAY 985

Orange Citrus Crazy Clean is excellent for cleaning dirt, grease spots and more from walls, floors and other surfaces. Sprayway 985 is non-toxic and safe to use on painted surfaces

1/can \$7.90  
12/case \$83.30

### SPRAYWAY 955

Anti-static Spray counteracts static electricity charges that attract dust; prevent materials from feeding properly or "shock" equipment operators. Can be used on metal rollers, drive belts; scanners and electronic image processors.

1/can \$10.15  
12/case \$104.50

### SPRAYWAY 945

Silicone Spray stops squealing, sticking, and binding of machinery. Dries rapidly; leaves no greasy or oily film. Retards corrosion; makes cleaning easier and quicker. Protects and preserves equipment. Prevents power tools from binding. Long lasting residual performance.

1/can \$8.30  
12/case \$92.10

### SPRAYWAY 784

Flash adhesive is an all purpose waterbased adhesive that works great on lightweight and fleece materials.

1/can \$10.85  
12/case \$120.70

### SPRAYWAY 32

Screen Opener designed for waterbased inks, Sprayway 32 is compatible with direct and indirect emulsions, stencils or lacquer-proof knife-cut films.

1/can \$7.25  
12/case \$73.55

### SPRAYWAY 40

Glass cleaner that cleans in seconds, leaving no film or residue and does not streak or scratch. Sprayway 40 contains no ammonia or acids and is safe to use in any working environment.

1/can \$5.70  
12/case \$58.95

### FORMULA TS-3

A non-flammable cleaning fluid that will instantly remove 100% of cured plastisol inks along with waterbased, puff, flock adhesive and many other ink types. Instant dry, ozone friendly, low odor and non-ringing.

1/gal \$53.00

4/case \$190.80

### FORMULA TS-1

A non-flammable high speed spotter for the toughest industrial-type stains including grease, oil, dirt, marking pencil, lipstick, cosmetics and other soils. It is safe on virtually all fabrics including silks and satins. Instant dry, ozone friendly, low odor and non-ringing.

1/gal \$54.00

### EXHAUSTEX 2000

The powerful 2 speed vacuum motor, will instantly remove airborne contaminants from the work area, that are generated by the spot cleaning process. The secondary stainless steel chemical shield vacuums away all over-spray that it captures.

\$1,495.00

### EXHAUSTEX 1500

A large stainless steel screen and arm allow cleaning of any shape garment. The Super powerful vacuum unit, will dry the heaviest fabrics and vent away the chemical vapors.

\$695.00

### TB500 TARGET SYSTEM

The ideal replacement for aerosol adhesives. Snaps easily onto a special 1 gallon bucket. Fully adjustable for both fluid and air flows, the stainless steel tipped spray gun utilizes HVLP technology, allowing the application of a perfect mist coating of adhesive, while minimizing overspray. Compact, quiet, economical and fully assembled. Made in the USA.

\$595.00

### TB-HV

A pallet adhesive that can be hand applied directly to the pallet. Water based, with no solvents or other hazardous ingredients, TB-HV is completely non-hazardous. Heat stable up to 700°F, can withstand repeated flashing, without losing its tack.

8oz. \$9.00

32oz. \$20.00

1/gal \$60.00

### TB-EZ

TEKMAR TB-EZ is the first Pallet adhesive developed specifically for use with the new polyester Performance Fabrics.

1/gal \$53.50

### TB-10

Designed to be sprayed through an adhesive applicator. It affords tremendous hold down for both tees and sweats and has a tack time that rivals aerosol solvent based adhesives. Adhesive can be quickly re-activated by wiping over with a damp sponge, giving maximum use and minimizing reapplication.

1/gal \$49.50

5/gal \$235.15

### SCORCH REMOVER

Instantly removes light to medium scorching from tees and sweats. It is simply sprayed on the scorched areas and then the garment is run back through the dryer.

16oz. \$15.75

### TB-AR ORANGE

Formulated to cut through all Tekmar adhesives-TB-10, TB-15, TB-EZ and TB-HV and leaves no residue. A new generation citrus solvent that can be used at full strength or can be diluted for various uses. Quickly removes adhesive residue, ink, grease and oil along with dirt and grime.

32oz. \$18.00

1/gal \$58.00

### TS-VLR

A solvent formulated to break down the bond between Vinyl Letters and fabric. It is applied to the inside of the garment and then the Vinyl can be peeled off the fabric. It is very economical and fast acting.

20oz. \$20.00

### TG200

Comes complete with the target adjustable nozzle. High output silicone oscillation motor generates a powerful stream of cleaning fluid to flush out the toughest stains. Also available with the air dryer and direct feed hose attachments.

\$210.00

### TG300

The pump design incorporates a system that allows an increase in fluid stream with no increase in fluid consumption. This allows for faster, more complete cleaning, which lowers production costs and reduces the operator's exposure time. Handle is molded from fiberglass reinforced Styrene, to resist breakage.

\$185.00

### TG125

The TG125 is an affordable gun with deluxe features normally found on guns costing twice as much. Included is a fully adjustable nozzle to allow use on even the most delicate fabrics with virtual ring-proof cleaning. The TG125 is a great gun for removing screen printing smudges and ink marks. It is also great for retail stores for removal of dirt, oil and make up.

\$145.00

### GOOF GUN

Spot cleaning gun from Alloy America removes cured printing ink mistakes from any textile material, using Tekmar TS-3 or TS-1. Comes with a 90 day warranty.

\$89.00

### PMI FULL ADHESIVE

Used for blocking out areas on the screen, it can be used on both the inside and back side of the screen. Tape removes cleanly without breaking or leaving adhesive residue, will not damage emulsion and stands up to standard inks and solvents.

2" x 60 yard Roll	\$5.89
6/pk	\$34.50
36/case	\$200.00
3" x 60 yard Roll	\$8.95
6/pk	\$52.25
24/case	\$202.00
4" x 60 yard Roll	\$10.95
6/pk	\$62.25
18/case	\$186.00

### PMI SPLIT

Used to mask out the inside of a screen frame, the blue areas on the tape contain no adhesive to keep your frames clean and free of adhesive residue. Tape is easy to remove without breaking or tearing. Eliminates the need for costly labor and solvents to clean frames.

