

Combustion Air Silencer

Fitting Instructions

The combustion air silencer fits onto the end of the heater's combustion air pipe. It acts as both a filter and a silencer for the unit.

To Fit:

- 1) Use as it comes for 24mm applications, or cut along the desired edge for 22mm, and 20mm applications as shown in the picture below.
- 2) If there is one, cut the end cap off the existing combustion air pipe.
- 3) Screw the silencer into the combustion air pipe.
- 4) The silencer can be secured in place using a relevant clip.

MV Heater Model	Combustion Air Pipe Size
MV Airo 2	22mm
MV Airo 2 Boost	24mm
MV Airo 4	24mm
MV Airo 5	24mm
MV Hydro 5	20mm
