

PURE
WATER SYSTEMS

BIG WHITE WASHABLE PACKAGE

The Pure Water Systems Big White Washable system is installed outside, inline from your tank to your home. It offers superior filtration of heavy sediment and dirt particles at the point of entry and can be supplied with either a 5, 10, 20, 50 or 100 micron Cartridge, depending on the quality of your water and your needs.

The Big White utilises a high flow, pleated filter Cartridge which can be rinsed periodically to maintain the filters performance and is constructed using only the highest quality parts and fittings available, sourced from the worlds leading manufacturers world wide. This system is an economical solution to your filtration needs and is available for use with tank water supplies.

Pure Water Systems offers a 3 year parts and labour warranty coupled with our Pure Quality Guarantee*, ensuring that you are receiving the best quality water available and value for money.

KEY BENEFITS

- Reduction of heavy sediment that may effect the quality of your water.
- Easy to use with no complicated features.
- Superior performance, specifically designed for Australian water.
- Plumbed directly inline from your tank to your home.
- Great tasting water without removing essential minerals.
- Highest quality parts and fittings for greater peace of mind.