2" x 60 yard Roll	\$5.89
6/pk	\$34.50
36/case	\$200.00
3" x 60 yard Roll	\$8.95
6/pk	\$52.25
24/case	\$202.00
4" x 60 yard Roll	\$10.95
6/pk	\$62.25
18/case	\$186.00

### PMI QUICK RIP

Used for taping off registration marks and pinholes, hand tearable with a blue non-adhesive edge for quick and easy removal. Tape will remove cleanly without breaking or leaving adhesive residue.

2" x 60 yard Roll	\$5.89
6/pk	\$34.50
36/case	\$200.00
3" x 60 yard Roll	\$8.95
6/pk	\$52.25
24/case	\$202.00

### 2000 BLUE BLOCK OUT

Apply along the inside perimeter and under side of the screen. Prevents "ink-creep" between mesh and frame. Removes with one pull with no adhesive residue.

2" x 36 yard Roll	\$7.35
6/pk	\$42.50
36/case	\$245.85
3" x 36 yard Roll	\$11.15
6/pk	\$64.25
24/case	\$247.90
4" x 36 yard Roll	\$12.70
6/pk	\$73.35
18/case	\$212.25

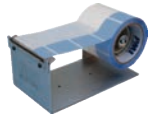

### NEKOOSA PALLET GUARD

Protect your printing pallet surfaces from ink leaks, spills and spray adhesives. Solvent exposure won't disintegrate tape adhesive, yet it removes quickly and easily, leaving no residue on the pallet.

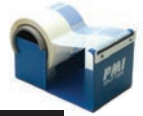

12" x 100' Roll	\$51.75
4/case	\$171.35
14" x 100' Roll	\$78.00
4/case	\$220.00
16" x 100' Roll	\$92.00
4/case	\$258.00
18" x 100' Roll	\$104.00
2/case	\$148.00
20" x 100' Roll	\$103.25
2/case	\$195.25
24" x 100' Roll	\$108.09
2/case	\$203.55

### TAPE DISPENSER

Use for all Split and Full adhesive tapes, can be mounted to table to allow one person to easily pull and cut tape. Strong and durable stainless steel design.

\$85.00

### ECONOMY TAPE DISPENSER

Elevated cutting edge allows for easy measuring and cutting while the frame is pushed against the dispenser.

\$40.00

### PMI REGISTRATION TAPE

16"x200'	Roll	\$53.30
----------	------	---------

### PMI DUAL-TACK PALLET TAPE

Polyester backing tape that is sticky on both sides to eliminate the need for water-based or spray adhesives.

15x36yard	Roll	\$45.75
18x36yard	Roll	\$58.00
15x36yard	4/case	\$176.50
18x36yard	4/case	\$221.00

### CLOTH TAPE

Solvent resistant, this tape will not release under the most demanding conditions.

2" x 60 yard Roll	\$26.84
-------------------	---------

### 4350 PALLET PROTEK

Eliminate the hassle and expense of cleaning lint and adhesive from your printing platens.

18" x 100 yard Roll	\$116.80
2/case	\$173.50
24" x 100 yard Roll	\$124.75
2/case	\$231.50

### MASKING TAPE

2" x 60 yard Roll	\$4.50
6/pk	\$25.94
36/case	\$149.95
3" x 60 yard Roll	\$7.25
6/pk	\$41.85
24/case	\$161.50

## EASYWEED

Easyweed is a cuttable heat transfer vinyl that can be peeled either hot or cold. It has no lifting, great durability wash after wash, and requires lower pressure and temperature. It's thinner than other vinyl material and offers a one-step application that's great for multiple layers. Easyweed comes on a clear, pressure-sensitive carrier.

### Colors:

20" x 50yd	\$395.99

## EASYWEED ECO STRETCH

First introduced with our S-Print™ Digital Media, EcoStretch is made with an eco-friendly water-based solution as well. Yet it still retains the soft, lightweight, and stretchy qualities that you know and love! Plus, a super low application temperature of just 250°F means that your heat press uses less energy—which is also a win for your electrical bill. And when you've got scraps leftover, the new water-based composition makes both the film and carrier 100% recyclable!

**Colors:** *white, yellow, sun, orange, bright red, red, green, royal blue, navy blue, black, rose gold, ballerina pink, coral, bubblegum, bright orchid, purpleberry, celestial blue, frosty mint, pale blue, charcoal, burgundy, coffee, wisteria, chestnut, calypso coral, lemon yellow, dark gold, sweet-mint, passion pink, totally teal, cobalt blue, royal purple, gold, silver and more.*

15" x 5yd	\$42.99
15" x 10yd	\$78.99
15" x 25yd	\$181.99
15" x 50yd	\$344.99

## COLOR GUIDE

The Siser color guide is a quad-fold color chart that displays actual product samples and colors. The Siser color guide is great for showing color choices to potential customers or for personal reference.

\$7.25

## EASYWEED FLUORESCENTS

**Colors:** *pink, raspberry, coral, orange, yellow, Green and blue.*

15" x 1yd	\$10.99
15" x 5yd	\$39.99
15" x 10yd	\$74.50
15" x 25yd	\$181.99
15" x 50yd	\$355.00

## EASY GLOW

Easy Glow offers vibrant neon colors that are sure to stand out in the daytime. But when the lights go out, that's when this material really shines!

Just like our EasyWeed® Glow material, Easy Glow "charges" by absorbing light over time. Then when everything goes dark, Easy Glow gives off a radiant appearance!

**Colors:** *pink, orange, yellow, green and blue*

12" x 1yd	\$11.99
12" x 5yd	\$52.99
12" x 10yd	\$99.99
12" x 25yd	\$230.99
12" x 50yd	\$434.99

## EASYWEED GLITTERS

Add the sparkle of glitter effects to any logo with Siser's Glitter heat transfer film. Glass-like fragments make this the ultimate in glitter transfer films.

