

How many models of Stages Indoor Cycling bikes do you sell?

Modified on: Thu, 6 Dec, 2018 at 2:41 PM

We currently offer four bike models, the Stages Solo bike and SC3, SC2, and SC1 series bikes. In addition to these models, we have a custom bike program that allows studios to customize an order of bikes to their specification. To learn more about each model, please download our most recent catalog **[HERE](#)**

<https://support.stagesindoorcycling.com/support/solutions/articles/5000576462>).

- The Stages Solo bike comes standard with a Stages Power meter and a touch screen interactive tablet display, featuring built in workout programming, including videos and music.
- The SC3 comes standard with a Stages Power meter and Stages EcoSCRN Display with self generating power source.
- The SC2 bike features the same FitLoc fit adjustment system, Gates® Carbon Drive™ carbon fiber belt, and aluminum frame as the SC3 and can be upgraded to feature Stages Power meter and a standard battery powered console.
- The SC1 has a steel frame and features a standard pop-pin height & our patented fore-aft adjustment system along with Gates® Carbon Drive™ carbon fiber belt, RoadBar, and other premium features. The SC1 can also be upgraded with the Stages Power meter and a standard battery powered console.
