

CARE AND SAFETY

1. Device care Instructions

Only clean your device with a magic eraser or with a lightly damp cloth.

2. General Safety

Before using or charging the Theragun or lithium-ion batteries, read all of the instructions and cautionary markings in this manual, on the charger, on the battery, and on the Theragun device. Please note: new batteries must be charged before first use.

- Do not place your finger or any objects near the metal piston above the attachment while the Theragun is in use or immediately after use. The metal piston can become extremely hot.
- Do not use any attachments or batteries other than the ones provided by Therabody and use only as instructed by Therabody.
- Do not use the Theragun on your head, neck, or near your genitalia.
- Do not get hair caught in the attachment arm or in any other moving part on the Theragun.
- This product is not intended to diagnose, treat, or prevent any diseases.
- Do not use on any open wounds or surgical incisions prior to stitches.
- Do not get the Theragun wet other than by cleaning it with a magic eraser or a lightly damp towel.
- Do not block the vents of the motor.
- Do not reverse the polarity of the battery by inserting it upside down - only insert with the flat side facing the sliding button.
- To extend the life of the battery, remove the battery from the charger once the light stops flashing.
- If you are pregnant, please consult your physician before use.