**Colors:** *white, rainbow white, silver, silver confetti, confetti, light multi, black silver, black, galaxy black, black gold, burgundy, red, bronze, copper, lemon sugar, translucent orange, gold, gold confetti, old gold, light green, dark green, grass, emerald, jade, mint, mermaid blue, aqua, blue, old blue, true blue, sapphire, royal, purple, eggplant, lavender, translucent pink, hot pink, cherry, blush, rose gold, lemon sugar, champagne, flamingo pink, rainbow plum, rainbow coral, neon pink, neon grapefruit, neon orange, neon yellow, neon green, neon blue, neon purple and more .*

20" x 1yd	\$12.99
20" x 5yd	\$59.99
20" x 10yd	\$115.99
20" x 25yd	\$279.99

## EASYWEED EXTRA

Very similar to the standard EasyWeed heat applied vinyl but is made specifically for applications to nylon, leather and other heat sensitive fabrics.

**Colors:** *white, black*

15" x 1yd	\$10.99
15" x 5yd	\$42.00
15" x 10yd	\$78.99
15" x 25yd	\$181.99
15" x 50yd	\$344.99

## BRICK 600

Easy Brick 600 is a 600 micron thick, flexible heat transfer vinyl that's designed to give dimension to your garments. Great for cap's, bag's and logo's.

### Colors:

### EASY PUFF

Ready to raise your designs to the next level? As the name implies, Siser Easy Puff is a unique HTV that "puffs" up from the garment when heat applied, transforming designs into a textured 3D look. Easy Puff provides a bold style that's perfect for lettering and other large designs that can highlight the elevated effect. With a pressure-sensitive carrier and low application temperature, Easy Puff truly lives up to its name!

**Colors:**

White, Black, Navy Blue, Red, Yellow, Green, Orange, Pink, Sky, Wine, Purple, Neon Yellow, Neon Orange, Neon Blue, Light Gray, Apple Green, Camel, Forest Green, Dark Gray, Deep Pink, Beige.

### PIZZA BOX

This kit travels easily with the attached handle and displays every Siser color in every material available. Customers can see and feel each of the materials.

\$189.00

### SQUEEGEE

Smooth out your masking films and remove unwanted air bubbles with this handy plastic tool. Recommended for use with all Siser® printable digital materials.

1	\$2.99
10/PK	\$25.00

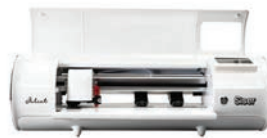

### WEEDER

After cutting your designs, quickly get rid of excess CAD material with this handy weeding tool. Recommended for all Siser® heat transfer materials and printable digital media.

\$7.79

### JULIET 12"

The Juliet™ by Siser® is a vinyl cutting machine capable of producing complex, fine detail using a wide variety of materials. With a sleek, modern design and faster, quieter operation compared to other cutters on the market, it offers easily adjustable settings like force, speed, and the cut starting point. A powerful cutter is nothing without powerful software. That's why Leonardo™ Design Studio was created to be the perfect companion software to the Juliet™ Cutter. Easily connect Juliet™ to Leonardo™ Design Studio via the included USB Cable or a WiFi connection, and you're ready to go!

\$399.00

### EasyPSV Starling

Siser and Avery Dennison have joined forces to create the new EasyPSV Starling! This is the successor to the EasyPSV Permanent line and is improved in almost every way! EasyPSV Starling is now easier to cut and weed than ever before. Achieving intricate details is easier than ever, and you don't need to worry about losing those tiny letters and shapes. Possibly the biggest change is that EasyPSV Starling is dishwasher safe— up to 80 washes! Yes, this means you can apply designs onto drinkware and run them through the dishwasher time and time again without worrying about peeling! By popular demand, most EasyPSV Starling colors are now available in a matte finish, with select colors available in a gloss finish. There is a new backing with a joint Siser/Avery Dennison logo that will help differentiate EasyPSV Starling from the previous version. EasyPSV Starling is a PVC-based material and is not CPSIA certified

**Colors:**  
White Cloud, Black Cat, Nautical Blue, Twilight Navy, Holly Berry, Dandelion, Emerald, Orange, Coffee, Royal Purple, Tropical Pink, Canary Yellow, Graphite, Orange Soda, Turtle Green, Aqua, Cream & Sugar, Cobalt, Wisteria, Violet, Persimmon, Ketchup, Bright Green, Alligator Green, Citrus, Totally Teal, Blue Skies, Light Orchid, Cherry Blossom Pink, Cashew, Hazelnut, Latte, Merlot, Carnation Pink, Camel, Soft Blue, Light Apricot, Flamingo, Coral Reef, Sea Glass, Fresh Mint, Periwinkle, Mocha, Sage, Mustard, Dark Beige, Pumpkin Pie Green Olive, Pale Peach, Retro Mint.

12" x 5yd	\$13.99
12" x 10yd	\$24.00
12" x 25yd	\$50.00
12" x 50yd	\$90.00

### ROMEO 24"

The Romeo offers all of the same great features as the Juliet but at twice the size! Built with businesses in mind, the Romeo 24" Vinyl Cutter by Siser is the perfect machine for tackling wide designs and high-volume jobs with both speed and precision. The Romeo Vinyl Cutter also has an open workspace to help increase productivity and offers variable grit rollers for loading a variety of material sizes! This capable machine is designed to take on jobs big and small - handling fine details and extensive lengths with ease. The Siser Romeo Vinyl Cutter comes pre-loaded with the cut settings for all Siser materials, eliminating any guesswork and allowing you to simply craft and design! Siser materials won't be the only thing you'll cut, however! The Siser Romeo Vinyl Cutter can work with a wide variety of items such as stickers, cardstock, craft foam, fabric, and more.

\$699.00

**FOREVER FLEX SOFT**

Heat transfer material for Black or White garments. No Cutting! No Weeding! (Laser printer needed)  
**Colors:** Black, White, Cyan, Gold/Yellow, Jade, Red, Royal, Metallic Blue, Metallic Gold, Metallic Green, Metallic, Lilac, Metallic Red, Metallic Silver, Neon Green, Neon Orange, Neon Pink.

