Section 4 - First Aid Measures

Inhalation: Move to fresh air. If breathing remains or becomes labored, seek medical attention.

Eye Contact: Flush with water for 15 minutes. Seek medical attention.

Skin Contact: Wash with soap and water. If irritation persists, seek medical attention.

Ingestion: Give 3-4 glasses of water if the affected person is concious. DO NOT INDUCE VOMITTING! Obtain medical care and treatment.

General: Remove affected person from area. Treat syptomatically.

Section 5 - Fire Fighting Measures

UEL:

Flammable Limits: Extinguishing Media: Water, CO2, Dry Chemical.

Unusual Fire and Explosive Hazards: Polymer film can burn, material can splatter above 100°C

Hazardous Combustion Products: CO, CO2

Fire Fighting Procedures: Wear self-contained breathing apparatus and protective clothing. Water spray is useful in cooling fire-exposed vessels and in dispersing vapors.

Special Fire Fighting Procedures: None likely with small quantities. For large quantities, firefighters and others exposed to vapors or products of combustion should wear butyl rubber boots, gloves, and body suit. Self-contained breathing apparatus should be worn.

Section 6 - Accidental Release Measures

Spill and Leak Procedures: Cover spills with absorbent. Place in metal containers for recovery or disposal. Prevent entry into sewers, storm drains, and waterways.

Section 7 - Handling and Storage

Handling Precautions: Store in a cool, well ventilated area. Keep away from heat and open flames. Avoid prolonged inhalation of heated vapors or mists. Avoid prolonged skin contact. **Storage Requirements:** Store between 40°F and 100°F protected from frost and direct sunlight.
