

STEEL BRAIDED BRAKE LINES

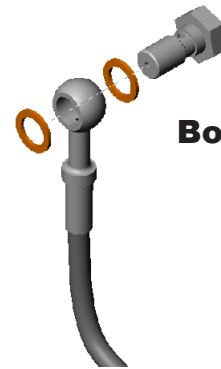

Top

First remove all of the stock brake lines & hardware, including the steel line. Next at the master cylinder attach the two lines with the double banjo bolt as shown. Then route the lines through the frame attaching them to secure points with zip ties or line clamps. Run lines to individual calipers.

Kit Includes:

- 1) Double Banjo Bolt**
- 2) Single Bolts**
- 2) Brake Lines**
- 7) Crush Washers**

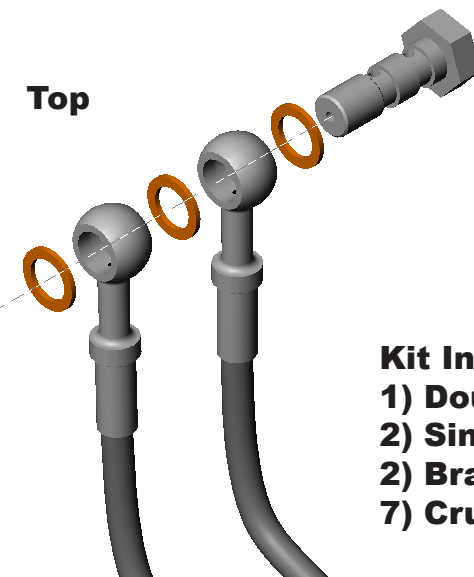

Bottom

Contact us if you need billet brake line clamps!