	10/pk	100/pk
8.5"x11"	\$23.50	\$218.00

**FOREVER FOIL**

Hot stamping foil.  
**Colors:** silver, matte silver, matte gold, pumpkin, autumn gold, teal, twilight blue, matte sunset, clear, matte pink, matte fuschia, pink, wisteria, almond, violet, olive green, kiwi, terra cotta, grass green, matte orange, strawberry and metallic black.

11.8"x39"	\$29.99
Colors: Green, Indigo, Matte Gold, Matte Sunset, Pink, bright gold, royal blue.	
11.8"x39"	\$14.99

**COVER SHEET**

If you only purchase one cover sheet, make sure it is this one, the most popular cover sheet in the industry. Teflon cover sheets protect your garment and the upper platen. It is reusable and gives your image a semi-gloss finish. Replace if the sheet becomes creased or wrinkled, this can leave unwanted imprints in your image. 18" x 20"

\$12.00

**ALBA-CHEM VLR**

Removes heat transfer vinyl letters. Apply a few drops on the reverse side of the garment to dissolve the adhesive. Peel off the graphic. Highly effective and fast drying

1/can \$17.70

**DK20SPT**

For demanding press runs and super consistent results, the DK20SPT is an ideal press for meeting requirements that go beyond what a manual transfer press and operator can handle, as well as what a single loading table layout can provide. The DK20SPT is the industrial grade midrange solution between heavy duty manual heat presses such as the DK20 and DK20S and high production 394 Factory Shuttle Press machines

\$4,950.00

**APPLICATION TAPE**

Apltape 4075 is a clean tearing tape with great transfer power. Conform 4075 RLA resists wrinkling, tunneling and edge curling. It's a standard weight paper tape with high-tack adhesive.

4075 15x100	\$61.50
4075 24x100	\$124.00
4075 30x100	\$123.05
4075 54x100	\$221.00
RLA 15x100	\$66.15
RLA 24x100	\$124.00
RLA 30x100	\$132.25
RLA 54x100	\$238.00

**CLEAR CHOICE AT60**

R-Tape's medium tack application tape.

6.5"x100yd roll	\$32.55
6.5"x100yd (8/cs)	\$211.20
8.5"x100yd roll	\$42.60
8.5"x100yd (4/cs)	\$138.30
12"x100yd roll	\$61.00
12"x100yd (4/cs)	\$235.00
24"x100yd roll	\$122.00
24"x100yd (2/cs)	\$235.00

**DK7**

The 4x7 DK7 has a unique hold-down device that pulls the rear strap of the headwear down against the pressing surface, holding the cap in place. It accepts different sized interchangeable tables (standard size included) for accommodating youth and child sized caps, fitted and low profile caps and many other items.

\$795.00

**DK20S**

The Digital Knight DK20S is a 16x20 swing-away heat transfer press. It combines a heavy duty solid steel industrial grade pressing framework with accurate and easy to use electronics to provide the operator with the best possible features and equipment needed for today's various heat transfer applications.

\$1,850.00

**4200 COLOR VINYL**

This is an **ultra high gloss calendered vinyl film**. Recommended for outdoor and indoor uses where a high quality marking film is requiring flexibility, durability and resistance to sunlight. Film can be used for architectural signage, POP graphics and decals, banners, striping, window graphics and lettering.

**Stock colors:** Azure, Beige, Blue, Dark Blue, Gold, Kelly Green, Peacock Blue, Red, Silver, Sunflower, Tangerine and Tomato Red.

**Also available:** Patriot Blue, Sapphire Blue, Matte Blue, Olympic Blue, Real Teal, Teal, Forest Green, Dark Green, Emerald, Matte Yellow, Primrose, Yellow, Wild Cardinal Red, Poppy Red, Burgandy, Magenta, Lavender, Royal Purple and Plum

30"x10yd	\$52.06
30"x50yd	\$222.81

**4200 BLACK & WHITE VINYL**

Available in White Gloss, White Matte, Black Gloss and Black Matte.

15"x10yd	\$24.99
15"x50yd	\$99.96
24"x10yd	\$37.57
24"x50yd	\$160.76
30"x10yd	\$46.72
30"x50yd	\$199.96

**DK16 / DK20**

The 16x20 DK20 and 14x16 DK16 open for full access to the lower bottom table. It is important to note that the back of the heat platen raises above and away from the bottom table, providing better access than other clamshell presses. The frame support allows operators to slide shirts over the table with complete drape space around and underneath the loading area. Interchangeable bottom table for smaller pressing areas are available. This press is ideal for environments with space limitations and for users who need more portability and mobility than the overweight swingaway presses.

DK16	\$1,275.00
DK20	\$1,450.00

**E-2000**

These all-new LED Screen Exposing Units from Vastex feature a long-lasting LED (light emitting diode) light pack that delivers ultra-fast exposure times while producing high resolution half-tones and crisp detail on the most intricate graphics.

**E2000-2331:** 25 x 36 in. max screen

**E2000-4131:** 52 x 36 in. max screen

E2000-2536 \$5,000.00 **\$117.00/mo**

E2000-5236 \$7,800.00 **\$182.00/mo**

**DRY CAB**

Vastex screen drying cabinet. Comes with a 3 year warranty. Pressurized cabin with positive airflow keeps out contaminants even if an air leak occurs. Dries emulsion as quickly as 20 minutes.

Optional: Stainless steel shelves for rust-proof drying, 10 cabinet options of casters and 240V (both are standard on 24 cabinet)

VDC 253610: 10 cabinet

VDC 253624: 24 cabinet

VDC 253610 \$2,750.00

VDC 253624 \$5,750.00 **\$134.00/mo**

**LUMITRON LED**

The Lumitron LED is the first model available from Workhorse's all new line of LED exposing units. This tabletop unit delivers fast, uniform and high resolution exposures using long lasting LED light strips. In addition to the fast exposure times and fine line detail, this unit will reduce your set up times and energy costs.

Small - Max Screen Size: 20 x 24

Medium - Max Screen Size: 25 x 36

Large - Max Screen Size: (2) 23 x 31

Small \$2,500.00

Medium \$3,500.00 **\$82.00/mo**

Large \$5,000.00 **\$117.00/mo**

New LCD touchscreen makes it easier to set and save up to 10 preset exposure times! (E-2000 & E1000)

**SD-10 DRYING CABINET**

This unit is designed to eliminate problems associated with the screen preparation process. Holds up to 10 20" x 24" up to 25" x 36" screens. Comes standard with a digital temperature control and dual functioning exhaust.

\$2,500.00

**E-200**

The E-200 has all the same features as the E-2000 but with a max screen size of 21 x 28. 120v upgradable to 240v.

21 x 28 \$2,350.00

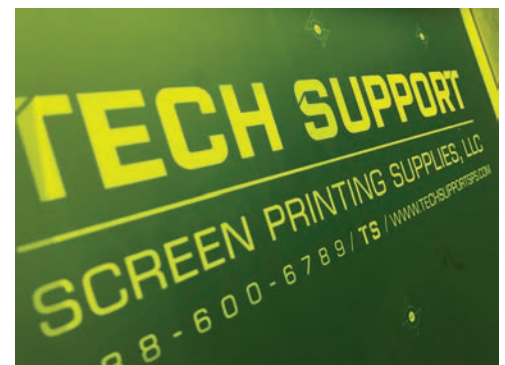

23 x 31 \$3,175.00 **\$75.00/mo**

**DTF POWDER APPLICATOR**

Powder to film applicator/shaker, 120v or 240v.

\$1,950.00

### BLACK FLASH

Heater includes 10 foot power cord, On/Off switch, a power indicator light and stand with casters.

BF1-1600: 16"x16" Heat panel, 120V  
 BF2-2200: 18"x18" Heat panel, 120V  
 BF3-3001: 18"x24" Heat panel, 240V

BF1 \$775.00

BF2 \$875.00

BF3 \$1,025.00

### AFFORD-A-FLASH

Comes with a prewired 10 foot cord and stand with casters. Does not have an indicator light or an On/Off switch.

LC-1600: 16"x20"x2", 120V  
 LC-2200: 18"x22"x2", 120V

LC-1600 \$575.00

LC-2200 \$650.00

### LITTLE BUDDY

Available in 120V or 240V, adjustable belt speed control, hassle-free belt tracking guide, locking casters and optional heat control. Comes with a 3 year warranty on heaters. 18" belt width.

Dimensions: 64"x28"x46"  
 72 (120V) - 96(240V) shirts per hour  
 Free crating.

120V \$2,850.00

240V \$3,400.00

### SUPER SECA

An infrared flash unit with a 10 year heating element warranty. 360 degree head rotation and energy reflectors for enhanced edge curing.

16x16 Head only \$500.00

18x18 Head only \$600.00

18x18 Head only \$700.00 (240V)

18x24 Head only \$700.00

Flash Stand \$245.00

Flash Stand HD \$300.00

Auto Rotation Box \$1000.00

Casters \$30.00

### F-100

This entry level flash unit comes with a 15 year heater warranty, 1,625 watt IR heater, on/off power switch, heavy duty side handles, head leveler to adjust the heater parallel to the pallet and heat shields for even heater temperature. Optional caster wheels, autoflash and rotary pallet adapter available. 16" x 16" heat panel.

\$950.00 120V

\$950.00 240V

### F-1000

Mid-level flash unit comes with a 15 year heater warranty, 1,950 Watt IR Heater, heat control with power lights, heavy duty side handles and locking wheels, head leveler to adjust the heater parallel to the pallet, heat shields for even heater temperature. Optional autoflash and rotary pallet adapter available. 18"x18" heat panel.

\$1,150.00

### D-100

Great dryer for start up and small shops. Comes with a 15 year warranty. Hi-output-high efficiency 16" wide heater with 6.35 watts per square inch. Heat control, belt speed control, heater height adjustment with tilt (perfect for curing hats), and conveyor with belt tracking guide. 110+ shirts per hour.

D-100 \$2,350.00

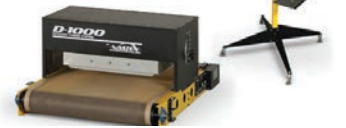

### D-1000

Compact Infrared Conveyor Dryer cures up to 110 plastisol-printed garments or 50 discharge-printed garments per hour. Conveyor belt width of 26" (66 cm) accommodates wider jackets and sweats, and wider printed images. 120V or 240V models.

D-1000 \$2,746.00

STAND \$329.00

MOUNT \$49.00

### ECONORED II

EconoRed II dryers in 30 and 54 in. (76 and 137 cm) belt widths cure garments screen-printed with plastisol, water-based inks or discharge at high rates.

ERII-30 \$7,500.00 \$175.00/mo

ERII-54 \$10,000.00 \$235.00/mo

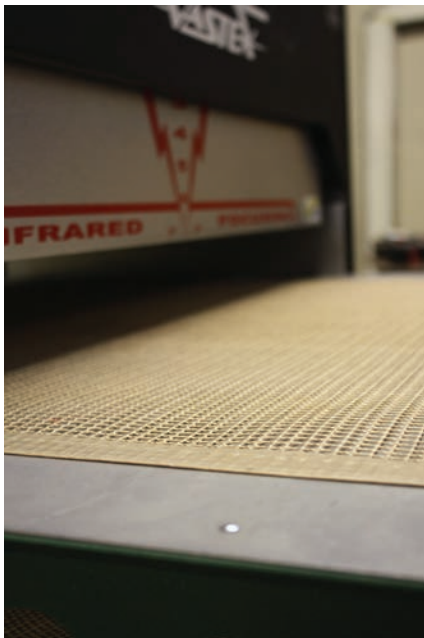

### ECONORED III

EconoRed III dryers in 30 and 54 in. (76 and 137 cm) belt widths cure garments screen-printed with plastisols, water-based inks or discharge at higher rates, in a smaller footprint, at lower cost and more quietly than the BigRed3 dryers they replace.

ERIII-30 \$8,600.00 \$200.00/mo

ERIII-54 \$12,100.00 \$265.00/mo

# WORKHORSE PRODUCTS

Durable & Dependable Screen Printing Machinery

## POWERHOUSE II DRYER

The Powerhouse Series II cures plastisol and water-based ink systems as well as other evaporative cured inks at industrial rated production speeds. The control center is managed via a touch screen tablet which is easy to use while providing you much more information than ever before. A ground up redesign of the air handling system now offers a powerful yet controllable air flow that is easily matched to your ink system. Touch screen control, adjustable height heaters, adjustable air volume and various sizes for any production requirement. This is your next dryer.

PQ5217	\$10,000.00	\$233.00/mo

## MD8 GAS DRYER

The MD8 is a compact, powerful gas fired dryer designed to cure a wide variety of substrates. The MD8 has many of the features commonly found with larger dryers combined with a space savings footprint and competitive price. This dryer is designed to cure all types of screen printed, digital printed and other coated products. The MD8 offers a patented Air Deflector Recycling System that re-circulates heated air through the heat chamber providing some of the most efficient and balanced curing on the market.

MD8 gas dryers come in 36", 48" and 60" belt widths and are equipped with a powerful 250,000 BTU stainless steel burner. Other options include: infra-red panel, cooling sections, additional conveyor sections, hi-temp feature up to 450 degrees, electric hot air burner, automatic doffing system for flat goods, UV curing capability with vacuum hold down and split belts with independent speed adjustments.

48" wide	\$29,400.00	\$620.00/mo
60" wide	\$36,800.00	\$776.00/mo

**\*Monthly payments starting as low as listed. Payments based on 60 month financing plan.**

### LITTLE RED X3D

LR-X3D series dryers have a dual zone heat control, with a boost zone to quickly reach cure temperature. This makes it GREAT Inkjet curing! With a second X3 chamber, the LR-X3D-30-2 can handle higher production including longer times necessary for Kornit printers.

All LittleRed X-series dryers come standard with the "X-Series" Conveyor Belt Roller Tracking System with Teflon

coated fiberglass belt and HD belt motor, Dual digital PID Temperature controller is accurate to +/-1°F, 2" - 7" (5 - 17.7 cm) belt-to-heater clearance, adjustable separately on each side for each heater, High powered exhaust to remove fumes and moisture, Precision DC belt speed control w/ digital display.

Other features include:

Additional chambers can be added as well as belt extensions, locking casters for easier mobility, and creeper gear.

#### LR-X3D-30

Single	\$7,970.00	\$186.00/mo
Dual	\$13,407.00	\$294.00/mo

#### LR-X3D-54

Single	\$10,998.00	\$241.00/mo

LR-X3-54	\$9,922.00	\$232.00/mo

### LITTLE RED X1D

Available in two widths, the X1D is the smallest conveyor dryer matched to the output of the most popular DTG printing systems. Its heating chamber has a boost zone to quickly reach cure temperatures for ink jet, water-based and discharge inks.

The LittleRed X1D-18 with an 18 in. (46 cm) wide conveyor belt has a heating chamber the full width of the belt, and can dry Digital White Ink at rates up to 34 pieces per hour at 2 minutes dwell time, or up to 81 garments/hr with water-based ink or discharge, and cure up to 162 garments per hour with plastisol ink.

15" Belt	\$3,942.00	\$92.00/mo
30" Belt	\$4,970.00	\$116.00/mo

### LITTLE RED X2D

The LittleRed™ X2D Dryer is the most compact and affordable DTG-capable dryer from Vastex. Radically new heat mapping speeds the curing of ink jet, water-based and discharge inks, as well as DTG-digital inks, making the X2D an unbeatable value for smaller shops.

30" Belt	\$6,334.00	\$124.00/mo
----------	------------	-------------

### BIG RED 4D

BigRed 4D Series dryers in 30 and 54 in. (76 and 137 cm) belt widths are the largest and most powerful dryers engineered specifically for DTG digital inks and/or screen-printed plastisols, water-based inks and discharge, making them ideal for Kornit® and other high-volume DTG shops, as well as automatic screen printing operations requiring high capacities. An exhaust fan located below the center of the conveyor belt draws the preheated air downward at rates up to 900 cfm (25.5 m3/min), over the garment and through the belt, removing heat, moisture and contaminants from the chamber.

30" Belt	\$14,997.00	\$329.00/mo
54" Belt	\$18,997.00	\$405.00/mo

LR-X1-30

LR-X2-30

### LITTLE RED

All LittleRed X-series dryers come standard with the "X-Series" Conveyor Belt Roller Tracking System with a 30" (76 cm) or 54" (137 cm) wide Teflon coated fiberglass belt. Digital PID Temperature controller is accurate to +/-1°F

2" - 7" (5 - 17.7 cm) belt-to-heater clearance, adjustable separately on each side for each heater, a powered exhaust to remove fumes and moisture (optional on X1) and a DC belt speed control w/ digital display.

#### LR-X1-30

w/o exhaust	\$3,970.00	\$93.00/mo

# WORKHORSE PRODUCTS

Durable & Dependable Screen Printing Machinery

## MACH SERIES

Precision machined, cast aluminum print heads and print wheel. Large diameter, full length center shaft with tapered bearings. Micro-adjust screen angle, super responsive micro registration. Bearing-aided micro cinch-down / anti-droop, print station support struts, large screen capacity, tool-free adjustments, dial-in off contact, extra-large diameter registration points, easy to load, quick change pallets.

**\*ALL MACH SERIES PRESSES COME WITH QUICK RELEASE BRACKETS AND ALUMINUM PALLETS.**  
**\*Monthly payments starting as low as listed. Payments based on 60 month financing plan.**

### M640QR

6-color / 4-station press. Rotary load printing increases production by allowing multiple operators to assist with the loading and unloading of garments while one operator prints. 103" diameter, 23" max screen width.

\$6,500.00 **\$152.00/mo**

### M860QR

8-color / 6-station press. Rotary load printing increases production by allowing multiple operators to assist with the loading and unloading of garments while one operator prints. 111" diameter, 21" max screen width.

\$8,500.00 **\$198.00/mo**

### M66MQR

6-color / 6-station modular press. Expandable to 8-color. 111" diameter, 26" max screen width.

\$7,000.00 **\$163.00/mo**

### M880QR

8-color / 8-station press. Rotary load printing increases production by allowing multiple operators to assist with the loading and unloading of garments while one operator prints. 130" diameter, 26" max screen width.

\$9,500.00 **\$221.00/mo**

## WORKHORSE ACCESSORIES

### SHIRT PALLETS

Sold with or without brackets. Platens are not pre-drilled when ordered without brackets.

Adult: 15"x18"  
Youth: 10"x14"  
Sleeve: 4"x18"  
Oversized: 18"x20"

	BOARD ONLY	W/ BRACKET
Adult	\$50.00	\$90.00
Youth	\$50.00	\$90.00
Sleeve	\$40.00	\$85.00
Oversized	\$60.00	\$100.00

## ODYSSEY SERIES

Large diameter center shaft with tapered bearings. Sturdy tubular steel construction, fine thread micro registration, adjustable off contact, adjustable screen angle and large diameter registration points. Easy to load, quick change pallets.

### O1100B

1-color / 1-station bench model tabletop press. 43" diameter.

\$750.00

### O2100B

2-color / 1-station bench model tabletop press. 52" diameter.

\$1,600.00

### O4100B

4-color / 1-station bench model tabletop press. 52" diameter.

\$2,500.00

### O4400F

4-color / 4-station press. 98" diameter.

\$4,400.00 **\$103.00/mo**

### O6400F

6-color / 4-station press. 98" diameter.

\$5,200.00 **\$121.00/mo**

**SUPPLY ORDERS PLACED BEFORE 4:00PM ET ARE SHIPPED OUT SAME DAY**

### VASTEX V-100 TABLETOP PRESSES

V-100 tabletop screen printing presses are engineered specifically for 1- to 4-color garment printing, overflow printing, and printing in restricted spaces such as spare rooms and mobile shops — at low costs generally associated with machines of lesser accuracy and durability. Expandable from 1-Color/1-Station to 4-Color/4-Station.

#### V10-CraftPrinter Entry level

1-color / 1-station tabletop press.  
Pallet kit includes printer.

Printer \$365.00

Pallet kit \$550.00

#### V100-11

1-color / 1-station tabletop press.

\$750.00

#### V100-44

4-color / 4-station tabletop press.

\$1,638.00

#### S100-STAND

Stand for V100 press.

\$475.00

#### V100 PRINTHEAD

Expand your V100 with additional printheads.

\$138.00

#### V100 PRINT ARM

Expand your V100 with additional print arms.

\$159.00

### VASTEX V-1000 MANUAL PRESSES

The V-1000 uses a unique floating head design. Accurate registration can be achieved without the high cost associated with machines of this capacity. V-1000 presses are offered in tabletop and floor standing models from 1-color / 1-station to 6-color / 4-station in increments of one station and/or one color. Fully expandable, they allow growing shops to start small and add stations and print heads to boost output or achieve special effects.

#### V1-T11

1-color / 1-station tabletop press.

\$952.00

#### V1-T14

4-color / 1-station tabletop press.

\$1,669.00

#### V1-T16

6-color / 1-station tabletop press.

\$2,213.00

#### V1-44

4-color / 4-station press.  
83" diameter, 21" max screen width.

\$3,104.00

#### V1-46

6-color / 4-station press.  
94" diameter, 21" max screen width.

\$3,648.00

#### V-1000 ADD-ONS

SERVICE PAN + WHEEL SET \$213.00

DROP-DOWN WHEEL SET \$208.00

### VASTEX V-2000 MANUAL PRESSES

V-2000 presses are offered in models from 1-color / 1-station to 10-color / 10-station in increments of one station and/or one color. Fully expandable, they allow growing shops to start small and add stations and print heads to boost output or achieve special effects. The V-2000 heavy duty print head allows the industry's fastest set-up and micro-registration, and accepts clamp-on DiGiT athletic numbering jigs and side-clamp accessories in 20 seconds.

*\*Monthly payments starting as low as listed. Payments based on 60 month financing plan.*

#### V2-44

4-color / 4-station press.  
91" diameter, 39" max screen width.

\$4,898.00 **\$114.00/mo**

#### V2-46

6-color / 4-station press.  
97" diameter, 39" max screen width.

\$6,094.00 **\$142.00/mo**

#### V2-66

6-color / 6-station press.  
99" diameter, 39" max screen width.

\$7,290.00 **\$170.00/mo**

#### V2-88

8-color / 8-station press.  
109" diameter, 39" max screen width.

\$9,443.00 **\$220.00/mo**

#### V2-1010

10-color / 10-station press.  
131" diameter, 39" max screen width.

\$11,835.00 **\$259.00/mo**

#### V-2000 ADD-ONS

# PREMIER ENTRY-LEVEL AUTOMATIC

\*FLASHBACK COMPATIBLE

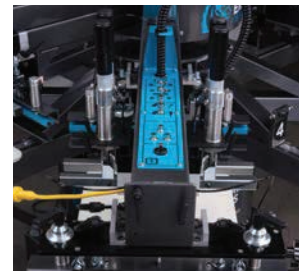

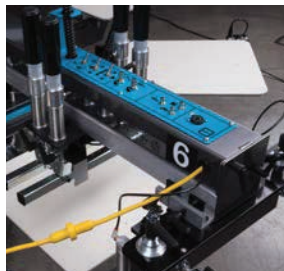

## FREEDOM EXPRESS

Workhorse introduces the premier entry-level automatic on the market - the Freedom Express. Following the design of the groundbreaking Sabre, the Freedom Express offers features you wouldn't expect to find in an entry-level press. Featuring the state-of-the-art Workhorse Operating System, this is the easiest entry-level press to operate and maintain. The Freedom Express can run your 20x24 or 20x28 frames for the maximum image. This is the perfect press to move you from manual to automatic printing. Utilizing the Owners Portal gives you a free and easy flow of information between your office and the machine. The feature rich Freedom Express is the greatest value for anyone entering the world of automatic printing.

*\*Monthly payments starting as low as listed. Payments based on 60 month financing plan.*

6-Color / 8-Station Automatic Press.

6/8 \$30,750.00 **\$649.00mo**

## STANDARD FEATURES

### TOUCH SCREEN CONTROL PANEL

Intuitive, easy to understand.  
Multiple language settings.  
Real-time production speedometer  
Centrally controlled flash and dwell times  
Workhorse's Portal (Wi-Fi) Connectivity

### WORKHORSE OS TOUCHSCREEN INTERFACE

Sample Print Mode  
Missed Shirt Feature  
Begin / End Production  
Adjustable Print / Flood / Index Delay  
Single / Double Print Stroke with Production Counter  
Emergency Stop

### ON-HEAD PRINT CONTROLS

Independent print and flood speed with front and rear pneumatic screen clamp switches.  
Table up / down, index and print buttons

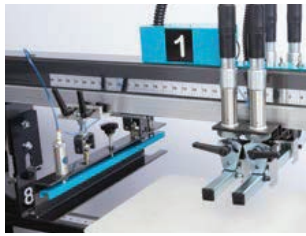

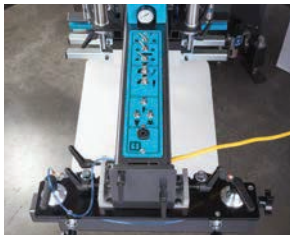

### SQUEEGEE / FLOODBAR

Uses industry standard squeegees, floodbars and locking system.  
Complete assemble and all adjustments are tool-free.  
Pneumatic pressure, speed and angle adjustments can all be independently set.  
Front and rear carriage stop positions.

# PREMIER MID-LEVEL AUTOMATIC

\*FLASHBACK & PLUG-N-GO COMPATIBLE

## STANDARD FEATURES

### TOUCH SCREEN CONTROL PANEL

Mounted on a pivoted control arm to provide optimal screen placement.  
Intuitive, easy to understand.  
Multiple language settings.  
Real-time production speedometer  
Centrally controlled flash and dwell times  
Workhorse's Portal (Wi-Fi) Connectivity  
Unlimited stroke capabilities on each printhead.

### INDEX SYSTEM

AC / Electric indexer provides smooth, fast, precise and ultra-quiet indexing. Increases press longevity & consistency.  
Instant clockwise / counter-clockwise indexing  
Zero-delay double indexing and multi-station indexing  
Four-point off-contact adjustment

### ON-HEAD PRINT CONTROLS

Independent print and flood speed with front and rear pneumatic screen clamp switches.  
Table up / down, index and print buttons

### PALLETS / SQUEEGEE / FLOODBAR

Tool-free quick release, 3-point leveling pallet arms with rubber coated aluminum pallets.  
Pneumatic squeegee & floodbar locks.  
Independent pressure regulator for advanced control.  
Tool-free independent angle, pressure and speed adjustments.  
Advanced chopper system, which improves stroke length and facilitates set-up and tear-down by allowing more screen clearance.  
Angle reference marks every 5 degrees for precise squeegee and floodbar adjustments.

### CUTLASS

Workhorse delivers the ultimate in hardworking style. The Cutlass SE is designed with the everyday rigors of your print shop in mind. The Cutlass offers practical, easy to use pneumatic printheads and features a powerful, efficient and precise electric indexing system. Powered by the industry leading Workhorse OS, all of the options you need to take control are right at your fingertips. The Cutlass encompasses the same proven build quality that Workhorse is known for and with an economical price point, the Cutlass is the most functional and affordable press in its class.

The Workhorse Cutlass features the Workhorse OS with Orbital Mode, Electric Index, On-head Print Controls, Flashback Compatibility, 20"x20" Print area, Full diagnostic and testing from touch screen controls, On the fly timer and stroke changes, and real-time production and count data.

**\$109,428.00** **\$2,263.00/mo**

# LEARNING CURVE

## A 1 DAY HANDS-ON TRAINING WORKSHOP AT TECH SUPPORT SPS

Tech Support's one day training workshop discusses and demonstrates the techniques used to successfully print garments of all types.

Workshop instructor and Tech Support owner, Bill Redeker, has 26 years experience in the screen print industry. He has been conducting training workshops for 19 years and takes great pride in having helped hundreds of people improve their businesses, or start their own companies.

### OUR WORKSHOPS ARE HIGHLY RECOMMENDED FOR THOSE WHO:

Are considering starting their own screen printing business BEFORE making financial investments.

Are already printing, but have no formal training. We can answer questions and demonstrate proper techniques to enhance your printing abilities.

Have new employees that need to be up to speed quickly.

Discussions are intended to give insight to the variables involved in the process and break them down to understand the cause and effect. Topics are addressed to help troubleshoot potential printing issues often with simple solutions.

### TOPICS INCLUDE:

- Mesh selection and stencil making
- Artwork output needs
- Plastisol inks and garments
- Press setup
- Screen reclaiming
- Shop layout

The hands-on objective is to allow attendees the opportunity to take a screen through a full cycle of the screen printing process. Workshop attendees will have the opportunity to physically coat screens with both liquid emulsion and capillary film, expose and rinse out images, get the screen "press ready", register screens for multicolor designs, print and reclaim screens.

**\$199 / First Person**

**\$150 / Each additional person from the same company**

Interested in sending your entire production staff to the workshop? Ask about our consulting services offered at your company site.

To ensure optimal one-on-one attention, class sizes are limited to a maximum of eight attendees.

Tuition covers cost of workshop and all materials.

Travel expenses, lodging & meals are not included.
